Power your treatment room with Glo Skin Beauty.

Are you ready to peel?

Before you get started, make sure to review these essentials:

NEED TO DO: PRE-TREAT YOUR CLIENT’S SKIN

- Imperative prior to professional peel services
- Helps protect your professional service - reduces potential for adverse reactions/irritation
- Enhances client experience - better results, increased satisfaction

HOW TO PRE-TREAT THE SKIN

- Helps protect your professional services - reduces potential for adverse reactions/irritation
- Start at least 30 days prior to professional peel
- Discontinue use 3-5 days prior to professional peel

PRE-TREATING INGREDIENT HEROES

- *Retinol*: Retinol+ Resurfacing Serum
- *Hydroxy acids*: Hydra-Bright Pro 5 Liquid Exfoliant
- *Brighteners*: C-Shield Anti-Pollution Drops, Hydra-Bright Pro 5 Liquid Exfoliant

TOP PRODUCT RECOMMENDATIONS FOR PRE-TREATING SKIN

- Hydra-Bright Pro 5 Liquid Exfoliant

NEED TO HAVE: PRE + POST PEEL PRODUCTS

Four products are treatment room must-haves if you are going to perform peel services.

PRE-PEEL

Introduce peeling/chemical exfoliation in steps to allow for a controlled treatment with optimal results, starting with Hydra-Bright Pro 5 Liquid Exfoliant.

PEEL PREP

The next step of a peel service includes Hydra-Bright Pro 5 Liquid Exfoliant to degrease the skin and Barrier Balm to protect delicate areas of the face.

POST PEEL

Deactivate the peel, balance pH, cool and hydrate skin to promote healing with Neutralizer.

NEED TO KNOW: HOW TO APPLY A PEEL

GLYCOLIC APPLICATOR

Softest application, non-absorbing material (limits product waste); ideal use for sensitive or sensitized skin.

2X2 COTTON FILLED GAUZE PAD

Textured material enhances (physical) exfoliation; use for clients that are not sensitive in order to enhance exfoliation level.

MASK BRUSH

Evenly distributes non-liquid products like cream-based and gel formulas.

GLO LEVEL SYSTEM

Exfoliants grouped by strength from low to high: Levels 1-3

BACK BAR EXCLUSIVE
