

FIND YOUR SHADE MATCH

LUMINOUS LIQUID FOUNDATION SPF 18

What's your undertone?

Different from complexion, undertone is the subtle color underneath your skin that never changes.

COOL

- Pink, red or blue hues in skin
- Skin may burn easily in the sun
- Wrist veins appear blue or purple

NEUTRAL

- Mix of peach, warm or cool hues in skin
- Skin may tan more easily than it burns in the sun
- Wrist veins appear blue, purple or green

WARM

- Yellow, golden or olive hues in skin
- Skin may tan easily in the sun
- Wrist veins appear green
