PROFESSIONAL BACK BAR TRAINING MANUAL

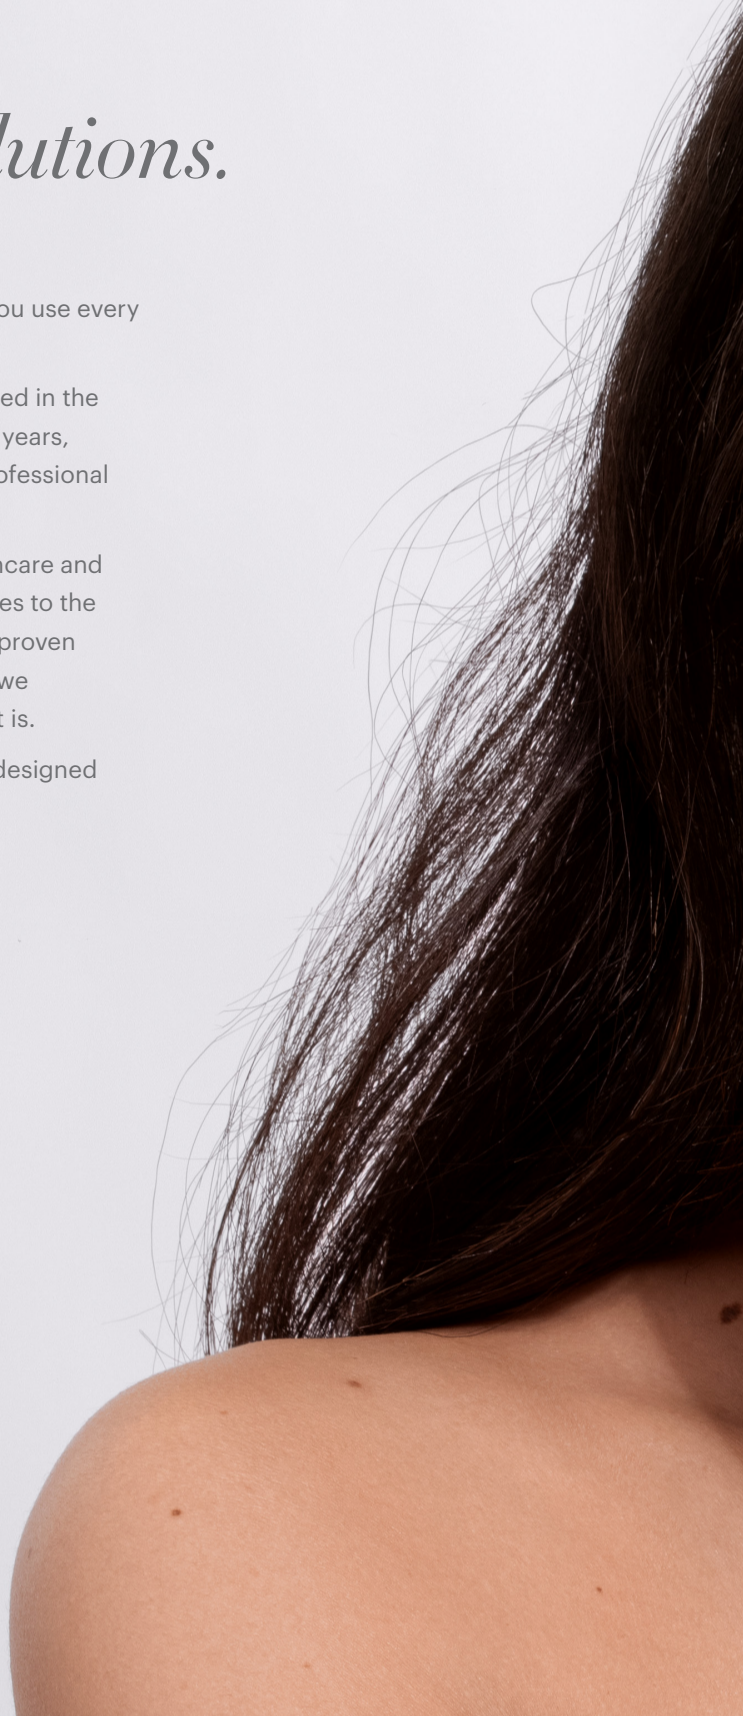

Clean + clinical skin *solutions.*

At Glo Skin Beauty, we believe skincare is selfcare, and the products you use every day should make a significant difference to your health and wellbeing.

Our brand was founded 25+ years ago by a plastic surgeon who believed in the power of chemical peels to produce game-changing results. Over the years, we've built on this belief to develop a complete line of high-quality, professional treatments and at-home solutions.

We obsessively research our formulations to bring only the best in skincare and beauty. Our Professional channel heritage means that we hold ourselves to the highest standards, offering efficacious products that deliver clinically-proven results. It also means we only use trusted, clean ingredients, because we understand that what's not in our products is just as important as what is.

The result? Consciously clean, clinically-proven solutions specifically designed to produce real change in your client's skin.

This training manual is specifically for the Professional, designed to offer treatment room support. Everything you need to know regarding back bar products and ingredients, treatment protocols, and resource information can be found here.

BACK BAR PRODUCTS

Glo Skin Beauty has professional product offerings for every step of your skin treatment, from cleansing to moisturizing. Review product detail for Pro Products, including back bar sizes of retail products as well as professional-use only Peels and Exfoliants, Massage, and Mask offerings.

TREATMENT PROTOCOLS

Do you want to perform expert, results-oriented treatments, but are wondering where to start? Look no further. Our professional protocols provide step-by-step guidance for treatment room transformation. Also includes detailed instruction sheets to easily master both of Glo's Signature Massage Touch Techniques.

RESOURCES

Additional information and reference tools provide insight to support your treatment plan design and execution. Includes pre treatment necessities, like the Client Consultation, post treatment care instructions, and more.

GLO PEEL LEVEL SYSTEM

Versatility and customization is yours with 15 peel options. Each Glo Skin Beauty chemical exfoliant and peel is grouped according to its relative strength, low to high, from 1 to 7. Our level system gives you a better understanding of the depth, strength, and activity a peel provides as well as anticipated downtime.

LEVELS 1 & 2

Support and elevate your professional peel services with one of our at-home safe peel boxes. Having a client use before a treatment or peel series can help prep skin for stronger services and provide an important indicator to any sensitivities or reactions. Incorporating prior to, between and/or after professional treatments will help extend and amplify clients' results.

- Level 1: Designed for new and first time peel clients.
- Level 2: Best for clients that have had previous peels.

Hydra-Bright AHA Glow Peel, Retinol + C Smoothing Peel, Beta-Clarity AHA Clarifying Peel, GlyPro AHA Resurfacing Peel

LEVEL 3

The perfect start. This introductory professional-only level peel offers a wide range of client application—great for first time peel clients and/or sensitive skin targeting dullness and signs of aging. While still a professional level exfoliation, meaning stronger than any at-home safe or retail equivalent, the client will most likely experience only slight activity on the skin during treatment. Though there is no significant downtime afterward, it is not uncommon for the skin to have redness for a few hours. The skin will be rejuvenated and fresh with a boost of radiance.

Flower Enzyme

LEVEL 4

More specific and targeted. This level is designed for a more specific audience and targets two top concerns: clear skin and bright skin. Within this range of peels, it is common for the client to experience activity on the skin during treatment, keep that in mind for first time peel clients and sensitive skin, but there should be no downtime afterward. Post treatment, the skin may have a slightly flushed appearance and overall will be glowing.

Enzyme, Hydra-Bright AHA Glow Peel, Beta-Clarity AHA Clarifying Peel

LEVEL 5

True customization and layering starts here. These peels are perfect not only for all over use, but also for spot or area application. Designed for all skin types except sensitive, both of these extremely versatile peels offer little to no downtime. It is likely for the skin to have slight redness post treatment with visible improvement in skin conditions and texture after a single service.

GlyPro AHA Resurfacing Peel, Beta Clarity Peel

LEVEL 6

The definition of multitaskers. These peels are designed to tackle multiple concerns at the same time. Due to their strength, not for use on first time peel clients or sensitive skin. Post treatment, skin will be in a delicate state with potential downtime of 3-14 days. Skin will look smoother and refined. After 24 hours, it will usually feel tight and very likely follow with visible sloughing.

GlyPro Power Peel+, Retinol + C Peel Boost Max, Triple Transformation Peel

LEVEL 7

The highest level for maximum impact. Two physician strength peels target multiple concerns and create the highest level of transformation within the Glo Skin Beauty peel series. Based on their tolerance, typically a client will build up to this level after several treatments. Not designed for first time peel clients. Downtime is common of 7-14 days. Initially after treatment, skin will feel tight, then will most likely darken, then peel.

AB Clinical Renewal Peel, TCA Clinical Reveal Peel

Pre & Post Peel Products

PROTECT SKIN BEFORE AND AFTER A PEEL

Perform and achieve the ideal chemical peel service. Glo Skin Beauty peels are designed to work best with specific products for use prior to and after chemical exfoliation. Pre peel care ensures skin is properly prepped for the chemical peel and sensitive areas are protected. Post peel care is designed to help skin when it is in its most delicate state, helping balance pH, and offer additional calming to promote skin healing.

Hydra-Bright Pro 5 Liquid Exfoliant

EXFOLIANT

RECOMMENDED FOR: ALL SKIN TYPES

Clinically-proven to brighten, smooth, and impart radiance with a blend of five alpha and poly hydroxy acid at a 10% concentration; this liquid exfoliant boosts the efficacy of masks, serums, and professional treatments.

FREQUENCY: 1X/WEEK

RETAIL: 60 mL / 2 fl. oz.

pH: 3.5

CAN BE LAYERED: YES

BACK BAR: 118 mL / 4 fl. oz.

KEY BENEFITS

- **BRIGHTENING:** Radiance-renewing exfoliant including mandelic, lactic, gluconic, and tartaric acids, visibly improves skin clarity.
- **SMOOTHING:** Gentle exfoliation via alpha hydroxy acids and poly hydroxy acid helps minimize the appearance of fine lines and pores.
- **TONING:** Formulated to boost effectiveness of treatments, serums, and moisturizers, post cleanse.

KEY INGREDIENTS

- **AHAs:** Unique mix of alpha hydroxy acids mandelic, lactic, malic, and tartaric, to target hyperpigmentation and reduce congestion for a smoother, brighter effect.
- **PHA:** This gluconic acid provides gentle exfoliation and instant hydration.
- **NIACINAMIDE:** Clarifies, calms, and corrects.

Hydra-Bright Pro 5 Liquid Exfoliant

PROFESSIONAL PROTOCOL

Apply with a Glycolic Applicator or 2x2 cotton-filled gauze pads and leave on 1-3 minutes. Can be layered. Does not need to be neutralized. Excellent to help prepare skin for extractions. Note: A patch test is recommended 24-48 hours prior to treatment. Review Pre Treatment: Best Practices for chemical peels in the Resources section of this Training Manual for additional detail.

INGREDIENTS

Aqua/Water/Eau, Mandelic Acid, Lactic Acid, Gluconic Acid, Glycerin, Saccharum Officinarum (Sugarcane) Extract, Ammonium Hydroxide, Malic Acid, Tartaric Acid, Niacinamide, Carnosine, Phyllanthus Emblica Fruit Extract, Citrus Limon (Lemon) Fruit Extract, Citrus Aurantium Dulcis (Orange) Fruit Extract, Pyrus Malus (Apple) Fruit Extract, Camellia Sinensis Leaf Extract, Sodium Metabisulfite, PEG-8/SMDI Copolymer, Phenoxyethanol

We are dedicated to maintaining accurate product ingredient listings. Because ingredients may be subject to change, for the most current and accurate listing of ingredients in each product, please refer to your product packaging.

DID YOU KNOW?

Not sure whether to use Beta-Clarity Pro 5 Liquid Exfoliant or Hydra-Bright Pro 5 Liquid Exfoliant? If your client's skin is congested or is starting to breakout, use the Beta-Clarity Pro 5 Liquid Exfoliant and recommend follow up with Beta-Clarity BHA Drops. If your client's skin is clearer, use the Hydra-Bright Pro 5 Liquid Exfoliant. And, for sensitive or dry skin that isn't prone to breakouts, Hydra-Bright Pro 5 Liquid Exfoliant will be a go-to. For consistently oily and breakout-prone, use Beta-Clarity Pro 5 Liquid Exfoliant only.

CLEAN + CLINICAL RESULTS

Clinically proven to brighten skin, reducing the appearance of pores and fine lines, and improving skin texture after one week of use—with increased efficacy after one month.

CLINICAL GRADING:

- Skin Texture SE Assessment (VisioScan): There was a 25.58% improvement in skin texture after 1 month of use.
- Skin Radiance Assessment: There was immediate improvement (+10.86%) in skin radiance; after a single use.

AFTER 1 WEEK OF USE:

- 88% said skin was brighter
- 82% said skin was softer
- 79% said skin was smoother

AFTER 1 MONTH OF USE:

- 94% said skin looks more clear
- 85% said pores appear minimized (reduced)
- 79% said fine lines are less noticeable

A one month independent clinical study conducted on 34 healthy female volunteers, ages 35-64, that assessed improvement in skin radiance, smoothness/texture and measured skin tolerance from product (potential for irritation). Results reported after the following intervals: immediate, one week and one month.

Beta-Clarity Pro 5 Liquid Exfoliant

EXFOLIANT

RECOMMENDED FOR: ALL SKIN TYPES

A gentle pro-strength exfoliating treatment, Beta-Clarity Pro 5 Liquid Exfoliant smooths, clears, and brightens skin with a powerhouse mix of five acids at a 10% concentration. This one-step exfoliant not only clarifies, conditions, and refines, but also boosts the efficacy of your serums and moisturizers, for a more radiant, clear complexion.

FREQUENCY: 1X/WEEK

RETAIL: 55 mL / 1.8 fl. oz.

pH: 3.5

CAN BE LAYERED: YES

BACK BAR: 118 mL / 4 fl. oz.

KEY BENEFITS

- **CLARIFYING:** Balances excess oils and draws out impurities, clearing debris from surface and within pores.
- **EXFOLIATING:** Refines and retextures the appearance of pores and fine lines.
- **BRIGHTENING:** Targeting post inflammatory hyperpigmentation caused by blemishes, for a more even, radiant complexion.

KEY INGREDIENTS

- **10% CLARIFYING 5 ACID COMPLEX:** A unique blend of hydroxy acids including mandelic, azelaic, salicylic, gluconolactone, and kojic acid, for brightening, clarifying, exfoliating properties.
- **VITAMIN C:** Delivers a brightening boost and targets post-blemish marks.
- **NIACINAMIDE:** Clears and balances pores, reducing their appearance and preventing further congestion.

Beta-Clarity Pro 5 Liquid Exfoliant

PROFESSIONAL PROTOCOL

Apply with a Glycolic Applicator or 2x2 cotton-filled gauze pads and leave on 1-3 minutes. Can be layered. Does not need to be neutralized. Excellent to help prepare skin for extractions. Note: A patch test is recommended 24-48 hours prior to treatment. Review Pre Treatment: Best Practices for chemical peels in the Resources section of this Training Manual for additional detail.

INGREDIENTS

Aqua/Water/Eau, Alcohol Denat., Mandelic Acid, Propanediol, Glycerin, Aminomethyl Propanol, Gluconolactone, Kojic Acid, Niacinamide, Polysorbate 20, Salicylic Acid, Leuconostoc/Radish Root Ferment Filtrate, Potassium Azeloyl Diglycinate, Butylene Glycol, Bisabolol, Phytic Acid, Caprylic/Capric Triglyceride, 3-O-Ethyl Ascorbic Acid, Polyacrylate Crosspolymer-6, Sodium Gluconate, Xanthan Gum, Melaleuca Alternifolia (Tea Tree) Leaf Oil, Mentha Piperita (Peppermint) Oil, Dimethylmethoxy Chromanol, Mirabilis Jalapa Flower/Leaf/Stem Extract, Citric Acid

We are dedicated to maintaining accurate product ingredient listings. Because ingredients may be subject to change, for the most current and accurate listing of ingredients in each product, please refer to your product packaging.

DID YOU KNOW?

Not sure whether to use Beta-Clarity Pro 5 Liquid Exfoliant or Hydra-Bright Pro 5 Liquid Exfoliant? If your client's skin is congested or is starting to breakout, use the Beta-Clarity Pro 5 Liquid Exfoliant and recommend follow up with Beta-Clarity BHA Drops. If your client's skin is clearer, use the Hydra-Bright Pro 5 Liquid Exfoliant. And, for sensitive or dry skin that isn't prone to breakouts, Hydra-Bright Pro 5 Liquid Exfoliant will be a go-to. For consistently oily and breakout-prone, use Beta-Clarity Pro 5 Liquid Exfoliant only.

CLEAN + CLINICAL RESULTS

AFTER 1 WEEK OF USE:

- 90% said improved skin texture + smoothness
- 86% said skin feels more balanced
- 86% said it helped clear breakouts

AFTER 1 MONTH OF USE:

- 93% said improved skin texture + smoothness
- 90% said skin feels more balanced
- 90% said it helped clear breakouts + minimize appearance of pores

CLINICAL GRADING:

- Improves skin texture
- Improves and reduces oiliness + shine

A one month independent clinical study conducted on 34 healthy volunteers, ages 20-45, presenting oily skin with acne tendency. Results reported after the following intervals: one week and one month.

Peel Prep

PRE-PEEL

RECOMMENDED FOR: ALL SKIN TYPES

Prepare skin for professional exfoliation for a more even and effective exfoliation application.

FREQUENCY: 1X/WEEK

pH: 2.0

BACK BAR: 118 mL / 4 fl. oz.

KEY BENEFITS

- **CLARIFYING:** Degreases and balances any excess oils that could prevent effective exfoliation treatment penetration.
- **TONES:** Prepares and softens skin for an even and effective treatment.
- **SENSITIVITY TEST:** Helps gauge skin tolerance for peel treatments.

KEY INGREDIENTS

- **CITRIC ACID:** An antioxidant, it preserves natural moisture levels and protects skin.
- **GALLIC ACID:** An antibacterial, antioxidant, it inhibits tyrosinase.
- **WITCH HAZEL:** Antioxidant, astringent, it soothes and heals the skin.

Peel Prep

APPLICATION

Apply with 2x2 cotton filled gauze pads to dry skin and allow to dry before applying chemical peel.

INGREDIENTS

Alcohol Denat., Aqua/Water/Eau, Hamamelis Virginiana (Witch Hazel) Water, Citric Acid, Gallic Acid, Alcohol, Cholic Acid, Phyllanthus Emblica Fruit Extract, Carnosine, Niacinamide, Phenyl t-Butylnitrone

We are dedicated to maintaining accurate product ingredient listings. Because ingredients may be subject to change, for the most current and accurate listing of ingredients in each product, please refer to your product packaging.

DID YOU KNOW?

The perfect skin prep ahead of professional exfoliation treatments, Peel Prep should be applied ahead of all peels to set skin up effectively. Preparing and degreasing skin by gently removing oil and softening skin's surface, it helps deliver a more even application of chemical exfoliation, allowing it to penetrate more effectively. It also serves as an indicator for a client's sensitivity. If they have an activity level above a 2 (out of a scale of 1-5), your focus should be a level 1 peel with homecare products to help calm skin and strengthen its barrier.

Barrier Balm

PRE-PEEL

RECOMMENDED FOR: ALL SKIN TYPES

This multitasking balm and skin salve formulated with protective emollients, vitamins, and antioxidants is designed to protect delicate areas of the face during chemical exfoliation.

FREQUENCY: 1X/WEEK

pH: 4.0

BACK BAR: 60 mL / 2 fl. oz.

RETAIL: 15 mL / 0.5 fl. oz.

KEY BENEFITS

- **SHIELDING:** Botanical skin-defending emollients create a protective barrier, preventing further dryness or irritation.
- **MULTI-USE:** Formulated to nourish, protect, and repair lips, dry patches across the body, or on the face for a natural dewy highlight effect.
- **HYDRATING:** Replenishing lost moisture and fortifying skin's barrier, plumping and conditioning the complexion.

KEY INGREDIENTS

- **BISABOLOL:** An anti-inflammatory that increases skin hydration and soothes irritation.
- **ROSE HIP SEED OIL:** A natural emollient and anti-inflammatory, it preserves skin's elasticity and refines texture.
- **VITAMIN E:** A nourishing and calming antioxidant with anti-inflammatory properties.

Barrier Balm

APPLICATION

Apply a small amount to all sensitive areas of the face prior to applying a chemical peel. Can also be applied to the lips as a finishing step for conditioning and shine.

INGREDIENTS

Petrolatum, Aqua/Water/Eau, Glycerin, Bisabolol, Rosa Canina (Rose Hip) Fruit Oil, Zanthoxylum Americanum Bark Extract, Tocopheryl Acetate, Squalane, Lavandula Hybrida Oil, Cymbopogon Martini Oil, Alcohol Denat., Niacinamide, Acetyl Tributyl Citrate, Emblica Officinalis Fruit Extract, Carnosine, Phenyl t-Butylnitrone, Geraniol, Limonene, Linalool

We are dedicated to maintaining accurate product ingredient listings. Because ingredients may be subject to change, for the most current and accurate listing of ingredients in each product, please refer to your product packaging.

Neutralizer

POST-PEEL

RECOMMENDED FOR: ALL SKIN TYPES

Deactivates any professional chemical exfoliants, helping cool and calm skin, readying for next steps.

FREQUENCY: 1X/WEEK

pH: 8

BACK BAR: 465 mL / 15 fl. oz.

KEY BENEFITS

- **NEUTRALIZING:** This formulation deactivates any chemical exfoliation product remaining on skin.
- **BALANCING:** It rebalances skin's natural pH, post exfoliation.
- **HEALING:** Cooling, calming, and hydrating skin, it promotes recovery.

KEY INGREDIENTS

- **EGCG:** A potent antioxidant, antibacterial, and anti-inflammatory.
- **CALCIUM CARBONATE:** Neutralizes any chemical exfoliant used on skin.
- **SHEA BUTTER:** A deeply conditioning emollient, it strengthens, conditions, and heals skin.

Neutralizer

PROFESSIONAL PROTOCOL

Shake well. Apply with aesthetic wipes until activity level has decreased. An initial tingling sensation is not unusual and will decrease.

INGREDIENTS

Aqua (Water/Eau), Hamamelis Virginiana (Witch Hazel) Water, Butyrospermum Parkii (Shea Butter), Alcohol Denat., Glycerin, Calcium Carbonate, Epigallocatechin Gallate (EGCG), Phyllanthus Emblica (Amla) Fruit Extract, Carnosine, Niacinamide, Phenyl t-Butylnitrone (Spin Trap)

We are dedicated to maintaining accurate product ingredient listings. Because ingredients may be subject to change, for the most current and accurate listing of ingredients in each product, please refer to your product packaging.

DID YOU KNOW?

The most effective way to deactivate a chemical exfoliant is with Neutralizer. The reason for an initial tingling or heat sensation occurs as an effect of change in pH. This extra tingling will subside soon after.

Hydra-Bright AHA Glow Mask

MASK

RECOMMENDED FOR: ALL SKIN TYPES CONCERNED WITH AGING AND HYPERPIGMENTATION

A smoothing, brightening treatment mask to boost radiance and target pigmentation.

FREQUENCY: 1X/WEEK

pH: 3.54

BACK BAR: 230 mL / 7.8 fl. oz.

KEY BENEFITS

- **BRIGHTENS:** A blend of botanical brighteners helps boost skin's radiance while evening out skin tone and texture.
- **SMOOTHES:** Exfoliates and boosts skin's renewal and cell turnover for a smoothed effect.
- **NOURISHES:** A nutrient-loaded treatment to replenish and nourish.

KEY INGREDIENTS

- **LACTIC ACID:** Gently exfoliates and improves skin tone, texture, and the appearance of fine lines.
- **LICORICE:** Inhibits hyaluronidase and tyrosinase.
- **ALPHA ARBUTIN:** A botanical brightener which inhibits tyrosinase to help even skin tone.

Hydra-Bright AHA Glow Mask

PROFESSIONAL PROTOCOL

Mix 1 tsp Hydra-Bright AHA Glow Mask with 1/4 tsp Vitamin C Powder. For sensitive skin, use 1/8 tsp Vitamin C Powder. Apply a thin, even layer with the Treatment Room Mask Brush and leave on 2-5 minutes. Remove with warm towel. Hydra-Bright AHA Glow Mask can be used alone.

INGREDIENTS

Aqua/Water/Eau, Hamamelis Virginiana (Witch Hazel) Water, Glycerin, Alpha-Arbutin, Caprylic/Capric Triglyceride, Lactic Acid, Stearic Acid, Alcohol, Cetyl Alcohol, Xanthan Gum, Glycol Distearate, Nonapeptide-1, Tricholoma Matsutake Extract, Glycyrrhiza Glabra (Licorice) Root Extract, Lavandula Angustifolia (Lavender) Oil, Mentha Arvensis Leaf Oil, Citrus Aurantifolia (Lime) Oil, Rumex Occidentalis Extract, Passiflora Incarnata Flower Extract, Phyllanthus Emblica Fruit Extract, Tocopheryl Acetate, Glycine Soja (Soybean) Oil, Titanium Dioxide, Gluconolactone, Dimethicone, Allantoin, Caprylyl Glycol, Glycyrrhetic Acid, Dextran, Carbomer, Glucosamine HCl, Sodium Benzoate, Phenoxyethanol, Potassium Sorbate

We are dedicated to maintaining accurate product ingredient listings. Because ingredients may be subject to change, for the most current and accurate listing of ingredients in each product, please refer to your product packaging.

Vitamin C Powder

BOOST

RECOMMENDED FOR: ALL SKIN TYPES

A concentrated powder to boost brightening and antioxidant power in professional treatments.

FREQUENCY: 1X/WEEK

pH: N/A

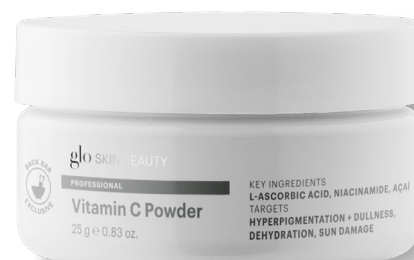

BACK BAR: 25 g / 0.83 oz.

KEY BENEFITS

- **BRIGHTENING:** Can be added to other Glo products for a brightening boost.
- **PROTECTING:** Antioxidants protect and nourish skin.
- **EVEN SKIN TONE:** Targets hyperpigmentation for a more even complexion.

KEY INGREDIENTS

- **L-ASCORBIC ACID:** An antioxidant that stimulates the production of collagen, while brightening.
- **NIACINAMIDE:** An anti-inflammatory brightener, it increases the production of collagen.
- **CRANBERRY:** An anti-microbial and potent antioxidant.

Vitamin C Powder

PROFESSIONAL PROTOCOL

Mix 1 tsp Brightening Mask with 1/4 tsp Vitamin C Powder. For sensitive skin, use 1/8 tsp Vitamin C Powder. Apply a thin, even layer with the Treatment Room Mask Brush and leave on 2–5 minutes. Remove with warm towel. Vitamin C Powder can be added to serums, masks, moisturizers, or any Glo product for additional brightening and antioxidant benefits.

INGREDIENTS

Ascorbic Acid, Niacinamide, Vaccinium Macrocarpon (Cranberry) Fruit, Euterpe Oleracea (Acai) Fruit Extract, Maltodextrin, Tocopheryl Acetate, Silica

We are dedicated to maintaining accurate product ingredient listings. Because ingredients may be subject to change, for the most current and accurate listing of ingredients in each product, please refer to your product packaging.

Massage Cream

MASSAGE

RECOMMENDED FOR: ALL SKIN TYPES

Soothe, relax, and repair skin with this luxurious massage cream, infused with nourishing antioxidants, hydrators, and oils.

FREQUENCY: 1X/WEEK

pH: 6.0

BACK BAR: 230 mL / 7.8 fl. oz.

KEY BENEFITS

- **CONDITIONING:** Natural emollients and hydrators strengthen, moisturize, and nourish skin.
- **SOOTHING:** Botanical soothers calm and replenish.
- **RESTORATIVE:** Heals and repairs skin.

KEY INGREDIENTS

- **SAFFLOWER SEED OIL:** Hydrates and softens skin.
- **SHEA BUTTER:** A natural emollient, it's deeply moisturizing, strengthening and healing skin.
- **PANTHENOL:** A skin-conditioner, it smooths, soothes, and boosts hydration.

Massage Cream

PROFESSIONAL PROTOCOL

Designed to be applied to face, neck and décolleté, as well as body. Massage for 5-15 minutes. Remove with warm towel.

INGREDIENTS

Aqua (Water/Eau), Dimethicone, Carthamus Tinctorius (Safflower) Seed Oil, Glycerin, Cetyl Alcohol, Sodium Stearoyl Lactylate, Helianthus Annuus (Sunflower) Seed Oil, Butyrospermum Parkii (Shea Butter), Panthenol (Vitamin B5), Glyceryl Stearate, Hydrogenated Lecithin, Lavandula Angustifolia (Lavender) Oil, Carbomer, Potassium Sorbate, Phenoxyethanol (and) Ethylhexylglycerin, Tromethamine

We are dedicated to maintaining accurate product ingredient listings. Because ingredients may be subject to change, for the most current and accurate listing of ingredients in each product, please refer to your product packaging.

Essential Oil Blend

MASSAGE

RECOMMENDED FOR: ALL SKIN TYPES

Introduce the benefits of aromatherapy in your treatment room to promote relaxation, balance, and wellbeing. Three versatile essential oil blends are designed for deep inhalation and topical application. A few drops turn any facial into a transformational relaxation experience. Available blends: Unwind, Purify, and Revive.

FREQUENCY: AS NEEDED

pH: N/A

BACK BAR: 30 mL / 1 fl. oz.

KEY BENEFITS

- **MULTITASKING:** Designed for inhalation and topical application, may be used alone or added to Massage Cream.
- **NATURAL:** Therapeutic-grade 100% natural, botanical essential oils with no artificial ingredients or fillers.
- **CONCENTRATED:** A little goes a long way.

KEY INGREDIENTS

- **UNWIND:** Calm and relax with a soothing blend of lavender, clary sage, and ylang ylang.
- **PURIFY:** Refresh and balance with a clearing blend of lemon, rosemary, and lemongrass.
- **REVIVE:** Uplift and energize with a stimulating blend of rosewood, sweet orange, and sandalwood.

Essential Oil Blend

PROFESSIONAL PROTOCOL

Designed for inhalation and topical application. Use 1-2 drops for deep inhalations, often to begin a treatment and prior to massage. Use 4-6 drops as the medium for the Glo Pressure Point Massage. For a European-style massage, may also be added to Massage Cream for aromatherapy benefits.

INGREDIENTS

UNWIND: Helianthus Annuus (Sunflower) Seed Oil, Citrus Grandis (Grapefruit) Seed Oil, Citrus Reticulata (Tangerine) Fruit Oil, Cocos Nucifera (Coconut) Oil, Caprylic/Capric Triglyceride, Juniperus Virginiana (Cedarwood) Oil, Lavandula Angustifolia (Lavender) Oil, Mentha Piperita (Peppermint) Oil, Cananga Odorata (Ylang Ylang) Flower Oil, Citrus Aurantium Amara (Bitter Orange) Flower Oil, Salvia Sclarea (Clary) Oil, Abies Alba (White Fir) Leaf Oil, Limonene, Linalool, Benzyl Alcohol, Benzyl Benzoate, Benzyl Salicylate, Citral, Citronellol, Coumarin, Eugenol, Farnesol, Geraniol, Isoeugenol

PURIFY: Helianthus Annuus (Sunflower) Seed Oil, Citrus Aurantium Dulcis (Orange) Oil, Rosmarinus Officinalis (Rosemary) Leaf Oil, Cocos Nucifera (Coconut) Oil, Citrus Limon (Lemon) Fruit Oil, Caprylic/Capric Triglyceride, Lavandula Angustifolia (Lavender) Oil, Myrtus Communis (Myrtle) Oil, Cymbopogon Schoenanthus (Lemongrass) Oil, Cananga Odorata (Ylang Ylang) Flower Oil, Citrus Aurantifolia (Lime) Oil, Litsea Cubeba (May Chang) Fruit Oil, Limonene, Linalool, Citral, Benzyl Alcohol, Benzyl Benzoate, Benzyl Cinnamate, Benzyl Salicylate, Citronellol, Eugenol, Farnesol, Geraniol, Isoeugenol

REVIVE: Helianthus Annuus (Sunflower) Seed Oil, Lavandula Angustifolia (Lavender) Oil, Cocos Nucifera (Coconut) Oil, Citrus Aurantium Dulcis (Orange) Oil, Aniba Rosaedora (Rosewood) Wood Oil, Caprylic/Capric Triglyceride, Juniperus Virginiana (Cedarwood) Oil, Santalum Album (Sandalwood) Oil, Limonene, Linalool, Benzyl Alcohol, Citral, Citronellol, Geraniol

We are dedicated to maintaining accurate product ingredient listings. Because ingredients may be subject to change, for the most current and accurate listing of ingredients in each product, please refer to your product packaging.

DID YOU KNOW?

While topical application of this Essential Oil Blend is not recommended for pregnant clients, you can place 1-2 drops in the palm of your hands for deep inhalations to promote relaxation.

Peel Products

PEEL AND REVEAL WITH CHEMICAL EXFOLIATION

Cell regeneration, often called cell turnover and renewal, refers to the cell's lifecycle, a continuous, natural process that's imperative for skin health. A number of factors can slow this process, hindering the release (shedding) of skin cells such as: aging, excess oil, and debris on skin's surface, and even improper removal of skincare and makeup products. This can lead to dull, lackluster skin, uneven texture, congestion, and breakouts. Skincare specialists know the importance of professional exfoliation. Get to know Glo's extensive chemical peel series designed to address any client concern in order to reveal a smoother, clearer, and more radiant complexion.

Flower Enzyme

PEEL

RECOMMENDED FOR: ALL SKIN TYPES—EXCEPT EXTREMELY SENSITIVE

Gentle peel treatment targets dullness and dry skin, revitalizing and softening with a flower complex, plus superfruit enzymes for renewed radiance.

FREQUENCY: 1X/WEEK

pH: 3.5

CAN BE LAYERED: NO

BACK BAR: 230 mL / 7.8 fl. oz.

KEY BENEFITS

- **SMOOTHING:** Gentle exfoliation from botanical and fruit enzymes helps strengthen and smooth skin without causing irritation.
- **REPAIRING:** Neutralizing free radical damage, inhibiting lipid peroxidation, and protecting skin from cellular damage, antioxidants repair and nourish skin.
- **RADIANCE:** Targeting uneven tone, skin is softer and brightened.

KEY INGREDIENTS

- **FLOWER BLEND:** Featuring honeysuckle, moringa seed oil, passionflower, and the star botanical, hibiscus flower, organic acids provide antioxidant protection from cell damage, boosting skin's youthfulness, softening, and smoothing.
- **SUPERFRUIT ENZYME COMPLEX:** A unique mix of pumpkin, fig, pomegranate, pineapple, and papaya gently smooths and refines, stimulating skin's natural exfoliation process.
- **NIACINAMIDE:** Clears, calms, and brightens skin.

Flower Enzyme

PROFESSIONAL PROTOCOL

Apply a thin but thorough layer with the Treatment Room Mask Brush and leave on 5-15 minutes. Remove with warm towel. Steam can be added to enhance the treatment. Note: A patch test is recommended 24-48 hours prior to treatment. Review Pre Treatment: Best Practices for chemical peels in the Resources section of this Training Manual for additional detail.

INGREDIENTS

Aqua (Water/Eau), Glycerin, Lactobacillus/Pumpkin Ferment Extract, Lactobacillus/Punica Granatum Fruit Ferment Extract, Caprylic/Capric Triglyceride, Hamamelis Virginiana (Witch Hazel) Water, Citric Acid, Ficin, Stearic Acid, Cetyl Alcohol, Bromelain, Papain, Hibiscus Sabdariffa Flower Extract, Glyceryl Stearate, Xanthan Gum, Phenyl t-Butylnitrone (Spin Trap), Eclipta Prostrata Extract, Squalane, Lonicera Caprifolium (Honeysuckle) Flower Extract, Santalum Austrocaledonicum (Sandalwood) Wood Oil, Lonicera Japonica (Honeysuckle) Flower Extract, Melia Azadirachta (Neem) Leaf Extract, Prunus Amygdalus Dulcis (Sweet Almond) Oil, Cymbopogon Schoenanthus (Lemongrass) Oil, Moringa Pterygosperma Seed Oil, Citrus Aurantium Dulcis (Orange) Peel Oil, Citrus Grandis (Grapefruit) Peel Oil, Citrus Medica Limonum (Lemon) Peel Oil, Passiflora Incarnata (Passionflower) Flower Extract, Phyllanthus Emblica (Amla) Fruit Extract, Allyl Caproate, Tocopherol (D-alpha), Protease, Glycine Soja (Soybean) Oil, Niacinamide, Carnosine, Titanium Dioxide, Cyamopsis Tetragonoloba (Guar) Gum, Alcohol, Gluconolactone (and) Sodium Benzoate, Alcohol Denat., Carbomer, Phytic Acid, Sodium Hydroxide, Fragrance/Parfum*

*Natural fragrance/Parfum naturel

Enzyme

PEEL

RECOMMENDED FOR: OILY AND COMBINATION SKIN
CONCERNED WITH BREAKOUTS

Designed for oily or congested skin, this level 4 peel smooths, clarifies, and clears skin for refined complexion clarity.

FREQUENCY: 1X/WEEK

pH: 3.3

CAN BE LAYERED: NO

BACK BAR: 230 mL / 7.8 fl. oz.

KEY BENEFITS

- **SMOOTHING:** Targets texture, helping to smooth and refine skin.
- **CLARIFIES:** Balances excess oil for a clarified complexion.
- **CLEARING:** Targets breakouts and congestion, cleaning out pores for improved skin clarity.

KEY INGREDIENTS

- **5% SALICYLIC ACID:** A beta hydroxy acid that stimulates exfoliation, helps clear pores, and promotes new cell growth.
- **FRUIT ENZYMES:** A blend of papain from papaya and bromelain from pineapple helps smooth skin and allows for enzymatic peeling by breaking down proteins.
- **ANTIOXIDANTS:** Cranberry and pomegranate provide anti-inflammatory, skin-protecting benefits.

Enzyme

PROFESSIONAL PROTOCOL

Apply a thin but thorough layer with the Treatment Room Mask Brush and leave on 3-5 minutes. Remove with warm towel. Steam can be added to enhance the treatment. Note: A patch test is recommended 24-48 hours prior to treatment. Review Pre Treatment: Best Practices for chemical peels in the Resources section of this Training Manual for additional detail.

INGREDIENTS

Aqua/Water/Eau, Glycerin, Hamamelis Virginiana (Witch Hazel) Water, Salicylic Acid, Caprylic/Capric Triglyceride, Bromelain, Stearic Acid, Cetyl Alcohol, Glycol Distearate, Alcohol, Alcohol Denat., Citrus Aurantium Bergamia (Bergamot) Fruit Oil, Xanthan Gum, Allantoin, Punica Granatum (Pomegranate) Extract, Sodium Hydroxide, Lavandula Hybrida Oil, Citrus Aurantium Dulcis (Orange) Peel Oil, Citrus Limon (Lemon) Peel Oil, Papain, Vaccinium Macrocarpon (Cranberry) Fruit Extract, Phyllanthus Emblica Fruit Extract, Carnosine, Niacinamide, Phenyl t-Butylnitrone, Tocopherol, Glycine Soja (Soybean) Oil, Citrus Reticulata (Tangerine) Leaf Oil, Cymbopogon Martini Oil, 1,2-Hexanediol, Caprylyl Glycol, Astaxanthin, Algin, CI 77891 (Titanium Dioxide)

We are dedicated to maintaining accurate product ingredient listings. Because ingredients may be subject to change, for the most current and accurate listing of ingredients in each product, please refer to your product packaging.

Hydra-Bright AHA Glow Peel

PEEL

RECOMMENDED FOR: ALL SKIN TYPES

Brighten, smooth, and hydrate with this pro-level glow-getting peel. Powered by 20% vegan lactic acid, plus ferulic and kojic acid, it targets uneven tone and texture, delivering a reparative, radiance boost.

FREQUENCY: 2X/MONTH

pH: 2.5

CAN BE LAYERED: NO

BACK BAR: 118 mL / 4 fl. oz.

KEY BENEFITS

- **BRIGHTENS:** Elevated botanical brighteners and AHAs deliver renewed radiance.
- **SMOOTHS:** Retextures and resurfaces, strengthening skin and reducing the appearance of fine lines, wrinkles, and pores.
- **HYDRATES:** Replenishing while it refines with nourishing moisture-boosting hyaluronic acid, for a plumped glow.

KEY INGREDIENTS

- **20% VEGAN LACTIC ACID:** Gently exfoliates, improves skin tone, texture, and fine lines.
- **FERULIC ACID:** A powerful plant-based antioxidant, it defends against free radical damage, protecting and shielding skin.
- **KOJIC ACID:** An effective botanical brightener, it inhibits the formation of excess melanin without irritating skin.

Hydra-Bright AHA Glow Peel

PROFESSIONAL PROTOCOL

Apply with a Glycolic Applicator or 2x2 cotton-filled gauze pads and leave on 3-5 minutes. Needs to be neutralized. Note: A patch test is recommended 24-48 hours prior to treatment. Review Pre Treatment: Best Practices for chemical peels in the Resources section of this Training Manual for additional detail.

INGREDIENTS

Aqua/Water/Eau, Lactic Acid, Glycerin, Sodium Hydroxide, Kojic Acid, Phenoxyethanol, Polysorbate 20, Maltodextrin, Potassium Sorbate, Sodium Gluconate, C12-15 Alkyl Benzoate, Niacinamide, Camellia Oleifera Leaf Extract, Ethylhexylglycerin, Glucosamine HCl, Opuntia Ficus-Indica Stem Extract, Urea, Saccharomyces Cerevisiae Extract, Laminaria Digitata Extract, Allantoin, Carnosine, Dipotassium Glycyrrhizate, Citric Acid, Ferulic Acid, Phenyl t-Butylnitron, Sodium Hyaluronate, Dimethylmethoxy Chromanol, Emblica Officinalis Fruit Extract, Tetrahydrodiferuloylmethane, Tetrahydrodemethoxydiferuloylmethane, Tetrahydrobisdemethoxydiferuloylmethane

We are dedicated to maintaining accurate product ingredient listings. Because ingredients may be subject to change, for the most current and accurate listing of ingredients in each product, please refer to your product packaging.

Beta-Clarity AHA Clarifying Peel

PEEL

RECOMMENDED FOR: OILY AND COMBINATION SKIN
CONCERNED WITH ACNE AND BREAKOUTS

Deliver a pro-level skin detox treatment with this clarifying peel. Powered by 20% mandelic acid, plus salicylic acid and vitamin C, it targets congestion, visible pores, and uneven tone for elevated clarity and radiance.

FREQUENCY: 2X/MONTH

pH: 2.0-2.7

CAN BE LAYERED: YES

BACK BAR: 118 mL / 4 fl. oz.

KEY BENEFITS

- **CLARIFYING:** A powerhouse mix of alpha and beta hydroxy acids offer elevated balancing, resurfacing, and decongestion.
- **RESURFACING:** Weighing in at a lower pH for professional use than its at-home peel partner, this allows for a deeper level of penetration. Pro-level exfoliation removes impurities and debris to reveal smoother skin and minimize the appearance of pores.
- **BRIGHTENING:** Targets uneven skin tone and brightens post-blemish shadow marks.

KEY INGREDIENTS

- **20% MANDELIC ACID:** This alpha hydroxy acid delivers pro-level balancing, refining, and brightening.
- **SALICYLIC ACID:** A balancing beta hydroxy acid for clearing congestion, clarifying and cleaning out pores, and promoting cell turnover.
- **VITAMIN C:** A robust antioxidant, it targets and brightens any pigmentation and marks left behind post-congestion or blemishes.

Beta-Clarity AHA Clarifying Peel

PROFESSIONAL PROTOCOL

Apply with a Glycolic Applicator or 2x2 cotton-filled gauze pads and leave on 4-6 minutes, or until dry. Can be layered 1-4 times, as needed. Needs to be neutralized. Note: A patch test is recommended 24-48 hours prior to treatment. Review Pre Treatment: Best Practices for chemical peels in the Resources section of this Training Manual for additional detail.

INGREDIENTS

Aqua/Water/Eau, Mandelic Acid, Hamamelis Virginiana (Witch Hazel) Water, Alcohol Denat., Propanediol, Polysorbate 20, Glycerin, Alcohol, Aminomethyl Propanol, Phenoxyethanol, Butylene Glycol, Deuterium Oxide, 1,2-Hexanediol, Bisabolol, Gluconolactone, Kojic Acid, Salicylic Acid, Caprylyl Glycol, Phytic Acid, Sodium PCA, 3-O-Ethyl Ascorbic Acid, Caprylic/Capric Triglyceride, Potassium Azeloyl Diglycinate, Sodium Gluconate, Ethylhexylglycerin, Borago Officinalis Seed Oil, Fructooligosaccharides, Tropolone, Dimethylmethoxy Chromanol, Mirabilis Jalapa Flower/Leaf/Stem Extract, Citric Acid

We are dedicated to maintaining accurate product ingredient listings. Because ingredients may be subject to change, for the most current and accurate listing of ingredients in each product, please refer to your product packaging.

GlyPro AHA Resurfacing Peel

PEEL

RECOMMENDED FOR: ALL SKIN TYPES EXCEPT SENSITIVE

Powerhouse peel targets uneven texture, signs of aging, hyperpigmentation, and blemishes with glycolic and phytic acid, to reveal smoother, more radiant skin.

FREQUENCY: 2X/MONTH

pH: 2.25

CAN BE LAYERED: NO

BACK BAR: 118 mL / 4 fl. oz.

KEY BENEFITS

- **RESURFACING:** Pro-level exfoliation with powerhouse AHAs targets uneven texture, smoothing the appearance of pores, fine lines, and wrinkles.
- **BRIGHTENING:** Targeting free radical damage and hyperpigmentation, botanical brighteners even out skin tone for a more radiant effect.
- **STRENGTHENING:** Skin is strengthened and supported with a nourishing, antioxidant-rich superfruit complex for renewal and repair.

KEY INGREDIENTS

- **30% GLYCOLIC ACID:** A small-molecule alpha hydroxy acid (AHA), it penetrates deeply into skin, refining and stimulating exfoliation, improving pigmentation, texture, and fine lines.
- **PHYTIC ACID:** An antioxidant AHA, it boosts skin's brightness, reducing free radical damage and pigmentation.
- **NIACINAMIDE:** Clears out pores, reducing their appearance, while smoothing and brightening skin.

GlyPro AHA Resurfacing Peel

PROFESSIONAL PROTOCOL

Apply with a Glycolic Applicator or 2x2 cotton-filled gauze pads and leave on 3-5 minutes. Needs to be neutralized. Can be used to prepare skin prior to Beta Clarity Peel, Triple Transformation Peel or TCA Clinical Reveal Peel for a stronger treatment. Note: A patch test is recommended 24-48 hours prior to treatment. Review Pre Treatment: Best Practices for chemical peels in the Resources section of this Training Manual for additional detail.

INGREDIENTS

Aqua/Water/Eau, Glycolic Acid, Butylene Glycol, Ammonium Hydroxide, Phytic Acid, Vaccinium Myrtillus Fruit Extract, Rubus Idaeus (Raspberry) Fruit Extract, Glycerin, Citric Acid, Phyllanthus Emblica Fruit Extract, Carnosine, Niacinamide, Phenyl t-Butylnitrone

We are dedicated to maintaining accurate product ingredient listings. Because ingredients may be subject to change, for the most current and accurate listing of ingredients in each product, please refer to your product packaging.

Beta Clarity Peel

PEEL

RECOMMENDED FOR: OILY AND COMBINATION SKIN
CONCERNED WITH BREAKOUTS

Deeply purifying and clarifying peel treatment, powered by salicylic acid, it can be used as a spot treatment alongside other peels.

FREQUENCY: 1X/MONTH

pH: 2.24

CAN BE LAYERED: YES

BACK BAR: 118 mL / 4 fl. oz.

KEY BENEFITS

- **TARGETS BREAKOUTS:** Typically applied as a spot treatment, this powerful peel helps decongest skin and clean out pores.
- **CLARIFYING:** Balances excess oil production.
- **RETEXTURIZING:** Smoothing and rejuvenating, it helps reduce the appearance of pores and fine lines.

KEY INGREDIENTS

- **30% SALICYLIC ACID:** Stimulates exfoliation, helps clear pores, and promotes new cell growth.
- **NIACINAMIDE:** An anti-inflammatory and natural brightener, it increases the production of collagen.
- **CRANBERRY:** An antimicrobial and potent antioxidant.

Beta Clarity Peel

PROFESSIONAL PROTOCOL

Apply with a Glycolic Applicator or 2x2 cotton-filled gauze pads and leave on 1-3 minutes until dry. Can be layered 1-4 times. Does not need to be neutralized. Excellent spot treatment. Note: A patch test is recommended 24-48 hours prior to treatment. Review Pre Treatment: Best Practices for chemical peels in the Resources section of the Training Manual for additional detail.

INGREDIENTS

Alcohol Denat., Salicylic Acid, Aqua/Water/Eau, Hamamelis Virginiana (Witch Hazel) Water, Phyllanthus Emblica Fruit Extract, Carnosine, Niacinamide, Phenyl t-Butylnitrone, Vaccinium Macrocarpon (Cranberry) Fruit Extract, Tatarol, Astaxanthin, Ammonium Hydroxide

We are dedicated to maintaining accurate product ingredient listings. Because ingredients may be subject to change, for the most current and accurate listing of ingredients in each product, please refer to your product packaging.

GlyPro Power Peel+

PEEL

RECOMMENDED FOR: SKIN TYPES CONCERNED WITH AGING, UNEVEN TEXTURE, AND HYPERPIGMENTATION

Our 60% glycolic professional peel, it rejuvenates and retexturizes damaged skin, for a smoother, more even effect.

FREQUENCY: 1X/MONTH

pH: 2.0

CAN BE LAYERED: NO

BACK BAR: 118 mL / 4 fl. oz.

KEY BENEFITS

- **RETEXTURIZES:** Ideal for coarse, resistant skin, it offers elevated resurfacing and refining.
- **POWER+:** Featuring our highest concentration of glycolic acid, making this our most powerful retexturizing peel.
- **TARGETS PHOTOAGING:** Smooths and softens the appearance of fine lines.

KEY INGREDIENTS

- **60% GLYCOLIC ACID:** The smallest molecule AHA, it stimulates exfoliation, improves skin texture, evens out tone, and smooths fine lines.
- **PHYTIC ACID:** Provides antioxidant protection and the necessary acidity for exfoliation.
- **BILBERRY FRUIT EXTRACT:** Promotes collagen synthesis and strengthens capillaries.

GlyPro Power Peel+

PROFESSIONAL PROTOCOL

Apply with a Glycolic Applicator or 2x2 cotton-filled gauze pads and leave on 1-3 minutes. Needs to be neutralized. Can be used to prepare skin prior to Triple Transformation Peel or TCA Clinical Reveal Peel for a stronger treatment. Note: A patch test is recommended 24-48 hours prior to treatment. Review Pre Treatment: Best Practices for chemical peels in the Resources section of the Back Bar Training Manual for additional detail.

INGREDIENTS

Glycolic Acid, Aqua/Water/Eau, Ammonium Hydroxide, Butylene Glycol, Vaccinium Myrtillus Fruit Extract, Rubus Idaeus (Raspberry) Fruit Extract, Phytic Acid, Glycerin, Citric Acid, Phyllanthus Emblica Fruit Extract, Carnosine, Niacinamide, Phenyl t-Butylnitrone

We are dedicated to maintaining accurate product ingredient listings. Because ingredients may be subject to change, for the most current and accurate listing of ingredients in each product, please refer to your product packaging.

Retinol + C Peel Boost Max

PEEL

RECOMMENDED FOR: ALL SKIN TYPES EXCEPT ACNE, BREAKOUTS, AND SENSITIVITY

Encouraging peeling, this multi-use, leave-on exfoliant is powered by vitamin C and retinol and can be used solo or as an add-on to other peel treatments, for boosted smoothing.

FREQUENCY: 3-4X/YEAR

pH: N/A

CAN BE LAYERED: NO

BACK BAR: (6) 4mL VIALS

KEY BENEFITS

- **PROMOTES SLOUGHING:** This action helps clear away dead skin cells, boosting cell turnover to reveal fresh, radiant skin.
- **SMOOTHING:** The exfoliation power helps promote smoother, softer skin.
- **MULTI-USE:** It can be applied as a solo treatment or in synergy with another Glo peel to boost the smoothing power.

KEY INGREDIENTS

- **5% RETINOL:** Stimulates collagen production and cell turnover.
- **VITAMIN C:** An oil-stable form of vitamin C, ascorbyl palmitate is an antioxidant with brightening benefits.

Retinol + C Peel Boost Max

PROFESSIONAL PROTOCOL

Can be used to boost another peel or as a standalone treatment, full instructions included on the Professional Protocol Card on product box. Protect all sensitive areas of the face with Barrier Balm, then apply Retinol + C Peel Boost Max with the Treatment Room Mask Brush carefully. Leave on 15 minutes then blot off excess product with a tissue. Note: A patch test is recommended 24-48 hours prior to treatment. Review Pre Treatment: Best Practices for chemical peels in the Resources section of the Training Manual for additional details.

WARNING: This is an active, retinol-based exfoliant which may cause peeling/sloughing of the skin. Do not use on compromised or sensitive skin. It is advised to avoid applying to the neck area. Do not use on skin that is sensitive to vitamin A.

INGREDIENTS

Isopropyl Myristate, SD Alcohol 40-B (Alcohol Denat.), Polysorbate 20, Retinol, Aqua/Water/Eau, Ascorbyl Palmitate, Dimethyl MEA, BHT, BHA

We are dedicated to maintaining accurate product ingredient listings. Because ingredients may be subject to change, for the most current and accurate listing of ingredients in each product, please refer to your product packaging.

Triple Transformation Peel

PEEL

RECOMMENDED FOR: ALL SKIN TYPES EXCEPT SENSITIVE

Targeting multiple skincare concerns in one treatment, this peel brightens, smooths, and targets blemishes, for a radiant, clear complexion.

FREQUENCY: 3-4X/YEAR

pH: 2.0

CAN BE LAYERED: YES

BACK BAR: 118 mL / 4 fl. oz.

KEY BENEFITS

- **BRIGHTENING:** Targets uneven tone, hyperpigmentation, and melasma, boosting skin's brightness.
- **SMOOTHING:** Active exfoliation helps refine and resurface skin, for a more even texture, and reduction in the appearance of fine lines.
- **CLEARING:** Cleaning out pores and decongesting skin, it targets blemishes, and stimulates new cell turnover.

KEY INGREDIENTS

- **14% RESORCINOL:** Targets rough, textured skin. Can have a numbing effect.
- **14% LACTIC ACID:** Gently exfoliates, improves skin tone, texture, and fine lines.
- **14% SALICYLIC ACID:** Exfoliates while clearing pores and promoting new cell growth.

Triple Transformation Peel

PROFESSIONAL PROTOCOL

Apply with a Glycolic Applicator or 2x2 cotton-filled gauze pads and leave on 4-6 minutes until dry. Can be layered 1-4 times. Does not need to be neutralized. Note: A patch test is recommended 24-48 hours prior to treatment. Review Pre Treatment: Best Practices for chemical peels in the Resources section of the Training Manual for additional detail..

INGREDIENTS

Alcohol Denat., Lactic Acid, Salicylic Acid, Resorcinol, Wine Extract, Rubus Idaeus (Raspberry) Fruit Extract, Glycerin, Lycopene, Aqua/Water/Eau, Phyllanthus Emblica Fruit Extract, Carnosine, Niacinamide, Phenyl t-Butylnitrone

We are dedicated to maintaining accurate product ingredient listings. Because ingredients may be subject to change, for the most current and accurate listing of ingredients in each product, please refer to your product packaging.

AB Clinical Renewal Peel

PEEL

RECOMMENDED FOR: ALL SKIN TYPES EXCEPT SENSITIVE

Physician's strength formula combines alpha and beta hydroxy acids to resurface and refine skin, targeting the appearance of uneven tone and texture, and clearing blemishes.

FREQUENCY: 2-4X/YEAR

pH: 1.53

CAN BE LAYERED: YES

BACK BAR: 118 mL / 4 fl. oz.

KEY BENEFITS

- **CLARIFYING:** Targeting acne and blemishes, this peel clears pores and balances excess oils, stimulating new cell growth.
- **RESURFACING:** Reduces the appearance of uneven tone, texture, and fine lines.
- **PHYSICIAN STRENGTH:** Contains high concentrations of alpha and beta hydroxy acids.

KEY INGREDIENTS

- **17% GLYCOLIC ACID:** Stimulates exfoliation, improves skin texture, uneven pigmentation, and fine lines.
- **17% LACTIC ACID:** Gently exfoliates, improves skin tone, texture, and fine lines.
- **17% SALICYLIC ACID:** Exfoliates while clearing pores and promoting new cell growth.

AB Clinical Renewal Peel

PROFESSIONAL PROTOCOL

Apply with a Glycolic Applicator or 2x2 cotton-filled gauze pads and leave on 4-6 minutes until dry. Can be layered 1-3 times. Does not need to be neutralized. Note: A patch test is highly recommended 24-48 hours prior to treatment. Review Pre Treatment: Best Practices for chemical peels in the Resources section of the Training Manual for additional detail.

INGREDIENTS

Alcohol Denat., Glycolic Acid, Lactic Acid, Salicylic Acid, Rumex Occidentalis Extract, Aqua/Water/Eau, Glycerin, Tricholoma Matsutake Extract, PEG-4, Hydroxycinnamic Acid, Phyllanthus Emblica Fruit Extract, Carnosine, Niacinamide, Phenyl t-Butylnitrone, Trisodium Ethylenediamine Disuccinate

We are dedicated to maintaining accurate product ingredient listings. Because ingredients may be subject to change, for the most current and accurate listing of ingredients in each product, please refer to your product packaging.

TCA Clinical Reveal Peel

PEEL

RECOMMENDED FOR: ALL SKIN TYPES WITH AGING, TEXTURE, AND HYPERPIGMENTATION CONCERNS

Physician's strength peel treatment powered by TCA (trichloroacetic acid), mandelic acid, and antioxidants to improve skin's texture and tone.

FREQUENCY: 2-4X/YEAR

pH: 1.17

CAN BE LAYERED: YES

BACK BAR: 118 mL / 4 fl. oz.

KEY BENEFITS

- **RESURFACING:** Targets textural concerns including scarring, wrinkles, and visible pores.
- **BRIGHTENING:** Excellent for deeper level pigmentation concerns like melasma.
- **SMOOTHING:** Refines skin's tone and texture for a smoothed effect.

KEY INGREDIENTS

- **15% TRICHLOROACETIC ACID:** Exfoliates the outer layers of the skin and reduces signs of aging and hyperpigmentation.
- **MANDELIC ACID:** Antioxidant, helps in cell energy production.
- **PHYTIC ACID:** Provides antioxidant protection and necessary acidity for exfoliation.

TCA Clinical Reveal Peel

PROFESSIONAL PROTOCOL

Apply with the Treatment Room Mask Brush and leave on 8-10 minutes until dry. Can be layered 1-3 times. Does not need to be neutralized. Note: A patch test is highly recommended 24-48 hours prior to treatment. Review Pre Treatment: Best Practices for chemical peels in the Resources section of the Training Manual for additional detail.

INGREDIENTS

Alcohol Denat., Trichloroacetic Acid, Aqua/Water/Eau, Carbomer, Hydroxypropyl Cyclodextrin, Vigna Aconitifolia Seed Extract, Sodium Cocoyl Glutamate, Mandelic Acid, Phytic Acid, Pyruvic Acid, Niacinamide, Hamamelis Virginiana (Witch Hazel) Water, Citric Acid, Sodium Hydroxide, Alcohol, Acetyl Tributyl Citrate, Emblica Officinalis Fruit Extract, Carnosine, Phenyl t-Butylnitrone

We are dedicated to maintaining accurate product ingredient listings. Because ingredients may be subject to change, for the most current and accurate listing of ingredients in each product, please refer to your product packaging.

Also Available in Back Bar Size

FOR EVERY STEP OF YOUR TREATMENT

As skincare professionals, we love products created specifically for us—stronger and more active formulas than what a client can use at home. Often, these will be chemical peels, masks, and massage options. But we also need “basics” like cleansers, toners, and moisturizers in order to perform a skincare service from beginning to end. Glo Skin Beauty has you covered with back bar sizes of the essential retail items you need in your treatment room.

Hydra-Bright AHA Cleanser

CLEANSER

RECOMMENDED FOR: ALL SKIN TYPES

Gentle foaming gel cleanser removes makeup and other impurities, nourishing skin with lactic acid and moringa seed extract, hydrating, balancing, and brightening the skin.

FREQUENCY: 1X/WEEK

pH: 4.14-5.14

BACK BAR: 465 mL / 15 fl. oz.

RETAIL: 200 mL / 6.7 fl. oz.

KEY BENEFITS

- **SMOOTHING:** Gentle exfoliation from lactic acid helps visibly improve skin texture, reducing the appearance of fine lines and pores.
- **HYDRATING:** Botanical extracts rebalance moisture-levels, replenishing and nourishing skin.
- **BRIGHTENING:** Antioxidant complex calms irritation and soothes redness, promoting a refined, brightened complexion.

KEY INGREDIENTS

- **VEGAN LACTIC ACID:** Gently exfoliates, improving uneven skin tone, texture, and signs of aging.
- **MORINGA SEED EXTRACT:** An antioxidant with anti-inflammatory and anti-bacterial properties to soothe, protect, and restore balance.
- **ANTIOXIDANT AMINO ACIDS:** Antioxidant blend promoting cell renewal and repair.

Hydra-Bright AHA Cleanser

PROFESSIONAL PROTOCOL

The essential first step in all skincare treatments, pump a small amount into clean, freshly washed hands, then gently massage across client's face, avoiding the eye area, using light circular motions for 60 seconds. Rinse thoroughly using warm water.

INGREDIENTS

Aqua/Water/Eau, Sodium Coco-Glucoside Tartrate, Glycerin, Sodium Hydroxypropylsulfonate Laurylglucoside Crosspolymer, Sodium Cocoyl Hydrolyzed Amaranth Protein, Cocamidopropyl Hydroxysultaine, Polyacrylate-1 Crosspolymer, Sodium Cocoamphoacetate, Lauryl Glucoside, Carnitine, Lactic Acid, Sodium Methyl Cocoyl Taurate, Sodium Hydroxypropylsulfonate Decylglucoside Crosspolymer, Sodium Cocoyl Glutamate, Sodium Lauryl Glucose Carboxylate, Gluconolactone, Fragrance/Parfum*, Sodium Benzoate, Nymphaea Caerulea Flower Extract, Santalum Austrocaledonicum Wood Oil, Rosa Damascena Flower Oil, Moringa Oleifera Seed Extract, Carnosine, Citrus Aurantium Dulcis (Orange) Peel Oil, Citronellol

*Natural fragrance/Parfum naturel

We are dedicated to maintaining accurate product ingredient listings. Because ingredients may be subject to change, for the most current and accurate listing of ingredients in each product, please refer to your product packaging.

DID YOU KNOW?

Often the most rushed step in our skincare routines, cleansing is actually the most important. Vital for removing damaging surface impurities and dirt, Hydra-Bright AHA Cleanser not only cleanses, but also hydrates by helping manage pH levels, enabling sufficient water retention and creating the optimum base for your next skincare steps.

When combined with water and gently lathered and massaged onto the moistened complexion, this activates the surfactants in the formulation, sloughing away dirt, oil, and other surface debris for a deeper, more effective cleanse.

Purifying Gel Cleanser

CLEANSER

RECOMMENDED FOR: OILY SKIN TYPES

This clarifying cleanser rinses away surface debris and impurities, deeply cleansing pores while preserving skin's natural moisture balance, without over drying or stripping oil.

FREQUENCY: 1X/WEEK

pH: 4.72-5.72

BACK BAR: 453 mL / 14.7 fl. oz.

RETAIL: 200 mL / 6.7 fl. oz.

KEY BENEFITS

- **SMOOTHING:** Gentle exfoliation via salicylic acid visibly improves texture, reducing the appearance of fine lines and pores.
- **BALANCING:** Clarifies and refines without stripping away crucial moisture.
- **CLEANSING:** Gel formulation offers effective cleansing without any irritating sulfates.

KEY INGREDIENTS

- **SALICYLIC ACID:** A hero in balancing, breakout-fighting treatments, this beta hydroxy acid (BHA) stimulates exfoliation, helping to clear pores, while promoting new cell growth.
- **NIACINAMIDE:** A powerhouse in reducing pore size and clearing them, it prevents pores from getting clogged, while balancing oil production too.
- **YUCCA EXTRACT:** A healing, anti-inflammatory, cleansing botanical.

Purifying Gel Cleanser

PROFESSIONAL PROTOCOL

The essential first step in all skincare treatments, pump a small amount into clean, freshly washed hands, then gently massage across client's face, avoiding the eye area, using light circular motions for 60 seconds. Rinse thoroughly using warm water.

INGREDIENTS

Aqua/Water/Eau, Glycerin, Sodium Hydroxypropylsulfonate Laurylglucoside Crosspolymer, Polyacrylate-1 Crosspolymer, Sodium Coco-Glucoside Tartrate, Sodium Cocoyl Hydrolyzed Amaranth Protein, Cocamidopropyl Hydroxysultaine, Sodium Cocoamphoacetate, Lauryl Glucoside, Sodium Methyl Cocoyl Taurate, Gluconolactone, Niacinamide, Sodium Hydroxypropylsulfonate Decylglucoside Crosspolymer, Sodium Cocoyl Glutamate, Sodium Lauryl Glucose Carboxylate, Sodium Benzoate, Citrus Aurantium Bergamia (Bergamot) Fruit Oil, Salicylic Acid, Yucca Schidigera Root Extract, Mentha Piperita (Peppermint) Oil, Citrus Paradisi (Grapefruit) Peel Oil, Citrus Sinensis (Orange) Peel Extract, Aniba Rosodora (Rosewood) Wood Oil, Citrus Limon (Lemon) Peel Oil

We are dedicated to maintaining accurate product ingredient listings. Because ingredients may be subject to change, for the most current and accurate listing of ingredients in each product, please refer to your product packaging.

DID YOU KNOW?

This gel formula is designed to lightly foam when massaged with water for a deep cleanse. With the addition of water and light massage, the surfactants in the formula are "activated" to seek out dirt, oil, and debris and rinse them away from the skin.

Brightening Polish

EXFOLIANT

RECOMMENDED FOR: ALL SKIN TYPES

Brightens and refreshes skin by removing dull surface cells and debris to enhance the absorption of natural, effective brighteners. Features environmentally-friendly jojoba beads and modified cellulose for gentle exfoliation without stress to the skin. Helps promote the appearance of a more radiant, even complexion.

FREQUENCY: 1X/WEEK

pH: 7.29

BACK BAR: 230 mL / 7.8 fl. oz.

RETAIL: 60 mL / 2 fl. oz.

KEY BENEFITS

- **BRIGHTENING:** Targeting tone and discoloration issues, it improves clarity for an energized glow.
- **SMOOTHING:** Dual-action exfoliation improves skin's texture, reducing the appearance of pores and fine lines.
- **PROTECTING:** Infused with antioxidants it helps calm the complexion, protecting against signs of aging.

KEY INGREDIENTS

- **KOJIC ACID:** A gentle but effective skin brightener that helps to reduce hyperpigmentation.
- **BRIGHTENING BOTANICALS:** Help to create a more even tone and renewed radiance.
- **ECO-FRIENDLY JOJOBA BEADS:** Provide physical exfoliation, removing dead skin cells and other surface impurities.

Brightening Polish

PROFESSIONAL PROTOCOL

Massage onto clean, damp skin, avoiding eye area. Rinse thoroughly after 2-3 minutes with dampened aesthetic wipes or a steamed towel.

INGREDIENTS

Aqua/Water/Eau, Glycerin, Caprylic/Capric Triglyceride, Sodium Ascorbyl Phosphate, Jojoba Esters, Cellulose Acetate, Kojic Dipalmitate, Cetyl Alcohol, Stearic Acid, Glycol Distearate, Phenyl t-Butylnitrone, Diacetyl Boldine, Niacinamide, Carnosine, Rumex Occidentalis Extract, Aminobutyric Acid, Curcuma Longa (Turmeric) Root Extract, Phyllanthus Emblica Fruit Extract, Mentha Arvensis Leaf Oil, Lavandula Angustifolia (Lavender) Oil, Citrus Aurantifolia (Lime) Oil, Passiflora Incarnata Flower Extract, Tocopheryl Acetate, Glycine Soja (Soybean) Oil, Allantoin, Gluconolactone, Dimethicone, Alcohol, Alcohol Denat., Caprylyl Glycol, Xanthan Gum, Carbomer, Cetearyl Alcohol, Phenoxyethanol, Sodium Benzoate, CI 77891 (Titanium Dioxide)

We are dedicated to maintaining accurate product ingredient listings. Because ingredients may be subject to change, for the most current and accurate listing of ingredients in each product, please refer to your product packaging.

DID YOU KNOW?

Kojic acid features in many of our Brighten + Glow products because of its effective brightening properties. A derivative from mushrooms, it works by inhibiting pigment production, helping to even out skin tone, targeting hyperpigmentation and dark spots. A less-aggressive answer to hydroquinone, it has mild antioxidant, antimicrobial, and exfoliating benefits. It's a great option if you want to avoid ingredients like hydroquinone or retinoids.

To boost cleansing with mechanical action smoothing benefits, add a pea-size amount of Brightening Polish to your chosen cleanser and proceed with gently massaging across your client's moistened face, avoiding the eye area, using light circular motions for 60 seconds. Then, rinse thoroughly with warm water and proceed to your next treatment step.

Pumpkin Enzyme Scrub

EXFOLIANT

RECOMMENDED FOR: ALL SKIN TYPES

Experience soft and effective exfoliation with this gentle skin polisher. Environmentally-friendly jojoba beads combine with enzymes to help remove debris from skin and slough away dull surface cells for a smoother, renewed complexion. Infused with the scent of spiced pumpkin.

FREQUENCY: 1X/WEEK

pH: 6.3-6.8

BACK BAR: 230 mL / 7.8 fl. oz.

RETAIL: 60 mL / 2 fl. oz.

KEY BENEFITS

- **SMOOTHES:** A blend of physical and chemical exfoliation helps improve skin's texture and reduce the appearance of fine lines and pores.
- **BRIGHTENS:** A brightening complex boosts radiance and improves complexion clarity.
- **PROTECTS:** Antioxidant protection from damaging free radicals, it helps remove toxins, makeup, and surface debris.

KEY INGREDIENTS

- **PUMPKIN EXTRACT:** Antioxidant-rich fruit enzyme that breaks down toxins and dead skin cells, for a smoothed effect.
- **ECO-FRIENDLY JOJOBA BEADS:** Provides physical exfoliation to slough away any surface debris.
- **NIACINAMIDE:** Strengthens skin's moisture barrier, clears out pores, and restores radiance.

Pumpkin Enzyme Scrub

PROFESSIONAL PROTOCOL

Massage onto clean, damp skin, avoiding eye area. Rinse thoroughly after 2-3 minutes with dampened aesthetic wipes or a steamed towel.

INGREDIENTS

Aqua/Water/Eau, Jojoba Esters, Phoenix Dactylifera (Date) Seed, Glycerin, Hamamelis Virginiana (Witch Hazel) Water, Caprylic/Capric Triglyceride, Stearic Acid, Cetyl Alcohol, Leuconostoc/Radish Root Ferment Filtrate, Glycol Distearate, Alcohol, Zeolite, Caprylyl Glycol, Dimethicone, Polysorbate 20, Allantoin, Sodium PCA, Tocopheryl Acetate, Xanthan Gum, Lactobacillus/Pumpkin Ferment Extract, Sodium Hydroxide, Chondrus Crispus (Carrageenan) Extract, Myristica Fragrans (Nutmeg) Kernel Oil, Eugenia Caryophyllus (Clove) Leaf Oil, Pectin, 3-O-Ethyl Ascorbic Acid, Dipteryx Odorata Bean Extract, Acrylates/C10-30 Alkyl Acrylate Crosspolymer, Vanillin, Tetrasodium EDTA, Zingiber Officinale (Ginger) Root Oil, Cinnamomum Cassia Leaf Oil, Aloe Barbadensis Leaf Juice Powder, Astaxanthin, Sodium Hyaluronate, Alcohol Denat., Niacinamide, Lactobacillus Ferment Lysate Filtrate, Melia Azadirachta Leaf Extract, Melia Azadirachta Flower Extract, Sodium Metabisulfite, Curcuma Longa (Turmeric) Root Extract, Ocimum Basilicum (Basil) Leaf Extract, Lawsonia Inermis (Henna) Extract, Passiflora Incarnata Flower Extract, Potassium Sorbate, Ficin, Mica, Carnosine, Emblica Officinalis Fruit Extract, Acetyl Tributyl Citrate, Citric Acid, Phenyl t-Butylnitron, CI 77891 (Titanium Dioxide)

We are dedicated to maintaining accurate product ingredient listings. Because ingredients may be subject to change, for the most current and accurate listing of ingredients in each product, please refer to your product packaging.

DID YOU KNOW?

Move over blueberries and avocados, did you know pumpkin extract is a skin superfood too? It contains fruit enzymes and alpha hydroxy acids (AHAs) which smooth and brighten the skin. It's also rich in antioxidants including vitamins A and C, which help reduce signs of aging, protecting, and nourishing the skin. And, as if that wasn't enough, it also contains zinc which is a great healer, soothing and softening skin, for your most delicious glow ever.

A favorite exfoliation combination (with an incredible scent!) includes mixing 1/2 tsp Pumpkin Enzyme Scrub into 1 tsp Flower Enzyme. Smooth an even layer onto skin with the Mask Brush. Use fingertips to perform small circular movements, steam may be used. Leave on for 3-5 minutes, then remove thoroughly with a warm towel.

Charcoal Detox Mask

MASK

RECOMMENDED FOR: ALL SKIN TYPES

Charcoal Detox Mask is a double duty detoxing clay mask + exfoliating skin scrub powered by charcoal, kaolin and bentonite clay offering a 10 minute solution for breakouts, congestion, and excess oil.

FREQUENCY: 1X/WEEK

pH: 8.06-9.06

BACK BAR: 230 mL / 7.8 fl. oz.

RETAIL: 60 mL / 2 fl. oz.

KEY BENEFITS

- **DETOXIFYING:** Drawing out excess oil, surface debris, and toxins, while polishing and clarifying, without stripping moisture.
- **SMOOTHING:** Pro-level exfoliation via jojoba beads refines, decongests, and reduces the appearance of pores.
- **BRIGHTENING:** Balanced and boosted, skin feels clearer and visibly more radiant.

KEY INGREDIENTS

- **ACTIVATED CHARCOAL:** Rich in minerals and nutrients, it helps extract impurities and debris from the skin including bacteria, dirt, and toxins for a cleaner, clearer complexion.
- **KAOLIN + BENTONITE CLAY COMPLEX:** Balancing, purifying, and drawing out impurities, texture is refined and smoothed.
- **JOJOBA BEADS:** Provide eco-friendly, skin-conditioning physical exfoliation, making way for clarity and luminosity.

Charcoal Detox Mask

PROFESSIONAL PROTOCOL

Apply a smooth, even layer to clean skin. Leave on for 10 minutes then dampen fingertips and lightly massage. Remove with with dampened aesthetic wipes or a steamed towel.

INGREDIENTS

Aqua/Water/Eau, Kaolin, Alcohol Denat., Bentonite, Isopropyl Alcohol, Propanediol, Hydrolyzed Candida Saitoana Extract, Glyceryl Ricinoleate, Jojoba Esters, Sulfur, Zinc Oxide, Phoenix Dactylifera (Date) Seed, Charcoal Powder, Glycyrrhiza Glabra (Licorice) Root Extract, Tetrahexyldecyl Ascorbate, Sulforaphane, Cucumis Sativus (Cucumber) Fruit Extract, Menthyl Lactate, Aphanizomenon Flos-Aquae Powder, Tocopherol, Melaleuca Alternifolia (Tea Tree) Leaf Oil, Gaultheria Procumbens (Wintergreen) Leaf Oil, Sodium Stearoyl Glutamate, Glycerin, Glycine Soja (Soybean) Oil, Sodium Gluconate, Hamamelis Virginiana (Witch Hazel) Water, Ethylhexylglycerin, Magnesium Aluminum Silicate, Quartz, Alcohol, Phenoxyethanol, O-cymen-5-OL, CI 77891 (Titanium Dioxide)

We are dedicated to maintaining accurate product ingredient listings. Because ingredients may be subject to change, for the most current and accurate listing of ingredients in each product, please refer to your product packaging.

DID YOU KNOW?

Breakouts and congestion can affect us all at different points in our lives. Thankfully, our award-winning Charcoal Detox Mask is the perfect treatment for this, purifying, rebalancing, and extracting debris, helping treat and prevent complexion imperfections.

The setting nature of this formula lends in its detoxing and refining benefits but can make it slightly challenging for removal. To aid in a smooth removal, soften prior. Mist with Phyto-Calm Flower Mist to dampen, then remove with a warm towel.

Phyto-Active Firming Mask

MASK

RECOMMENDED FOR: ALL SKIN TYPES EXCEPT SENSITIVE AND ACNE-PRONE

Give your skin a visible lift and radiance boost. An exclusive blend of plant stem cell, superfruit and platinum extracts targets key elements within the skin's matrix to refine texture, and deliver supple softness for age defying results.

FREQUENCY: 1X/WEEK

pH: 5.6-6.6

BACK BAR: 230 mL / 7.8 fl. oz.

RETAIL: 60 mL / 2 fl. oz.

KEY BENEFITS

- **FIRMING:** Plant stem cells and botanical actives plump and enrich skin for a fuller, firmer, lifted look.
- **STRENGTHENING:** Helps repair skin's moisture barrier improving the appearance of fine lines and wrinkles, restoring bounce and suppleness.
- **BRIGHTENING:** Softening and supporting skin's elasticity, reenergizing dull or tired complexions with a renewed radiance.

KEY INGREDIENTS

- **PLANT STEM CELL:** Strengthens and firms skin at a cellular level, protecting against signs of aging, while renewing and repairing.
- **SUPERFRUIT LIFTING COMPLEX:** Plumps, nourishes, and replenishes for a visible lift.
- **PLATINUM EXTRACT:** Delivers supple softness and a renewed radiance.

Phyto-Active Firming Mask

PROFESSIONAL PROTOCOL

Apply a smooth, even layer to clean skin. Leave on for 10 minutes then remove with dampened aesthetic wipes or a steamed towel.

INGREDIENTS

Aqua/Water/Eau, Butyrospermum Parkii (Shea) Butter, Mica, Theobroma Cacao (Cocoa) Seed Butter, Cetyl Alcohol, Glyceryl Stearate, Glycerin, Behenyl Alcohol, Dimethicone, Leuconostoc/Radish Root Ferment Filtrate, Phytosteryl Macadamiate, Carbomer, Benzyl Alcohol, Citrus Aurantium Dulcis (Orange) Callus Culture Extract, Lycium Barbarum Fruit Extract, Lavandula Angustifolia (Lavender) Oil, Sodium PCA, Sodium Gluconate, Caprylhydroxamic Acid, Sodium Hydroxide, Hydrolyzed Candida Saitoana Extract, Phenoxyethanol, Caprylyl Glycol, Sodium Hyaluronate, Potassium Sorbate, Xanthan Gum, Tuber Magnatum Extract, Phenethyl Alcohol, Michelia Alba Flower Oil, Palmitoyl Tripeptide-5, Citric Acid, Hamamelis Virginiana (Witch Hazel) Water, Saccharomyces/Platinum Ferment, Alcohol, Ceramide NP, Lysine HCl, Proline, Spirulina Platensis Extract, Glycine, Serine, Hippophae Rhamnoides Fruit Oil, CI 77891 (Titanium Dioxide), CI 77491, CI 77492, CI 77499 (Iron Oxides)

We are dedicated to maintaining accurate product ingredient listings. Because ingredients may be subject to change, for the most current and accurate listing of ingredients in each product, please refer to your product packaging.

DID YOU KNOW?

Platinum extract is rich in amino acids and trace minerals that are highly moisturizing and soothing, and add radiance to the skin. And its platinum sheen makes this an Instagram-worthy treatment too.

The setting nature of this formula lends in its firming and lifting benefits but can make it slightly challenging for removal. To aid in a smooth removal, soften prior. Mist with Phyto-Calm Flower Mist to dampen, then remove with a warm towel.

Restorative Mask

MASK

RECOMMENDED FOR: ALL SKIN TYPES

This deeply nourishing mask is the ultimate remedy for skin in need of moisture. Antioxidant-rich, conditioning ingredients help restore skin's strength and elasticity, creating incredible softness while improving the appearance of overall skin health.

FREQUENCY: 1X/WEEK

pH: 4.39-5.39

BACK BAR: 230 mL / 7.8 fl. oz.

RETAIL: 60 mL / 2 fl. oz.

KEY BENEFITS

- **HYDRATING:** Helps repair and strengthen skin's moisture barrier to lock in hydration deep within.
- **PROTECTING:** Antioxidants calm and soothe redness, protecting skin against damaging environmental stressors.
- **REPLENISHING:** Restores skin's elasticity, strength, and softness.

KEY INGREDIENTS

- **SQUALANE:** Reparative, nourishing lightweight oil that doesn't clog pores. It boosts hydration and collagen production, while also smoothing the appearance of fine lines and wrinkles.
- **AÇAI:** Powerful antioxidant with anti-inflammatory and antibacterial properties.
- **BLACK CURRANT SEED OIL:** Anti-inflammatory, calms and soothes, promoting healthy skin growth.

Restorative Mask

PROFESSIONAL PROTOCOL

Apply a smooth, even layer to clean skin. Leave on for 10 minutes then remove with dampened aesthetic wipes or a steamed towel.

INGREDIENTS

Aqua/Water/Eau, Helianthus Annuus (Sunflower) Seed Oil, Caprylic/Capric Triglyceride, Butyrospermum Parkii (Shea) Butter, Polysorbate 60, Cyclopentasiloxane, Theobroma Cacao (Cocoa) Seed Butter, Propanediol, Cetearyl Alcohol, Glycerin, Glyceryl Stearate, Cetearyl Olivatate, Squalane, C18-36 Acid Triglyceride, Polysorbate 20, Stearic Acid, Hamamelis Virginiana (Witch Hazel) Water, Cetyl Alcohol, Butylene Glycol, Menthyl Lactate, Leuconostoc/Radish Root Ferment Filtrate, Ribes Nigrum (Black Currant) Seed Oil, Simmondsia Chinensis (Jojoba) Seed Oil, Sorbitan Olivatate, Oenothera Biennis (Evening Primrose) Oil, Linum Usitatissimum (Linseed) Seed Oil, Rosa Canina (Rose Hip) Fruit Oil, Dimethicone Crosspolymer, Xanthan Gum, Alcohol, Dioscorea Villosa Root Extract, Vitis Vinifera (Grape) Seed Extract, Dimethicone, Carbomer, Prunus Amygdalus Amara (Bitter Almond) Kernel Oil, Fragrance/Parfum, Lentinus Edodes Extract, Trifolium Pratense (Clover) Flower Extract, Laureth-23, Polysorbate 80, O-cymen-5-OL, Diethylhexyl Syringylidenemalonate, Hydrolyzed Myrtus Communis Leaf Extract, Phytic Acid, Tocopherol, Laureth-4, Lecithin, Sodium Hydroxide, Allantoin, Glycine Soja (Soybean) Oil, Euterpe Oleracea (Acai) Fruit Extract, Soy Isoflavones, Tocotrienols, Elaeis Guineensis (Palm) Oil, Hyaluronic Acid, Sodium Hyaluronate, Acetyl Tetrapeptide-2, Dextran, CI 77891 (Titanium Dioxide)

*Natural fragrance/Parfum naturel

We are dedicated to maintaining accurate product ingredient listings. Because ingredients may be subject to change, for the most current and accurate listing of ingredients in each product, please refer to your product packaging.

DID YOU KNOW?

Along with hyaluronic acid, squalane is one of the most effective ingredients for dry skin. A lightweight, non-greasy emollient, it works like skin's natural oil to prevent moisture loss, plumping and restoring elasticity, while also reducing redness and inflammation. Protecting and repairing skin's moisture barrier, squalane prevents water loss, while also strengthening skin against environmental stressors such as pollution which causes free radical damage. And, as if all that wasn't enough, it's a key ingredient in anti-aging rituals, as it also smooths and reduces the appearance of fine lines and wrinkles, plumping skin and increasing vibrancy and radiance. When paired with anti-inflammatory superfruits in this nourishing mask, it's the ultimate restorative, reset for your complexion.

This mask formula feels amazing, especially in cooler months, when applied warm to the skin. Before treatment begins, place a small amount into a heat-safe bowl and place in towel warmer.

Soothing Gel Mask

MASK

RECOMMENDED FOR: ALL SKIN TYPES

Helps provide instant cooling relief to sensitive and post-procedure skin. Soothes, hydrates, and tones while reducing the appearance of puffiness, fine lines, and wrinkles. Free of fragrance and dyes, this gentle formula features two extracts of cucumber and soothing botanicals to soften and hydrate even the most sensitive skin.

FREQUENCY: 1X/WEEK

pH: 5.0

BACK BAR: 230 mL / 7.8 fl. oz.

KEY INGREDIENTS

- CUCUMBER EXTRACT: Contains anti-inflammatory and cooling properties. Purifies and nourishes the skin.
- GOTU KOLA EXTRACT: Stimulates skin repair and improves the moisture barrier.
- INDIAN SENNA: Extracted from the seed of an ayurvedic plant. A protective film remaining on the skin enables skin's softness and moisture retention.

Soothing Gel Mask

PROFESSIONAL PROTOCOL

Apply a smooth, even layer to clean skin. Leave on for 10 minutes then remove with dampened aesthetic wipes or a steamed towel. May also be applied as an eye and lip mask.

INGREDIENTS

Aqua/Water/Eau, Glycerin, Leuconostoc/Radish Root Ferment Filtrate, Sclerotium Gum, Cucumis Sativus (Cucumber) Extract, Cucumis Sativus (Cucumber) Fruit Water, Oryza Sativa (Rice) Seed Extract, Pyrus Communis (Pear) Fruit Extract, Alcohol, Cassia Angustifolia Seed Polysaccharide, Centella Asiatica Extract, Copper PCA, Dextrin, Moringa Pterygosperma Seed Extract, Leuconostoc Ferment Filtrate, Soybean Peroxidase, Superoxide Dismutase

We are dedicated to maintaining accurate product ingredient listings. Because ingredients may be subject to change, for the most current and accurate listing of ingredients in each product, please refer to your product packaging.

DID YOU KNOW?

This mask formula feels amazing, especially in cooler months, when applied warm to the skin. Before treatment begins, place a small amount into a heat-safe bowl and place in towel warmer.

Phyto-Calm Flower Mist

MIST / TONER

RECOMMENDED FOR: ALL SKIN TYPES

This toner mist provides instant hydration with a unique blend of soothing essential oils. Designed to calm and replenish even the most sensitive complexions it prepares skin for optimal benefits of serum and moisturizer.

FREQUENCY: 1X/WEEK

pH: 4.7

BACK BAR: 222 mL / 7.5 fl. oz.

RETAIL: 118 mL / 4 fl. oz.

KEY BENEFITS

- **HYDRATING:** Reparative botanical actives replenish hydration and support skin's moisture barrier.
- **CALMING:** Soothing antioxidants cocoon and calm skin, settling any irritations or skin stress.
- **TONING:** Supporting skin's natural pH balance, this mist helps purify and boost your cleanse, prepping skin for elevated serum and moisturizer benefits.

KEY INGREDIENTS

- **ROSE WATER:** High in antioxidant and anti-inflammatory benefits, it protects skin's barrier, reducing moisture loss, and soothing sensitivities.
- **CHAMOMILE:** A powerhouse anti-inflammatory, it combats reactive moments and calms the complexion from deep within.
- **GOTU KOLA EXTRACT:** Stimulates repair and healing, boosting skin's elasticity and suppleness for a plumped effect.

Phyto-Calm Flower Mist

PROFESSIONAL PROTOCOL

Lightly mist face during the Toning Step of a professional treatment. May be used additionally anytime you are seeking to cool and calm the skin.

INGREDIENTS

Aqua (Water/Eau), Rosa Damascena (Rose) Flower Water, Glycerin, Leuconostoc/Radish Root Ferment Filtrate, Salix Nigra (Willow) Bark Extract, Levulinic Acid, Oryza Sativa (Rice) Seed Extract, Centella Asiatica (Gotu Kola) Extract, Citrus Aurantium Amara (Neroli) Flower Oil, Bisabolol, Sodium Phytate, Sodium Levulinate, Polyglyceryl-10 Laurate

We are dedicated to maintaining accurate product ingredient listings. Because ingredients may be subject to change, for the most current and accurate listing of ingredients in each product, please refer to your product packaging.

DID YOU KNOW?

Our mists are a fresh take on traditional toners—which tended to be more astringent and harsh. Loaded with nourishing florals—including rose water and chamomile, this calming mist is formulated to be a quenching refresher for your skin, hydrating as it balances, rather than drying it out or stripping it. By giving skin that surge of moisture, the skin is prepped and ready to receive all the next products you apply.

C-Shield Anti-Pollution Drops

SERUM

RECOMMENDED FOR: ALL SKIN TYPES

Skin-shielding booster serum, packed with an active trio of 15% vitamin C, for advanced anti-pollution protection and renewed radiance.

FREQUENCY: 1X/WEEK

pH: 3.2-3.8

BACK BAR: 58 mL / 1.96 fl. oz.

RETAIL: 30 mL / 1 fl. oz.

KEY BENEFITS

- **PROTECTS:** Defending against environmental stressors and pollutants, the potent vitamin C complex feeds and fortifies skin's protective barrier.
- **REPAIRS:** Antioxidant blend neutralizes damaging blue light and free radicals, reducing redness, calming irritation, and protecting against signs of premature aging.
- **BRIGHTENS:** Vitamin C and tripeptide blend supports skin's clarity, giving a brightening, radiant boost.

KEY INGREDIENTS

- **VITAMIN C COMPLEX:** A pollutant-combatting cocktail which strengthens skin's barrier, stimulating natural antioxidant production.
- **GLUTATHIONE:** A tripeptide that smooths, brightens, and moisturizes skin.
- **KAKADU PLUM:** Naturally rich in vitamin C, it provides powerful antioxidant support, protecting and reinvigorating.

C-Shield Anti-Pollution Drops

PROFESSIONAL PROTOCOL

After toning, apply to skin prior to moisturizer as a boost and treatment room finishing step.

INGREDIENTS

Aqua/Water/Eau, 3-O-Ethyl Ascorbic Acid, Glycerin, Alcohol Denat., Oxidized Glutathione, Ascorbyl Glucoside, Ascorbic Acid, Terminalia Ferdinandiana Fruit Extract, Lycium Barbarum Fruit Extract, Copper Lysinate/Prolinate, Methylglucoside Phosphate, Diaminopropionoyl Tripeptide-33, Xanthan Gum, Sodium Gluconate, Caprylyl Glycol, Ethylhexylglycerin, Caprylhydroxamic Acid, Benzyl Alcohol, Phenoxyethanol

We are dedicated to maintaining accurate product ingredient listings. Because ingredients may be subject to change, for the most current and accurate listing of ingredients in each product, please refer to your product packaging.

DID YOU KNOW?

Despite us eating a healthy, balanced diet, very little vitamin C ever makes it to our skin, which is why applying vitamin C topically via a targeted serum offers so many skincare-specific benefits including hydrating, reducing redness and irritations, and brightening skin.

Prior to moisturizer, mix 2-3 drops of C-Shield Anti-Pollution Drops and 2-3 drops of HA-Revive Hyaluronic Drops to the face to boost antioxidant benefits and water content in the skin.

CLEAN + CLINICAL RESULTS

Clinically proven to brighten + protect skin while boosting complexion clarity and smoothness.

CLINICAL GRADING:

- 61% showed improved brightness after 1 week (via Chromameter)
- Non-comedogenic

AFTER 1 WEEK OF USE:

- 87% said skin feels more protected from environmental damage
- 84% said skin looks brighter
- 81% said skin looks clearer

AFTER 1 MONTH OF USE:

- 90% said skin looks brighter
- 84% said skin looks smoother
- 78% said this product provides visible anti-aging benefits

Results reported from a one month independent clinical study conducted on 31 healthy female volunteers, ages 35-63, that assessed skin texture, global fine lines, and wrinkles after the following intervals: one week and one month.

HA-Revive Hyaluronic Drops

SERUM

RECOMMENDED FOR: ALL SKIN TYPES

Next-level hyaluronic acid-powered hydrating serum, for refreshed, radiant skin.

FREQUENCY: 1X/WEEK

pH: 5.6

BACK BAR: 58 mL / 1.96 fl. oz.

RETAIL: 30 mL / 1 fl. oz.

KEY BENEFITS

- **HYDRATING:** Hyaluronic acid retains up to 1,000 times its weight in water, helping maintain moisture barrier and ramp up hydration levels, without clogging pores.
- **PLUMPING:** Delivering deeper hydration, this fast-absorbing formulation helps reduce the appearance of fine lines and wrinkles, for a more youthful, dewy effect.
- **STRENGTHENING:** Plant stem cell technology infused with nourishing marine actives provide a lifting and tightening boost, improving skin's elasticity and resilience.

KEY INGREDIENTS

- **HA ELIXIR:** A fast-absorbing, small and large molecule hyaluronic acid mix, delivers a dual action surge of saturation, conditioning and plumping the complexion.
- **SWEET IRIS (PLANT STEM CELL):** Smooths and softens, helping bind moisture to the skin and keep it there.
- **MARINE ACTIVES (PLANKTON EXTRACT):** Retextures fine lines and wrinkles, firming skin.

HA-Revive Hyaluronic Drops

PROFESSIONAL PROTOCOL

After toning, apply to skin prior to moisturizer as a boost and treatment room finishing step.

INGREDIENTS

Aqua/Water/Eau, Methyl Gluceth-20, Polysorbate 80, Caprylyl Glycol, Phenoxyethanol, Glycerin, Sodium Hyaluronate, Sodium Gluconate, Iris Pallida Leaf Cell Extract, Ethylhexylglycerin, Plankton Extract, Lavandula Angustifolia (Lavender) Oil, Citrus Aurantium Dulcis (Orange) Peel Oil, Hamamelis Virginiana (Witch Hazel) Water, Citric Acid, Sodium Hydroxide, Alcohol

We are dedicated to maintaining accurate product ingredient listings. Because ingredients may be subject to change, for the most current and accurate listing of ingredients in each product, please refer to your product packaging.

DID YOU KNOW?

Just like collagen and elastin, the amount of naturally occurring hyaluronic acid in our bodies decreases with age, leading to dryness, dehydration, and signs of aging. Hyaluronic acid's ability to draw and hold water means it can be used as a humectant in your skincare routine, boosting your natural hydration levels. It works via a multi-level approach with smaller molecules penetrating deeper into the dermis, while the larger molecules condition on the skin's surface.

Prior to moisturizer, mix 2-3 drops of C-Shield Anti-Pollution Drops and 2-3 drops of HA-Revive Hyaluronic Drops to the face to boost antioxidant benefits and water content in the skin.

CLEAN + CLINICAL RESULTS

Clinically proven to improve the skin's moisture barrier, deliver instant hydration, and impart radiance, for a healthy glow.

CLINICAL GRADING:

- 35% improvement in skin hydration in 1 month or less (via Corneometer).
- Significantly improves the skin moisture barrier function in 1 month or less.
- Non-comedogenic

AFTER 1 WEEK OF USE:

- 83% said skin felt smoother
- 80% said skin felt more hydrated
- 79% said skin elasticity was improved

AFTER 1 MONTH OF USE:

- 93% said skin felt more hydrated
- 90% said skin felt smoother
- 86% said skin looks more radiant with a healthy glow

Results reported from a one month independent clinical study conducted on 30 healthy female volunteers, ages 36-61.

Beta-Clarity BHA Drops

SERUM

RECOMMENDED FOR: ALL SKIN TYPES EXCEPT EXTREMELY SENSITIVE

This active clarifying serum helps refine and rebalance, drawing out impurities and minimizing the look of pores, powered by retinol, glycolic acid, and salicylic acid.

FREQUENCY: 1X/WEEK

pH: 3.5

BACK BAR: 58 mL / 1.96 fl. oz.

RETAIL: 30 mL / 1 fl. oz.

KEY BENEFITS

- **SMOOTHING:** Gentle exfoliation via salicylic and glycolic acids helps refine skin texture, reducing the appearance of fine lines and pores.
- **CLARIFYING:** Alpha and beta hydroxy acids refine skin and help eliminate impurities, rebalancing excess oil, promoting a clearer complexion.
- **BRIGHTENING:** A powerhouse mix of hydroxy acids and retinol strengthen and brighten skin.

KEY INGREDIENTS

- **SALICYLIC ACID:** Clarifies and clears the complexion, helping clean pores and promote new cell growth.
- **RETINOL:** Refines and brightens, promoting cell turnover and renewal.
- **GLYCOLIC ACID:** Exfoliates, improving the appearance of skin's texture, uneven pigmentation, and fine lines.

Beta-Clarity BHA Drops

PROFESSIONAL PROTOCOL

For treatment room use, these drops can be used: in between layers of a self-neutralizing peel, at the end of the peel to maximize the exfoliation experience, or prior to the mask step. Shake well before use.

INGREDIENTS

"Aqua/Water/Eau, Hamamelis Virginiana (Witch Hazel) Water, Alcohol Denat., Glycolic Acid, Glycerin, Alcohol, Sodium Hydroxide, Gluconolactone, Polysorbate 80, Salicylic Acid, Caprylyl Glycol, Xanthan Gum, Sodium Benzoate, Retinol, Polysorbate 20, Retinyl Propionate, Hydrolyzed Yeast Protein, Tolarol, Niacinamide, Tetrasodium EDTA, Fragrance/Parfum, Panthenol, Pyridoxine HCl, Helianthus Annuus (Sunflower) Seed Oil, Potassium Sorbate, Vanillin, Caprylic/Capric Triglyceride, Lonicera Japonica (Honeysuckle) Flower Extract, Biotin, Lonicera Caprifolium (Honeysuckle) Flower Extract, Carnosine, Emblica Officinalis Fruit Extract, Acetyl Tributyl Citrate, Citric Acid, Phenyl t-Butylnitrone, Benzyl Benzoate, Linalool

*Natural fragrance/Parfum naturel

We are dedicated to maintaining accurate product ingredient listings. Because ingredients may be subject to change, for the most current and accurate listing of ingredients in each product, please refer to your product packaging.

DID YOU KNOW?

The go-to ingredient when it comes to supporting with clearer complexions, salicylic acid is a powerhouse in rebalancing excess oil and reducing the appearance of congested skin. Dissolving surface debris that can clog pores, while also having anti-inflammatory and antibacterial properties, it softens and sloughs off dull, dead cells, boosting the efficacy of the other actives in these potent drops.

CLEAN + CLINICAL RESULTS

Clinically proven to prevent and heal blemishes, reduce the appearance of pores, and balance skin.

CLINICAL GRADING:

- Non-comedogenic

AFTER 1 WEEK OF USE:

- 93% saw reduction in excess oil production
- 87% said pores appeared reduced
- 83% said breakouts heal faster

AFTER 1 MONTH OF USE:

- 90% said skin looks brighter and healthier
- 90% said skin feels smoother
- 83% saw improved skin clarity

Results reported from a one month independent clinical study conducted on 31 healthy female volunteers, ages 36-64.

Hydra-Bright Alpha Arbutin Drops

SERUM

RECOMMENDED FOR: ALL SKIN TYPES

Targeting uneven skin tones and texture, this smoothing serum delivers a brightening boost in just a few drops.

FREQUENCY: 1/XWEEK

pH: 2.39

BACK BAR: 58 mL / 1.96 fl. oz.

RETAIL: 30 mL / 1 fl. oz.

KEY BENEFITS

- **BRIGHTEN:** Radiance-promoting botanical extracts visibly improve skin's clarity and vitality.
- **TREATS:** Diminishes dullness and discoloration from dark spots and hyperpigmentation for an even skin tone.
- **REFINES:** Professional level exfoliation via lactic acid improves skin's texture and reduces the appearance of fine lines and wrinkles.

KEY INGREDIENTS

- **ALPHA ARBUTIN:** A plant-based alternative to hydroquinone, its pigmentation-fighting properties rebalance skin tone and replenish radiance.
- **LACTIC ACID:** Gentle exfoliant, improves skin's tone, texture, and fine lines.
- **AZELAIC ACID:** A natural brightener, this multi-benefit acid clarifies congestion, unclogging pores and refining skin's surface.

Hydra-Bright Alpha Arbutin Drops

PROFESSIONAL PROTOCOL

For treatment room use, these drops can be used: in between layers of a self-neutralizing peel, at the end of the peel to maximize the exfoliation experience, or prior to the mask step.

INGREDIENTS

Hamamelis Virginiana (Witch Hazel) Water, Aqua/Water/Eau, Alcohol Denat., Arbutin, Glycolic Acid, Butylene Glycol, Glycerin, Azelaic Acid, Lactic Acid, Caprylic/Capric Triglyceride, Xanthan Gum, Chondrus Crispus (Carrageenan) Extract, Glucose, Diacetyl Boldine, Citrus Limon (Lemon) Peel Extract, Lecithin, Rumex Occidentalis Extract, Polysorbate 20, Arctostaphylos Uva Ursi Leaf Extract, Morus Alba Bark Extract, Glycyrrhiza Glabra (Licorice) Root Extract, Citrus Aurantifolia (Lime) Oil, Glutathione, Lavandula Angustifolia (Lavender) Oil, Citrus Aurantium Dulcis (Orange) Peel Oil, Citrus Limon (Lemon) Peel Oil, Santalum Album (Sandalwood) Oil, Pogostemon Cablin Oil, Aminobutyric Acid, Phenoxyethanol, Caprylyl Glycol, Niacinamide, Phyllanthus Emblica Fruit Extract, Potassium Sorbate, Thioctic Acid, Carnosine, Phenyl t-Butylnitron, Citral, Limonene, Linalool

We are dedicated to maintaining accurate product ingredient listings. Because ingredients may be subject to change, for the most current and accurate listing of ingredients in each product, please refer to your product packaging.

DID YOU KNOW?

Alpha arbutin has similar brightening benefits to hydroquinone but is much safer and effective for improving pigmentation issues rather than lightening the skin. It can be used as a targeted treatment for reducing the appearance of congestion and lingering, stubborn dark spots.

CLEAN + CLINICAL RESULTS

Clinically proven to significantly brighten skin, improve radiance and clarity, for a smoother complexion, and more even skin tone after one month of use.

CLINICAL GRADING:

- 89% showed brighter skin after 1 month
- Significant improvement in radiance after 1 month
- Non-comedogenic

AFTER 1 WEEK OF USE:

- 88% said skin looked less dull
- 85% said improved skin clarity
- 85% said skin (immediately) felt smoother

AFTER 1 MONTH OF USE:

- 94% said skin's texture improved
- 91% said a more even skin tone
- 88% said improved skin clarity and reduced hyperpigmentation

Results reported from a one month independent clinical study conducted on 35 healthy female volunteers, ages 38-64, that assessed improvement in skin brightness and radiance and non-comedogenicity after the following intervals: one week and one month.

GlyPro Retinol Drops

SERUM

RECOMMENDED FOR: ALL SKIN TYPES EXCEPT SENSITIVE

This resurfacing serum visibly smooths fine lines, pores, and texture irregularities with a powerful blend of retinol, glycolic acid, and natural brighteners.

FREQUENCY: 1X/WEEK

pH: 2.3

BACK BAR: 58 mL / 1.96 fl. oz.

RETAIL: 30 mL / 1 fl. oz.

KEY BENEFITS

- **SMOOTHING:** Pro-level exfoliation visibly improves complexion clarity, treating surface imperfections and pigmentation issues.
- **RENEWING:** Reducing the appearance of fine lines and pores, it helps strengthen and plump skin, improving elasticity.
- **BRIGHTENING:** A brightening complex including botanical ingredients, hydrates and boosts radiance.

KEY INGREDIENTS

- **RETINOL:** Stimulating cell turnover, the appearance of fine lines, wrinkles, and pores is reduced for a plumped, renewed glow.
- **GLYCOLIC ACID:** An active exfoliator, it sloughs away surface impurities, while boosting hydration levels.
- **GALLIC ACID:** Antioxidant and antibacterial, it provides skin brightening by inhibiting tyrosinase.

GlyPro Retinol Drops

PROFESSIONAL PROTOCOL

For treatment room use, these drops can be used: in between layers of a self-neutralizing peel, at the end of the peel to maximize the exfoliation experience, or prior to the mask step.

INGREDIENTS

Hamamelis Virginiana (Witch Hazel) Water, Aqua/Water/Eau, Alcohol Denat., Glycolic Acid, Butylene Glycol, Glycerin, Retinol, Polysorbate 20, Gallic Acid, Daucus Carota Sativa (Carrot) Seed Extract, Cucumis Sativus (Cucumber) Fruit Extract, Solanum Lycopersicum (Tomato) Fruit Extract, Hydrolyzed Opuntia Ficus-Indica Flower Extract, Xanthan Gum, Morus Alba Bark Extract, Daucus Carota Sativa (Carrot) Seed Oil, Limonene

We are dedicated to maintaining accurate product ingredient listings. Because ingredients may be subject to change, for the most current and accurate listing of ingredients in each product, please refer to your product packaging.

DID YOU KNOW?

There's a common misconception that glycolic acid and retinol can't be combined because of their differing pH levels. In fact, they make the perfect tag-team, with the glycolic working from the surface level, down, while retinol does its thing from the bottom, up. Be mindful of skin's hydration levels when using these drops, and if needed, add in HA-Revive Hyaluronic Drops to your routine for an additional boost.

CLEAN + CLINICAL RESULTS

Clinically proven to improve the appearance of fine lines and wrinkles, while helping firm, smooth, and strengthen skin, for refined clarity and skin vitality.

CLINICAL GRADING:

- 74% showed improvement in fine lines and wrinkles after one month use.
- Non-comedogenic

AFTER 1 WEEK OF USE:

- 80% said skin looks + feels smoother
- 80% said skin looks more nourished
- 77% said skin looks firmer

AFTER 1 MONTH OF USE:

- 90% said skin looks firmer
- 90% said skin feels smoother
- 83% said appearance of wrinkles softened

Results reported from a one month independent clinical study conducted on 31 healthy female volunteers, ages 35-63, that assessed skin texture, global fine lines, and wrinkles after the following intervals: one week and one month.

Phyto-Active Conditioning Oil Drops

OIL

RECOMMENDED FOR: ALL SKIN TYPES

This quick-absorbing, dry oil nourishes, hydrates, and promotes a healthy glow with a blend of botanicals, humectants, and plant stem cell technology.

FREQUENCY: 1X/WEEK

pH: N/A

BACK BAR: 58 mL / 1.96 fl. oz.

RETAIL: 30 mL / 1 fl. oz.

KEY BENEFITS

- **STRENGTHENING:** Helps fortify and safeguard skin's moisture barrier.
- **REPAIRING:** Comforting botanical emollients soothe and calm skin, offering next-level protection against signs of aging.
- **MOISTURIZING:** Loaded with natural humectants, this formulation boosts moisture levels, for plumped, hydrated complexion comfort.

KEY INGREDIENTS

- **PLANT STEM CELL:** Supports skin's barrier, repairing and promoting natural luminosity, while diminishing the appearance of fine lines and wrinkles.
- **SQUALANE:** Rebalances and replenishes lost moisture, restoring skin's vitality and softness.
- **JOJOBA + ARGAN OIL BLEND:** Deeply hydrating and nourishing botanical oil blend, calms and conditions.

Phyto-Active Conditioning Oil Drops

PROFESSIONAL PROTOCOL

For treatment room use, these drops can be used: as a medium for dermaplaning as well as added to a mask or moisturizer for additional softening benefits.

INGREDIENTS

Squalane, Simmondsia Chinensis (Jojoba) Seed Oil, Argania Spinosa Kernel Oil, Glycerin, Polysorbate 20, Aqua/Water/Eau, Leuconostoc/Radish Root Ferment Filtrate, Globularia Cordifolia Callus Culture Extract, 1,2-Hexanediol, Caprylyl Glycol, Hamamelis Virginiana (Witch Hazel) Water, Tropolone, Alcohol, Thermus Thermophilus Ferment, Schisandra Chinensis Fruit Extract, Lysine HCl, Aspalathus Linearis (Rooibos) Extract, Tocopherol, Punica Granatum (Pomegranate) Extract, Glycine Soja (Soybean) Oil, Potassium Sorbate, Camellia Sinensis (White Tea) Leaf Extract, Ubiquinone

We are dedicated to maintaining accurate product ingredient listings. Because ingredients may be subject to change, for the most current and accurate listing of ingredients in each product, please refer to your product packaging.

DID YOU KNOW?

The squalane used in this formula is a unique plant-derived version from sugar cane that works to prevent moisture loss, while restoring skin's softness. It's highly pure 100% bio-based and sustainably sourced making this key active truly exceptional.

Bio-Renew EGF Drops 2%

SERUM

RECOMMENDED FOR: ALL SKIN TYPES

Pro Exclusive: Bio-Renew EGF Drops, now formulated with super-strength 2% EGF to repair, strengthen, and firm skin.

FREQUENCY: 1X/WEEK

pH: 4.55-5.55

BACK BAR: 58 mL / 1.96 fl. oz.

KEY BENEFITS

- **ANTI-AGING:** 2% EGF and multi-peptide complex fortifies and firms skin's barrier to reduce fine lines and wrinkles.
- **RESTORING:** Replenishing and revitalizing from within, skin appears visibly brighter and more radiant.
- **SOFTENING:** Soothing and repairing, skin's overall suppleness and texture is improved.

KEY INGREDIENTS

- **2% EPIDERMAL GROWTH FACTOR:** Our highest ever dose of EGF, this reparative ingredient mimics a protein natural to human skin and signals to cells to boost collagen and elastin production, to improve and maintain elasticity and clarity, for a more youthful appearance.
- **MULTI-PEPTIDE COMPLEX:** Powerful peptides help firm skin and stimulate repair.
- **HYALURONIC ACID:** Draws moisture into the skin to provide hydration.

Bio-Renew EGF Drops 2%

PROFESSIONAL PROTOCOL

For treatment room use, these drops can be used: as a medium for microneedling, applied directly to skin prior to a mask or moisturizer, or added as a booster to a moisturizer for additional reparative benefits.

INGREDIENTS

Aqua/Water/Eau, Glycerin, Acacia Senegal Gum, Butylene Glycol, Alcohol Denat., Phenoxyethanol, Propanediol, Benzyl Alcohol, Sodium Hyaluronate, Bisabolol, Xanthan Gum, Phospholipids, Sodium Gluconate, Caprylhydroxamic Acid, Ethylhexylglycerin, Asiaticoside, Pentylene Glycol, Citric Acid, Crocus Chrysanthus Bulb Extract, Caprylyl Glycol, Saccharide Isomerate, sh-Oligopeptide-1, N-Prolyl Palmitoyl Tripeptide-56 Acetate, Acetyl Hexapeptide-49, Pentapeptide-48, Hamamelis Virginiana (Witch Hazel) Water, Sodium Hydroxide, Alcohol

We are dedicated to maintaining accurate product ingredient listings. Because ingredients may be subject to change, for the most current and accurate listing of ingredients in each product, please refer to your product packaging.

DID YOU KNOW?

The EGF used in our formula is vegan (meaning it is synthesized or lab-derived); controversy for this ingredient category stems from its source, often when it is human or animal-derived.

Oil-Free Moisturizer

MOISTURIZER

RECOMMENDED FOR: ALL SKIN TYPES

Delivers lightweight moisture infused with antioxidants, botanicals, and essential hydrators to help balance and strengthen skin without weighing it down.

FREQUENCY: 1X/WEEK

pH: 6.0

BACK BAR: 236 mL / 8 fl. oz.

RETAIL: 50 mL / 1.7 fl. oz.

KEY BENEFITS

- **BALANCING:** Clarifies and purifies while maintaining skin's moisture.
- **HYDRATING:** Strengthens skin's moisture barrier, delivering deep hydration and plumping skin.
- **PROTECTION:** Antioxidants calm the complexion, reduce redness, and protect against aging free radical damage.

KEY INGREDIENTS

- **HYALURONIC ACID:** Hyper-hydration delivered deep into skin to replenish and plump.
- **ALGAE EXTRACT:** Like superfood for your skin, it detoxes pores, boosts moisture and suppleness, and softens the appearance of fine lines.
- **MALACHITE EXTRACT:** A powerhouse age-defying antioxidant mineral that promotes collagen synthesis, and improves skin tone and elasticity.

Oil-Free Moisturizer

PROFESSIONAL PROTOCOL

For treatment room use, apply to skin after toning and serum boost.

INGREDIENTS

Aqua/Water/Eau, Dimethicone, Stearic Acid, Simmondsia Chinensis (Jojoba) Seed Oil, Phenoxyethanol, Glyceryl Stearate, Glycerin, Carbomer, Tocopheryl Acetate, Saccharide Isomerate, Disodium EDTA, PEG-100 Stearate, Potassium Sorbate, Sodium Gluconate, Malachite Extract, Sodium Hydroxide, 3-O-Ethyl Ascorbic Acid, Ethylhexylglycerin, Sodium Hyaluronate, Dunaliella Salina Extract, Citric Acid, Sodium Citrate, Melia Azadirachta Leaf Extract, Melia Azadirachta Flower Extract, Coccinia Indica Fruit Extract, Solanum Melongena (Eggplant) Fruit Extract, Aloe Barbadensis Flower Extract, Curcuma Longa (Turmeric) Root Extract, Ocimum Sanctum Leaf Extract, Corallina Officinalis Extract, Hamamelis Virginiana (Witch Hazel) Water, Alcohol

We are dedicated to maintaining accurate product ingredient listings. Because ingredients may be subject to change, for the most current and accurate listing of ingredients in each product, please refer to your product packaging.

DID YOU KNOW?

One of skincare's best kept secrets, marine algae extract is a powerhouse of skin-loving nutrients, rich in omega 3 fatty acids, amino acids, and vitamins A, B, C, and E. With its antioxidant properties, it helps neutralize free radical damage, guarding against signs of aging by lowering the amount of oxidative stress in the skin, and supports skin's barrier function, all while soothing and calming skin. Long story short, it's a skin superfood and you need it in your skincare ritual.

Hydra-Bright AHA Hydrator

MOISTURIZER

RECOMMENDED FOR: ALL SKIN TYPES

This lightweight, luminizing moisturizer targets a brighter, smoother complexion with lactic acid, vitamin C, and mineral luminosity complex to hydrate, illuminate, and promote your skin's natural radiance.

FREQUENCY: 1X/WEEK

pH: 3.5-4.5

BACK BAR: 234 mL / 7.9 fl. oz.

RETAIL: 50 mL / 1.7 fl. oz.

KEY BENEFITS

- **HYDRATING:** Delivering hydration deep within, this strengthening, conditioning formula replenishes skin's moisture reserves, plumping and nourishing.
- **BRIGHTENING:** Dual action brightening from vitamin C promotes skin's clarity and radiance, while a mica-infused complex amplifies that lit-from-within glow.
- **SMOOTHING:** Gently exfoliating and refining texture imperfections, the appearance of pores, fine lines and wrinkles is visibly improved.

KEY INGREDIENTS

- **VEGAN LACTIC ACID:** At a 1% formulation it offers very light exfoliation, improving uneven skin tone, texture, and signs of aging.
- **VITAMIN C:** Provides antioxidant and blue light defense, strengthening skin's barrier, delivering a radiant, brightening boost.
- **MINERAL LUMINOSITY COMPLEX:** Imparts instant luminosity for a glass-skin effect.

Hydra-Bright AHA Hydrator

PROFESSIONAL PROTOCOL

For treatment room use, apply to skin after toning and serum boost.

INGREDIENTS

Aqua/Water/Eau, Squalane, Caprylic/Capric Triglyceride, Butyrospermum Parkii (Shea) Butter, Lauryl Laurate, Glycerin, Hydroxyethyl Acrylate/Sodium Acryloyldimethyl Taurate Copolymer, Ethylhexyl Palmitate, Carnitine, Polysorbate 20, Sodium Stearoyl Glutamate, Lactic Acid, Alcohol Denat., Phenoxyethanol, Cetearyl Olivatate, Mica, Hydroxypropyl Starch Phosphate, Cetearyl Alcohol, Polysorbate 60, Sorbitan Olivatate, 3-O-Ethyl Ascorbic Acid, Synthetic Fluorphlogopite, Potassium Sorbate, Sodium Gluconate, Xanthan Gum, Ethylhexylglycerin, Helianthus Annuus (Sunflower) Seed Oil, Santalum Austrocaledonicum Wood Oil, Teprenone, Tocopherol, Lavandula Angustifolia (Lavender) Oil, Hydrolyzed Myrtus Communis Leaf Extract, Polyglyceryl-4 Caprate, Vanilla Planifolia Fruit Extract, Sodium Hydroxide, Ormenis Multicaulis Oil, Citrus Aurantium Dulcis (Orange) Peel Oil, Dextran, Caprooyl Tetrapeptide-3, CI 77891 (Titanium Dioxide)

We are dedicated to maintaining accurate product ingredient listings. Because ingredients may be subject to change, for the most current and accurate listing of ingredients in each product, please refer to your product packaging.

DID YOU KNOW?

As we move into multitasking times, we're seeking more from our moisturizers. Solving for an array of skin concerns, step forward the new generation of moisturizers—offering all the usual benefits, but now infused with next-level actives for elevated efficacy. And, as with any brightening regime, with the Hydra-Bright AHA Hydrator, due to cell turnover, it can take up to 45 days for brightening and smoothing to be visible, so while the actives get to work under the surface, we added the mineral luminosity complex to give you that immediate radiance boost.

CLEAN + CLINICAL RESULTS

Clinically proven to brighten, smooth, and hydrate skin for a healthy glow in just one week, with increased efficacy after one month.

CLINICAL GRADING:

- Non-comedogenic

AFTER 1 WEEK OF USE:

- 96% said skin feels brighter and more hydrated
- 93% said complexion looks more even
- 93% said skin feels smoother

AFTER 1 MONTH OF USE:

- 100% said skin felt deeply hydrated
- 100% said skin looks brighter and glowing
- 100% said complexion looked more even

Results reported from a one month independent clinical study conducted on 30 healthy female volunteers, ages 36-61, that assessed improvement in skin hydration and non-comedogenicity after the following intervals: one week and one month.

Hydra-Bright Eye Cream

MOISTURIZER

RECOMMENDED FOR: ALL SKIN TYPES

This brightening eye cream rich in vitamin C, lactic acid, and calming cucumber hydrates the delicate eye area while a mineral luminosity complex and sheer peach tone provide instant illumination for a refreshed, uplifted appearance to the eye area.

FREQUENCY: 1X/WEEK

pH: 4.74-5.74

BACK BAR: 60 mL / 2 fl. oz.

RETAIL: 15 mL / 0.5 fl. oz.

KEY BENEFITS

- **BRIGHTENING:** Lifting luminosity and brightness around the eye area, it reduces and smooths the appearance of dark circles and fine lines.
- **HYDRATING:** Conditions and calms, strengthening the moisture barrier for a refreshed, revived appearance.
- **ILLUMINATING:** The mineral luminosity complex and peach tone delivers instant luminosity for a radiant, dewy effect.

KEY INGREDIENTS

- **VITAMIN C:** Featuring 2% vitamin C, it promotes a brighter appearance while targeting signs of aging, and shielding skin against blue light damage.
- **LACTIC ACID:** A gentle AHA and natural humectant, it smooths the appearance of fine lines, for firmer, brighter skin.
- **CUCUMBER EXTRACT:** Calming cucumber and magnolia extracts help soothe and hydrate skin.

Hydra-Bright Eye Cream

PROFESSIONAL PROTOCOL

For treatment room use, lightly tap product around eye area until absorbed.

INGREDIENTS

Aqua/Water/Eau, Glycerin, C12-15 Alkyl Benzoate, Glyceryl Stearate, Caprylic/Capric Triglyceride, Hydroxypropyl Starch Phosphate, 3-O-Ethyl Ascorbic Acid, Polyglyceryl-6 Palmitate/Succinate, Pentaerythrityl Tetraisostearate, Dimethicone, Magnesium Aluminum Silicate, Propanediol, Tocopheryl Acetate, Leuconostoc/Radish Root Ferment Filtrate, Simmondsia Chinensis (Jojoba) Seed Wax, Sodium Acrylates Copolymer, Synthetic Fluorphlogopite, Polysorbate 20, Styrene/Acrylates Copolymer, Potassium Azeloyl Diglycinate, Sodium Stearoyl Glutamate, Cetearyl Alcohol, Xanthan Gum, Cucumis Sativus (Cucumber) Fruit Extract, Ammonium Glycyrrhizate, Lactic Acid, Plantago Lanceolata Leaf Extract, Hydrolyzed Jojoba Esters, Hexyl 3-Glyceryl Ascorbate, Potassium Sorbate, Sodium Gluconate, Mica, Magnolia Grandiflora Bark Extract, Santalum Austrocaledonicum Wood Oil, Arginine, Lavandula Angustifolia (Lavender) Oil, Vanilla Planifolia Fruit Extract, Citric Acid, Magnesium Stearate, Ormenis Multicaulis Oil, Citrus Aurantium Dulcis (Orange) Peel Oil, Hamamelis Virginiana (Witch Hazel) Water, Sodium Hydroxide, Alcohol, Limonene, Linalool, CI 77891 (Titanium Dioxide), CI 77491, CI 77492, CI 77499 (Iron Oxides), CI 77163 (Bismuth Oxychloride)

We are dedicated to maintaining accurate product ingredient listings. Because ingredients may be subject to change, for the most current and accurate listing of ingredients in each product, please refer to your product packaging.

DID YOU KNOW?

Wondering what the difference is between our two vitamin C eye creams? Both deliver next-level results and elevated benefits, but they work very differently. For serious brightening power with instant illumination, the 2% vitamin C paired with vegan lactic acid in Hydra-Bright Eye Cream delivers renewed radiance.

For a more protective, anti-aging, depuffing eye cream with blue light defense, C-Shield Eye Restore Hydrator is a great option. It targets signs of aging caused by environmental stressors, protecting and preventing free radical damage.

Restorative Cream

MOISTURIZER

RECOMMENDED FOR: ALL SKIN TYPES

A nutritive blend of skin-strengthening antioxidants, conditioning oils, and superfruit botanical extracts deliver rich moisture to cushion, protect, and repair dry, dehydrated skin.

FREQUENCY: 1X/WEEK

pH: 3.39-4.39

BACK BAR: 230 mL / 7.8 fl. oz.

RETAIL: 50 mL / 1.7 fl. oz.

KEY BENEFITS

- **MOISTURIZING:** Delivers skin a deep, quenching surge of hydration, nourishing and conditioning the complexion.
- **PROTECTING:** Antioxidants calm and reduces visible redness, shielding skin from aging free radical damage.
- **STRENGTHENING:** Gentle but effective botanicals repair and restore skin's moisture barrier, helping skin retain moisture.

KEY INGREDIENTS

- **RESVERATROL:** A supercharged anti-aging antioxidant, it protects skin's surface, shielding from environmental stressors, while calming and soothing redness.
- **SQUALANE:** A natural emollient, it helps to lock moisture into the skin, offering conditioning relief to any dry patches, and reducing the appearance of fine lines.
- **BLACK CURRANT SEED OIL:** Healing and reparative, this nourishing anti-inflammatory oil promotes healthy skin growth.

Restorative Cream

PROFESSIONAL PROTOCOL

For treatment room use, apply to skin after toning and serum boost.

INGREDIENTS

Aqua/Water/Eau, Butyrospermum Parkii (Shea) Butter, Squalane, Glycerin, Caprylic/Capric Triglyceride, Coconut Alkanes, Cetearyl Alcohol, Cetearyl Olivatate, Polysorbate 20, Theobroma Cacao (Cocoa) Seed Butter, Gluconolactone, Alcohol Denat., Simmondsia Chinensis (Jojoba) Seed Oil, Sorbitan Olivatate, Xanthan Gum, C18-36 Acid Triglyceride, Rosa Canina (Rose Hip) Fruit Oil, Sodium Benzoate, Coco-Caprylate/Caprata, Helianthus Annuus (Sunflower) Seed Oil, Sodium Gluconate, Prunus Amygdalus Amara (Bitter Almond) Kernel Oil, Fragrance/Parfum*, Tocotrienols, Elaeis Guineensis (Palm) Oil, Buddleja Davidii Extract, Thymus Vulgaris (Thyme) Flower/Leaf Extract, Curcuma Longa (Turmeric) Root Extract, Phytic Acid, Tocopherol, Acetyl Tributyl Citrate, Camellia Sinensis (Green Tea) Leaf Extract, Hamamelis Virginiana (Witch Hazel) Water, Ribes Nigrum (Black Currant) Seed Oil, Beta-Glucan, Polygonum Cuspidatum Extract, Alcohol, Phenyl t-ButylNitron, Epigallocatechin Gallate, Citric Acid, Sodium Hydroxide

*Natural fragrance/Parfum naturel

We are dedicated to maintaining accurate product ingredient listings. Because ingredients may be subject to change, for the most current and accurate listing of ingredients in each product, please refer to your product packaging.

DID YOU KNOW?

You've probably heard of the skin's moisture barrier or protective barrier as it's also known, but what does it actually do? Well, no surprises, it does exactly what its name describes; it helps the skin retain moisture. Keeping the good stuff in—including electrolytes too, what it also does is keep the bad stuff out—like free radicals, heavy metals, and other damaging irritants, protecting the deeper layers of your skin from damage. You need it in optimal condition for skin to look plump, dewy, and healthy. If you're suffering from rough, flaky, red, even itchy skin, these are signs your skin's barrier needs some love. Causes for this could be internal like not drinking enough water, over consumption of caffeine and alcohol, while external factors like the sun and pollution also can cause visible damage. The best way to keep your moisture barrier happy is to drink lots of water and use the right skincare products. Moisture barrier-loving ingredients include squalane, hyaluronic acid, fruit oils, antioxidants, and lactic acid—which actually increases the moisture content of the skin. You'll start to notice when your barrier is back up and running when the redness, dryness, and roughness is less visible and your skin feels smoother and supple.

Bio-Renew EGF Cream

MOISTURIZER

RECOMMENDED FOR: ALL SKIN TYPES—ESPECIALLY THOSE WITH AGING CONCERNS

Formulated with vegan EGF, peptides, and a phyto-retinol complex, this advanced reparative moisturizer hydrates, smooths, and rejuvenates skin to help promote cellular renewal and support barrier strength for a radiant, restored complexion.

FREQUENCY: 1X/WEEK

pH: 4.8-5.5

BACK BAR: 230 mL / 7.8 fl. oz.

RETAIL: 50 mL / 1.7 fl. oz.

KEY BENEFITS

- **REPAIRING:** A dual-action reparative complex restores and rejuvenates from within, supporting cellular renewal for a more radiant complexion.
- **STRENGTHENING:** Repairs and fortifies skin's barrier for revitalized hydration.
- **FIRMING:** Smooths and plumps skin, reducing the appearance of fine lines and wrinkles.

KEY INGREDIENTS

- **1% EPIDERMAL GROWTH FACTOR:** Vegan EGF, an innovative reparative ingredient that signals cells to boost collagen and elastin production for improved elasticity and radiance.
- **PHYTO-RETINOL COMPLEX:** A plant-based alternative to retinol that's equally as effective in firming, smoothing, and reducing the appearance of fine lines and wrinkles, without causing sensitivities or irritation.
- **BIO-RECOVERY PEPTIDES:** Powerful peptides help repair and firm skin from within.

Bio-Renew EGF Cream

PROFESSIONAL PROTOCOL

For treatment room use, apply to skin after toning and serum boost.

INGREDIENTS

Aqua/Water/Eau, Glycerin, Cetearyl Alcohol, Cetyl Alcohol, Glyceryl Stearate, Shea Butter Ethyl Esters, Cystoseira Amentacea/Caespitosa/Branchycarpa Extract, Vaccinium Macrocarpon (Cranberry) Fruit Extract, Acacia Senegal Gum, Linoleic Acid, Sodium Acrylates Copolymer, Bixa Orellana Seed Extract, Butyrospermum Parkii (Shea) Butter, Kalanchoe Pinnata Leaf Extract, Mangifera Indica (Mango) Seed Butter, Bakuchiol, Lecithin, Linolenic Acid, Laminaria Saccharina Extract, Butyrospermum Parkii (Shea) Oil, Kappaphycus Alvarezii Extract, Gigartina Stellata Extract, Phospholipids, Padina Pavonica Thallus Extract, Lipase, Butylene Glycol, Disodium EDTA, Olea Europaea (Olive) Fruit Oil, Propanediol, Corallina Officinalis Extract, Protease, Arginine, Citric Acid, Tocopherol, Crocus Chrysanthus Bulb Extract, Hyaluronic Acid, Silanetriol, sh-Oligopeptide-1, Acetyl Hexapeptide 49

DID YOU KNOW?

Epidermal growth factor (EGF) is the ultimate reparative ingredient in skincare. The scientists who discovered it 30 years ago won a Nobel Prize for their work using EGF in medicine for burn patients, making it one of the most innovative ingredients in the skincare world right now. It's a protein that occurs naturally in human skin and provides healing benefits. Glo only uses vegan—never animal derived, EGF in its formulations, which mimics the human protein to boost collagen and elastin production.

CLEAN + CLINICAL RESULTS

CLINICAL GRADING:

Reduction in spots, wrinkles and fine lines, skin homogeneity, hydration, smoothness, firmness, with an improvement in skin radiance/brightness, texture, and healthy appearance after one month use.

A significant improvement of skin hydration was observed after one month of use.

AFTER 1 WEEK OF USE:

- 92% said that skin is less dull and appears brighter
- 88% said there was improved appearance of texture and smoothness
- 88% said skin looks healthier
- 85% said skin looks more radiant and glowing

AFTER 1 MONTH OF USE:

- 96% said skin feels deeply hydrated and softer
- 92% said skin feels healthy, plumped, and replenished
- 92% said there was improved appearance of texture and smoothness

A one month independent clinical study conducted on 29 healthy female volunteers, ages 30-60 (mean age 47), self-declared as having sensitive skin and with recent and repeated history of any functional symptoms of skin discomfort, presenting facial spots, wrinkles/fine lines, dull skin (lack of luminosity/radiance) and lack of firmness on the skin (assessed by the expert grader). Results reported after the following intervals: initial, one week, and one month.

Pressed Base Magazine

PERFECT

RECOMMENDED FOR: ALL SKIN TYPES

Flexible, weightless, longwearing coverage, this award-winning pressed powder base is powered by skin-protecting antioxidants and triple-milled minerals for a radiant, natural, second-skin finish.

COVERAGE: SHEER TO FULL

FINISH: NATURAL

BACK BAR SIZE: 216 g / 7.44 oz.

RECOMMENDED TOOLS: 104 DUAL FIBER FACE BRUSH FOR SHEER COVERAGE, 105 FLAT-TOP KABUKI FOR FULLER COVERAGE

KEY BENEFITS

- **ALL-DAY WEAR:** Providing a weightless, semi-matte finish, this longwearing formulation perfects and blurs, creating a second-skin canvas that stays in place all day.
- **SOOTHING:** Consciously crafted to be sensitivity-safe, from redness or sensitized complexions, to post-treatment or sunburnt skin, this gentle powder calms and nourishes.
- **FLEXIBLE COVERAGE:** An easily customizable base, build from sheer to full coverage, or use to set liquid or cream foundation formulations.

KEY INGREDIENTS

- **VITAMIN COMPLEX:** Infused with vitamins A, C, and E for a boost of skin-defending, anti-aging properties.
- **GREEN TEA EXTRACT:** A soothing antioxidant to calm any sensitivities, redness, or inflammation.
- **TRIPLE-MILLED MINERALS:** Glo is a talc-free zone, with a mix of ethically-sourced mica to give a soft focus finish, plus other natural minerals to provide additional protection and longwearing coverage, with a weightless finish.

APPLICATION

For professional use, designated as the last step of a skin treatment and perfect (foundation) step for a makeup service, apply using the Glo Skin Beauty brush of your choice or Makeup Blender Sponge to achieve buildable sheer to full coverage.

INGREDIENTS

Mica, Octyldodecyl Stearoyl Stearate, Zinc Stearate, Boron Nitride, Caprylyl Glycol, Phenoxyethanol, Tocopherol, Isopentyl diol, Nylon-12, Stearic Acid, Glycerin, Aqua/Water/Eau, Camellia Sinensis (Green Tea) Leaf Extract, Ascorbyl Palmitate. (±): CI 77891 (Titanium Dioxide), CI 77491, CI 77492, CI 77499 (Iron Oxides), CI 77163 (Bismuth Oxochloride), CI 77947 (Zinc Oxide), CI 19140 (Yellow 5 Lake), CI 77288 (Chromium Oxide Greens), CI 77007 (Ultramarines)

We are dedicated to maintaining accurate product ingredient listings. Because ingredients may be subject to change, for the most current and accurate listing of ingredients in each product, please refer to your product packaging.

DID YOU KNOW?

Ultra-fine, triple-milled minerals are our go-tos for all our Glo Skin Beauty powder-based products. Meaning, literally, the minerals are sent through the mill three times—becoming smoother, finer, and softer. That's why our powders are so silky with an almost cream-like quality. Milling the minerals this way also helps deliver longwearing, continuous coverage. Triple-milled is not to be confused with nano-particles though which are a real no-no for us, as they're so tiny they can be inhaled or penetrate into the tiniest of follicles. All our formulations are nanotechnology and talc-free by design, so you can get all the benefits of clean, safe mineral makeup, for every skin.

Treatment Protocols

TARGET AND TREAT EVERY CONCERN

Do you want to perform expert, results-driven treatments, but are wondering where to start? Look no further. Our professional peel and facial protocols provide step-by-step guidance for treatment room transformation.

Flower Enzyme

PEEL PROTOCOL

This powerful blend of vitamin-rich fruit and flower enzymes gently lift dulling surface cells to smooth, stimulate, and tone skin. Hibiscus, passionflower, and honeysuckle extracts provide strong antioxidant support as well as a relaxing scent, making this cream peel truly an experience.

RECOMMENDED FOR
ALL SKIN TYPES EXCEPT
EXTREMELY SENSITIVE

NOTE
This protocol has been created to effectively use Glo Skin Beauty products. All protocols are a guideline and may be modified. A patch test is recommended 24-48 hours prior to treatment.

PEEL LEVEL: 3
FREQUENCY OF TREATMENT
UP TO 1X/WEEK

COST PER TREATMENT
\$3.78-\$10.32

SUGGESTED TREATMENT PRICE
\$150

CLEANSE	Perform a double cleanse with Hydra-Bright AHA Cleanser . Remove with a warm towel.
PRE-PEEL	With 2x2 cotton filled gauze pads, apply an even layer of Hydra-Bright Pro 5 Liquid Exfoliant to dry skin. Do not remove.
OPTIONAL PEEL PREP	To boost intensity, with 2x2 cotton filled gauze pads, apply an even layer of Peel Prep to dry skin. Do not remove. Apply Barrier Balm to lips, around eyes, earlobes, and any other sensitive areas of the face.
PEEL	Using the Mask Brush , apply an even layer of Flower Enzyme . Steam can be added for additional activity; leave on for 5-15 minutes and remove with a warm towel.
OPTIONAL NEUTRALIZER	If skin shows excessive redness, dampen a 4x4 cotton pad with Neutralizer and gently wipe over skin until irritation is minimized. NOTE: It is not uncommon for initial application of Neutralizer to provide a slight tingling/stinging sensation, it should quickly dissipate.

CUSTOMIZING OPTION A

For clients that have previously received peels and do not show any signs of sensitivity.

To maximize the peel experience after **Neutralizing**:

SERUM	Apply 3-5 drops of Hydra-Bright Alpha Arbutin Drops to face, allow to absorb.
COVERAGE	To complete the treatment, apply Pressed Base using the Flat-top Kabuki Brush in small circular motions to achieve perfect coverage.

CUSTOMIZING OPTION B

For clients that may be newer to professional peels, are showing flushing/redness or feeling activity/stinging (also keep in mind seasonal or lifestyle considerations like upcoming vacations/travel).

To moderate the peel experience, after **Neutralizing**:

SERUM + MASK	Apply 3-5 drops of Hydra-Bright Alpha Arbutin Drops to the face, allow to absorb. Using the Mask Brush , apply an even layer of Soothing Gel Mask and leave on 5-10 minutes. Remove with warm towel.
TONE	Holding bottle about 18" above client's face, spritz Phyto-Calm Flower Mist 6-8 times, allowing mist to fall lightly onto client's face.
BOOST	Mix 2-3 drops of C-Shield Anti-Pollution Drops and 2-3 drops of HA-Revive Hyaluronic Drops to the face to boost antioxidant benefits and water content in the skin.
EYE	With ring fingers, lightly tap C-Shield Eye Restore Hydrator around the eye area until absorbed; a grain of rice size should be enough for both eyes.
MOISTURIZE	Apply an even layer of Phyto-Calm Aloe Hydrator to client's face and neck.
PROTECT	For environmental protection, apply an even layer of sunscreen.
LIP	Smooth Barrier Balm over lips for conditioning hydration.
COVERAGE	To complete the treatment, apply Pressed Base using the Flat-top Kabuki Brush in small circular motions to achieve perfect coverage.

Enzyme

PEEL PROTOCOL

Promote skin’s clarity with this professional cream peel. Salicylic acid and fruit enzymes target excess oil and congestion to help prevent future flare-ups while anti-inflammatory antioxidants help heal existing breakouts for a balanced, clear complexion.

Holding bottle about 18" above client's face, spritz **Phyto-Calm Flower Mist** 6-8 times, allowing mist to fall lightly onto client's face.

BOOST

Mix 2-3 drops of **C-Shield Anti-Pollution Drops** and 2-3 drops of **HA-Revive Hyaluronic Drops** to the face to boost antioxidant benefits and water content in the skin.

EYE

With ring fingers, lightly tap **C-Shield Eye Restore Hydrator** around the eye area until absorbed; a grain of rice size should be enough for both eyes.

MOISTURIZE

Apply an even layer of **Oil-Free Moisturizer** to client's face and neck.

PROTECT

For environmental protection, apply an even layer of sunscreen.

LIP

Smooth **Barrier Balm** over lips for conditioning hydration.

COVERAGE

To complete the treatment, apply **Pressed Base** using the **Flat-top Kabuki Brush** in small circular motions to achieve perfect coverage.

Hydra-Bright AHA Glow Peel

PEEL PROTOCOL

This signature Glo Skin Beauty treatment smooths, hydrates, and brightens skin with vegan lactic and ferulic acids. A botanical brightening boost combined with nourishing and reparative antioxidants helps reveal a more radiant, revitalized complexion and promotes a lasting, healthy glow.

- Hydra-Bright AHA Hydrator

RECOMMENDED FOR

ALL SKIN TYPES CONCERNED WITH AGING AND HYPERPIGMENTATION

NOTE

This protocol has been created to effectively use Glo Skin Beauty products. All protocols are a guideline and may be modified. A patch test is recommended 24-48 hours prior to treatment.

PEEL LEVEL: 4

FREQUENCY OF TREATMENT

UP TO 2X/MONTH

COST PER TREATMENT

\$6.31-\$10.82

SUGGESTED

TREATMENT PRICE

\$200

TREATMENT OPTIMIZATION	Have client complete the Hydra-Bright AHA Glow Peel-In-A-Box 1 week prior to treatment or 1 week post treatment.
CLEANSE	Perform a double cleanse with Hydra-Bright AHA Cleanser . Remove with a warm towel.
PRE-PEEL	With 2x2 cotton filled gauze pads, apply an even layer of Hydra-Bright Pro 5 Liquid Exfoliant to dry skin. Do not remove.
OPTIONAL PEEL PREP	To boost intensity, with 2x2 cotton filled gauze pads, apply an even layer of Peel Prep to dry skin. Do not remove. Apply Barrier Balm to lips, around eyes, earlobes, and any other sensitive areas of the face.
PEEL	With 2x2 cotton filled gauze pads or a glycolic applicator, apply an even layer of Hydra-Bright AHA Glow Peel . Leave on for 3-5 minutes.

NEUTRALIZE

Dampen a 4x4 cotton pad with **Neutralizer** and gently wipe over skin until irritation is minimized.

NOTE: It is not uncommon for initial application of **Neutralizer** to provide a slight tingling/stinging sensation, it should quickly dissipate.

CUSTOMIZING OPTION A

For clients that have previously received peels and do not show any signs of sensitivity.

To maximize the peel experience after **Neutralizing**:

SERUM

Apply 3-5 drops of **Hydra-Bright Alpha Arbutin Drops** to face, allow to absorb.

COVERAGE

To complete the treatment, apply **Pressed Base** using the **Flat-top Kabuki Brush** in small circular motions to achieve perfect coverage.

CUSTOMIZING OPTION B

For clients that may be newer to professional peels, are showing flushing/redness or feeling activity/stinging (also keep in mind seasonal or lifestyle considerations like upcoming vacations/travel).

To moderate the peel experience, after **Neutralizing**:

SERUM + MASK

Apply 3-5 drops of **Hydra-Bright Alpha Arbutin Drops** to the face, allow to absorb. Using the **Mask Brush**, apply an even layer of **Soothing Gel Mask** and leave on 5-10 minutes. Remove with warm towel.

TONE

Holding bottle about 18" above client's face, spritz **Phyto-Calm Flower Mist** 6-8 times, allowing mist to fall lightly onto client's face.

BOOST

Mix 2-3 drops of **C-Shield Anti-Pollution Drops** and 2-3 drops of **HA-Revive Hyaluronic Drops** to the face to boost antioxidant benefits and water content in the skin.

EYE

With ring fingers, lightly tap **C-Shield Eye Restore Hydrator** around the eye area until absorbed; a grain of rice size should be enough for both eyes.

MOISTURIZE

Apply an even layer of **Hydra-Bright AHA Hydrator** to client's face and neck.

PROTECT

For environmental protection, apply an even layer of sunscreen.

LIP

Smooth **Barrier Balm** over lips for conditioning hydration.

COVERAGE

To complete the treatment, apply **Pressed Base** using the **Flat-top Kabuki Brush** in small circular motions to achieve perfect coverage.

CLEANSE	Perform a double cleanse with Hydra-Bright AHA Cleanser . Remove with a warm towel.
PRE-PEEL	With 2x2 cotton filled gauze pads, apply an even layer of Hydra-Bright Pro 5 Liquid Exfoliant to dry skin. Do not remove.
PEEL PREP	To boost intensity, with 2x2 cotton filled gauze pads, apply an even layer of Peel Prep to dry skin. Do not remove. Apply Barrier Balm to lips, around eyes, earlobes, and any other sensitive areas of the face.
PEEL	Open vial and pour half the contents (use full vial if planning to apply product to face, neck, décolleté and back of hands) of Retinol + C Peel Boost Max into a small cup. Using the Mask Brush , apply to face (and neck if desired) avoiding the eye area. Allow product to absorb at least 15 minutes following application. Thoroughly blot excess product off of skin using a tissue.
COVERAGE	To complete the treatment, apply Pressed Base using the Flat-top Kabuki Brush in small circular motions to achieve perfect coverage.

CUSTOMIZING OPTION

While it can be used alone, **Retinol + C Peel Boost Max** was designed to enhance another Glo Skin Beauty peel.

To level up another peel, follow the steps below.

CLEANSE	Perform a double cleanse with Hydra-Bright AHA Cleanser . Remove with a warm towel.
PRE-PEEL	With 2x2 cotton filled gauze pads, apply an even layer of Hydra-Bright Pro 5 Liquid Exfoliant to dry skin. Do not remove.
PEEL	With 2x2 cotton filled gauze pads or a glycolic applicator, apply an even layer of chosen Glo Skin Beauty peel . Leave on for designated time.
NEUTRALIZE	Dampen a 4x4 cotton pad with Neutralizer and gently wipe over skin until irritation is minimized. NOTE: It is not uncommon for initial application of Neutralizer to provide a slight tingling/stinging sensation, it should quickly dissipate.
PEEL	Open vial and pour half the contents (use full vial if planning to apply product to face, neck, décolleté and back of hands) of Retinol + C Peel Boost Max into a small cup. Using the Mask Brush , apply to face (and neck if desired) avoiding the eye area. Allow product to absorb at least 15 minutes following application. Thoroughly blot excess product off of skin using a tissue.
COVERAGE	To complete the treatment, apply Pressed Base using the Flat-top Kabuki Brush in small circular motions to achieve perfect coverage.

ADDITIONAL INFO

Following application, instruct client to not wash their face for 8-24 hours.

Do not apply Retinol + C Peel Boost Max immediately before bedtime. Client should avoid direct exposure to sunlight, steam, and extreme heat. Exercise is not recommended while wearing product. Sloughing may begin within 2-3 days after application, but is not guaranteed.

Daily use of sunscreen is recommended for a minimum of 7 days as skin's sensitivity to sunlight is increased.

For clients with reactive and/or sensitive skin: avoid application to the neck area.

Triple Transformation Peel

PEEL PROTOCOL

Unlock skin transformation with this modified Jessner formula. Designed to target multiple concerns with a powerful combination of effective acids, including lactic, salicylic, and resorcinol, this multi-tasking peel effectively reduces the appearance of hyperpigmentation, fine lines, and wrinkles as well as breakouts.

COVERAGE	To complete the treatment, apply Pressed Base using the Flat-top Kabuki Brush in small circular motions to achieve perfect coverage.

CUSTOMIZING OPTION B

For clients that may be newer to professional peels, are showing flushing/redness or feeling activity/stinging (also keep in mind seasonal or lifestyle considerations like upcoming vacations/travel).

To moderate the peel experience, after **Neutralizing**:

SERUM + MASK	Apply 3-5 drops of GlyPro Retinol Drops to the face, allow to absorb. Using the Mask Brush , apply an even layer of Soothing Gel Mask and leave on 5-10 minutes. Remove with warm towel.
TONE	Holding bottle about 18" above client's face, spritz Phyto-Calm Flower Mist 6-8 times, allowing mist to fall lightly onto client's face.
BOOST	Mix 2-3 drops of C-Shield Anti-Pollution Drops and 2-3 drops of HA-Revive Hyaluronic Drops to the face to boost antioxidant benefits and water content in the skin.
EYE	With ring fingers, lightly tap C-Shield Eye Restore Hydrator around the eye area until absorbed; a grain of rice size should be enough for both eyes.
MOISTURIZE	Apply an even layer of Hydra-Bright AHA Hydrator or Bio-Renew EGF Cream to client's face and neck.
PROTECT	For environmental protection, apply an even layer of sunscreen.
LIP	Smooth Barrier Balm over lips for conditioning hydration.
COVERAGE	To complete the treatment, apply Pressed Base using the Flat-top Kabuki Brush in small circular motions to achieve perfect coverage.

TCA Clinical Reveal Peel

PEEL PROTOCOL

This physician strength formula combines TCA with other exfoliating agents to provide clinical-grade resurfacing and brightening. Excellent for aging concerns, hyperpigmentation, and scarring, this deep level treatment promotes smoother, radiant, and more youthful-looking skin.

PROFESSIONAL PRODUCTS

- Hydra-Bright AHA Cleanser
 - Hydra-Bright Pro 5 Liquid Exfoliant
 - Peel Prep
 - Barrier Balm
 - TCA Clinical Reveal Peel
 - Neutralizer
 - GlyPro Retinol Drops
 - Soothing Gel Mask
- Phyto-Calm Flower Mist
 - C-Shield Anti-Pollution Drops
 - HA-Revive Hyaluronic Drops
 - C-Shield Eye Restore Hydrator
 - Hydra-Bright AHA Hydrator
 - Chosen Sunscreen
 - Pressed Base

ACCESSORIES

- Mask Brush
- Flat-top Kabuki Brush

TOP HOMECARE RECOMMENDATIONS

- Hydra-Bright Pro 5 Liquid Exfoliant
- GlyPro Retinol Drops
- Hydra-Bright AHA Hydrator

RECOMMENDED FOR
ALL SKIN TYPES, EXCEPT SENSITIVE, CONCERNED WITH AGING, UNEVEN TEXTURE, AND HYPERPIGMENTATION

NOTE
This protocol has been created to effectively use Glo Skin Beauty products. All protocols are a guideline and may be modified. A patch test is recommended 24-48 hours prior to treatment.

PEEL LEVEL: 7

FREQUENCY OF TREATMENT
UP TO 2-4X/YEAR

COST PER TREATMENT
\$6.45-\$11.83

SUGGESTED TREATMENT PRICE
\$300

TREATMENT OPTIMIZATION	Have client complete the GlyPro AHA Resurfacing Peel-In-A-Box 1 week prior to treatment or 1 week post treatment.
CLEANSE	Perform a double cleanse with Hydra-Bright AHA Cleanser . Remove with a warm towel.
PRE-PEEL	With 2x2 cotton filled gauze pads, apply an even layer of Hydra-Bright Pro 5 Liquid Exfoliant to dry skin. Do not remove.
PEEL PREP	With 2x2 cotton filled gauze pads, apply an even layer of Peel Prep to dry skin. Do not remove. Apply Barrier Balm to lips, around eyes, earlobes, and any other sensitive areas of the face.
PEEL	Using a Mask Brush , apply an even layer of TCA Clinical Reveal Peel . Leave on for 8-10 minutes, or until dry. Can be layered 1-3 times, as needed.

OPTIONAL NEUTRALIZER

If skin shows excessive redness, dampen a 4x4 cotton pad with Neutralizer and gently wipe over skin until irritation is minimized.

NOTE: It is not uncommon for initial application of **Neutralizer** to provide a slight tingling/stinging sensation, it should quickly dissipate.

CUSTOMIZING OPTION A

For clients that have previously received peels and do not show any signs of sensitivity.

To maximize the peel experience after **Neutralizing**:

SERUM	Apply 3-5 drops of GlyPro Retinol Drops to face, allow to absorb.
COVERAGE	To complete the treatment, apply Pressed Base using the Flat-top Kabuki Brush in small circular motions to achieve perfect coverage.

CUSTOMIZING OPTION B

For clients that may be newer to professional peels, are showing flushing/redness or feeling activity/stinging (also keep in mind seasonal or lifestyle considerations like upcoming vacations/travel).

To moderate the peel experience, after **Neutralizing**:

SERUM + MASK	Apply 3-5 drops of GlyPro Retinol Drops to the face, allow to absorb. Using the Mask Brush , apply an even layer of Soothing Gel Mask and leave on 5-10 minutes. Remove with warm towel.
TONE	Holding bottle about 18" above client's face, spritz Phyto-Calm Flower Mist 6-8 times, allowing mist to fall lightly onto client's face.
BOOST	Mix 2-3 drops of C-Shield Anti-Pollution Drops and 2-3 drops of HA-Revive Hyaluronic Drops to the face to boost antioxidant benefits and water content in the skin.
EYE	With ring fingers, lightly tap C-Shield Eye Restore Hydrator around the eye area until absorbed; a grain of rice size should be enough for both eyes.
MOISTURIZE	Apply an even layer of Hydra-Bright AHA Hydrator or Bio-Renew EGF Cream to client's face and neck.
PROTECT	For environmental protection, apply an even layer of sunscreen.
LIP	Smooth Barrier Balm over lips for conditioning hydration.
COVERAGE	To complete the treatment, apply Pressed Base using the Flat-top Kabuki Brush in small circular motions to achieve perfect coverage.

Brighten + Glow Treatment: *Glo Signature Facial*

NOTE
This protocol has been created to effectively use Glo Skin Beauty products. All protocols are a guideline and may be modified. A patch test is recommended 24-48 hours prior to treatment.

FREQUENCY OF TREATMENT
UP TO 2X/MONTH

COST PER TREATMENT
\$11.19-\$12.39

SUGGESTED TREATMENT PRICE
\$250

CLEANSE	Perform a double cleanse with Hydra-Bright AHA Cleanser . Remove with a warm towel.
PRE-PEEL	With 2x2 cotton filled gauze pads, apply an even layer of Hydra-Bright Pro 5 Liquid Exfoliant to dry skin. Do not remove.

CUSTOMIZING OPTION A

For gentle smoothing appropriate for protected outdoor/sun exposure.
To moderate exfoliation:

EXFOLIATE	Add 1-3 drops of Hydra-Bright AHA Glow Peel into Brightening Polish , mix together and apply a thin, even layer to skin. Massage gently for 2-3 minutes; may remain on the skin for up to 10 minutes total. Introduce a rotary brush for additional exfoliation benefits, if desired. Remove with warm towel.
-----------	---

CUSTOMIZING OPTION B

For pro-level smoothing and brightening, designed for limited and protected outdoor/sun exposure.

To maximize exfoliation:

PEEL PREP	With 2x2 cotton filled gauze pads, apply an even layer of Peel Prep to dry skin. Do not remove. Apply Barrier Balm to lips, around eyes, earlobes and any other sensitive areas of the face.
PEEL	With 2x2 cotton filled gauze pads or a glycolic applicator, apply an even layer of Hydra-Bright AHA Glow Peel . Leave on for 3-5 minutes.
NEUTRALIZE	Dampen a 4x4 cotton pad with Neutralizer and gently wipe over skin until irritation is minimized. NOTE: It is not uncommon for initial application of Neutralizer to provide a slight tingling/stinging sensation, it should quickly dissipate.
MASSAGE	With Chosen Essential Oil Blend , perform Glo's Signature Pressure Point Massage (refer to Pressure Point Massage Protocol Card for detailed instructions).
SERUM	Apply 3-5 drops of Hydra-Bright Alpha Arbutin Drops to the face, allow to absorb.
MASK	Using the Mask Brush , apply an even layer of Soothing Gel Mask and leave on 5-10 minutes. While mask is on, perform hand and arm massage using Massage Cream . Remove with warm towel.
TONE	Holding bottle about 18" above client's face, spritz Phyto-Calm Flower Mist 6-8 times, allowing mist to fall lightly onto client's face.
BOOST	Mix 2-3 drops of C-Shield Anti-Pollution Drops and 2-3 drops of HA-Revive Hyaluronic Drops to the face to boost antioxidant benefits and water content in the skin.
EYE	With ring fingers, lightly tap C-Shield Eye Restore Hydrator around the eye area until absorbed; a grain of rice size should be enough for both eyes.
MOISTURIZE	Apply an even layer of Hydra-Bright AHA Hydrator or Bio-Renew EGF Cream to client's face and neck.
PROTECT	For environmental protection, apply an even layer of sunscreen.
LIP	Smooth Barrier Balm over lips for conditioning hydration.
COVERAGE	To complete the treatment, apply Pressed Base using the Flat-top Kabuki Brush in small circular motions to achieve perfect coverage.

Firm + Repair Treatment

FACIAL PROTOCOL

Smooth, soften, and revitalize your complexion with this advanced treatment utilizing plant stem cell technology. The facial begins with a lactic acid chemical exfoliation, its powerful concentration of actives deliver instant smoothing and toning. Skin is then nourished with vitamins and botanicals during a relaxing massage, followed with application of a serum and mask designed to help regain elasticity and plumpness. After the treatment, your skin is left looking lifted and lustrous.

ACCESSORIES

- Mask Brush
- Flat-top Kabuki Brush

RECOMMENDED FOR

ALL SKIN TYPES WITH AGING CONCERNS, EXCEPT OILY SKIN AND EXTREMELY SENSITIVE SKIN

NOTE

This protocol has been created to effectively use Glo Skin Beauty products. All protocols are a guideline and may be modified. A patch test is recommended 24-48 hours prior to treatment.

TREATMENT TIME

55-65 MINUTES

FREQUENCY OF TREATMENT

This treatment can be performed at 2-4 week intervals. best results with a series of 4-6 treatments.

COST PER TREATMENT

\$13.29-\$14.20

SUGGESTED TREATMENT PRICE

\$150

CLEANSE	Perform a double cleanse with Phyto-Active Enzyme Cream Cleanser , add water and massage to create a creamy, light foam consistency. Under steam, gently cleanse skin for 30-60 seconds with light, circular movements. Remove with a warm towel.
PRE-PEEL	With 2x2 cotton filled gauze pads, apply an even layer of Hydra-Bright Pro 5 Liquid Exfoliant to dry skin. Do not remove.
PEEL PREP	With 2 x 2 cotton filled gauze pads, apply an even layer of Peel Prep to dry skin. Do not remove. Apply Barrier Balm to lips, around eyes, earlobes and any other sensitive area of the face.
EXFOLIATE	With 2 x 2 cotton filled gauze pads or a Glycolic Applicator, apply an even layer of Hydra-Bright AHA Glow Peel . Leave on for 3-5 minutes.

NEUTRALIZE	Dampen a 4x4 cotton pad with Neutralizer and gently wipe over skin until irritation is minimized. NOTE: It is not uncommon for initial application of Neutralizer to provide a slight tingling/stinging sensation, it should quickly dissipate.
MASSAGE	Using Massage Cream , massage face, neck and décolleté using European-style movements. OPTIONAL: Chosen Essential Oil Blend can be used for inhalations and/or 3-5 drops can be added to Massage Cream to enhance relaxation through aromatherapy benefits. Remove any remaining Massage Cream with warm towel.
SERUM	Apply an even layer of Bio-Renew EGF Drops 2% or Phyto-Active Firming Serum to client's face and neck.
MASK	Using the Treatment Room Mask Brush , apply an even layer of Phyto-Active Firming Mask . While mask is on, perform hand and arm massage using Massage Cream . OPTIONAL: For additional relaxation and soothing effect prior to hand and arm massage, place 1-2 drops of Chosen Essential Oil Blend into the palm of your hands. Press hands together, slowly lower hands stopping approximately 1-2 inches above client's nose and mouth. Ask client to take 3 deep breaths. Using the steamed towel on client's face, remove mask.
TONE	Holding bottle about 18" above client's face, spritz Phyto-Calm Flower Mist 6-8 times, allowing mist to fall lightly onto client's face.
BOOST	Mix 2-3 drops of C-Shield Anti-Pollution Drops and 2-3 drops of HA-Revive Hyaluronic Drops to the face to boost antioxidant benefits and water content in the skin.
EYE	With ring fingers, lightly tap Phyto-Active Eye Serum around the eye area until absorbed; a grain of rice size should be enough for both eyes.
MOISTURIZE	Apply an even layer of Bio-Renew EGF Cream to client's face and neck. OPTIONAL: 2-3 drops of Bio-Renew EGF Drops 2% (for additional repair) or 2-4 drops of Phyto-Active Conditioning Oil Drops (for additional softening).
PROTECT	For environmental protection, apply an even layer of chosen sunscreen.
LIP	Smooth Barrier Balm over lips for conditioning hydration.
COVERAGE	To complete the treatment, apply Pressed Base using the Flat-top Kabuki Brush in small circular motions to achieve perfect coverage.

Clarify + Balance Treatment

FACIAL PROTOCOL

Target existing breakouts while drawing out impurities and refining texture to fight future flare-ups. Enzymatic exfoliation softens and preps skin to clear debris from follicles, followed by a clay treatment mask to draw out excess oil. Medicated ingredients purify the skin, reduce bacteria as well as irritation. Couple this professional treatment with homecare products for the ultimate acne-clearing solution.

PROFESSIONAL PRODUCTS

- Purifying Gel Cleanser
- Beta-Clarity Clear Complexion Pad

RECOMMENDED FOR

OILY AND COMBINATION SKIN
WITH BREAKOUT CONCERNS;
NOT DESIGNED FOR SENSITIVE SKIN

NOTE

This protocol has been created to effectively use Glo Skin Beauty products. All protocols are a guideline and may be modified.

TREATMENT TIME

50-60 MINUTES

FREQUENCY OF TREATMENT

This treatment can be performed at 2-4 week intervals. Best results with a series of 4-6 treatments.

COST PER TREATMENT

\$9.80-\$13.12

SUGGESTED TREATMENT PRICE

\$150

CLEANSE	Perform a double cleanse with Purifying Gel Cleanser . Remove with a warm towel.
TONE	Using light pressure and one Beta-Clarity Clear Complexion Pad , tone skin by wiping across the face; turn pad over if needed.
PEEL PREP	With 2 x 2 cotton filled gauze pads, apply an even layer of Beta-Clarity Pro 5 Liquid Exfoliant . Do not remove. Turn on steam at this time.
EXFOLIATE	Using the Treatment Room Mask Brush , apply an even layer of Enzyme . Leave on for 3-5 minutes. Remove with warm towel. NOTE: It is not uncommon for the client to feel heat with this active formula, check in on their comfort level while product is on skin, and turn off steam if the client's activity level is above a 2 (out of 5).

EXTRACTIONS	Apply Hydra-Bright Pro 5 Liquid Exfoliant onto areas that are to be extracted, leave on for up to 5 minutes. Perform manual extractions either using fingers or cotton swabs dipped in Hydra-Bright Pro 5 Liquid Exfoliant . When complete, wipe extracted areas of the face with Hydra-Bright Pro 5 Liquid Exfoliant .
OPTIONAL PEEL BOOST	Apply Barrier Balm to protect any sensitive areas of the face. Using 2 x 2 cotton filled gauze pads or a Glycolic Applicator, apply Beta-Clarity AHA Clarifying Peel all over face or spot treat targeted areas of breakouts. Leave on for 1-3 minutes.
OPTIONAL NEUTRALIZER	Dampen a 4x4 cotton pad with Neutralizer and gently wipe over skin until irritation is minimized. NOTE: It is not uncommon for initial application of Neutralizer to provide a slight tingling/stinging sensation, it should quickly dissipate.
MASK	Using the Treatment Room Mask Brush , apply an even layer of Charcoal Detox Mask . Leave on for up to 10 minutes. Remove with warm towel.
TONE	Holding bottle about 18" above client's face, spritz Phyto-Calm Flower Mist 6-8 times, allowing mist to fall lightly onto client's face.
OPTIONAL MASSAGE	With Chosen Essential Oil Blend , perform Glo's Signature Pressure Point Massage (refer to Pressure Point Massage Protocol Card for detailed instructions).
BOOST	Mix 2-3 drops of C-Shield Anti-Pollution Drops and 2-3 drops of HA-Revive Hyaluronic Drops to the face to boost antioxidant benefits and water content in the skin.
EYE	With ring fingers, lightly tap C-Shield Eye Restore Hydrator around the eye area until absorbed; a grain of rice size should be enough for both eyes.
MOISTURIZE	Apply an even layer of Oil Control Emulsion or Oil-Free Moisturizer to client's face and neck.
PROTECT	For environmental protection, apply an even layer of sunscreen.
LIP	Smooth Barrier Balm over lips for conditioning hydration.
COVERAGE	To complete the treatment, apply Pressed Base using the Flat-top Kabuki Brush , in small circular motions to achieve perfect coverage.

Resurface + Smooth Treatment

FACIAL PROTOCOL

Refine skin’s texture with this ultra-smoothing facial treatment featuring glycolic acid. This powerful hydroxy acid combines with retinol to help stimulate cellular regeneration and condition skin, revealing a healthy, luminous complexion. An aromatherapy massage and hydrating mask add a soothing aspect to this active treatment—balancing results with relaxation.

OPTIONAL EXTRACTIONS	Apply Hydra-Bright Pro 5 Liquid Exfoliant onto areas that are to be extracted, leave on for up to 5 minutes. Perform manual extractions either using fingers or cotton swabs dipped in Hydra-Bright Pro 5 Liquid Exfoliant . When complete, wipe extracted areas of the face with Hydra-Bright Pro 5 Liquid Exfoliant .
MASSAGE	With chosen Essential Oil Blend , perform Glo's Signature Pressure Point Massage (refer to Pressure Point Massage Protocol Card for detailed instructions).
SERUM	Apply a thin, even layer of GlyPro Retinol Drops to face and neck.
MASK	Using the Treatment Room Mask Brush, apply an even layer of Soothing Gel Mask on top of serum. For a warming experience and to enhance the absorption of layers below, place steamed towel on top of mask; check client's comfort, be careful to keep tip of nose and mouth uncovered when wrapping steamed towel on face. Leave on 5 minutes. While mask is on, perform hand and arm massage using Massage Cream. OPTIONAL: For additional relaxation and soothing effect prior to hand and arm massage, place 1-2 drops of Chosen Essential Oil Blend into the palm of your hands. Press hands together, slowly lower hands stopping approximately 1-2 inches above client's nose and mouth. Ask client to take 3 deep breaths. Using the steamed towel on client's face, remove mask.
TONE	Dampen a cotton pad with Phyto-Calm Flower Mist , wipe evenly over client's skin. NOTE: it is common to have a slight tingling sensation with this formula.
BOOST	Mix 2-3 drops of C-Shield Anti-Pollution Drops and 2-3 drops of HA-Revive Hyaluronic Drops to the face to boost antioxidant benefits and water content in the skin.
EYE	With ring fingers, lightly tap C-Shield Eye Restore Hydrator around the eye area until absorbed; a grain of rice size should be enough for both eyes.
MOISTURIZE	Apply an even layer of Glycolic Resurfacing Cream to client's face and neck.
PROTECT	For environmental protection, apply an even layer of sunscreen.
LIP	Smooth Barrier Balm over lips for conditioning hydration.
COVERAGE	To complete the treatment, apply Pressed Base using the Flat-top Kabuki Brush , in small circular motions to achieve perfect coverage.

Calm + Soothe Treatment

FACIAL PROTOCOL

Signal soothing relief with this exclusive treatment designed to safeguard skin with powerful anti-inflammatories, hydrators, and antioxidants to revitalize, increase strength, and enhance radiance. Light exfoliation helps to gently encourage smoother skin and allows for soothing agents to work on a deeper level, providing serious calming action to even the most sensitive skin.

MOISTURIZE	Apply an even layer of Phyto-Calm Aloe Hydrator or Vita E Essential Cream to client's face and neck. OPTIONAL: Add 2-3 drops of Phyto-Calm Aloe Drops (for additional calming).
PROTECT	For environmental protection, apply an even layer of sunscreen.
LIP	Smooth Barrier Balm over lips for conditioning hydration.
COVERAGE	To complete the treatment, apply Pressed Base using the Flat-top Kabuki Brush , in small circular motions to achieve perfect coverage.

Glo Signature Massage Protocols

YOUR TREATMENT ROOM TOOLKIT

Easily master both of Glo's Signature Massage Touch Techniques with detailed instruction sheets in order to provide next level relaxation results, helping restore and rebalance your client's body and mind.

Signature Pressure Point Massage

Pressure Point Massage, performed with Aromatherapy Essential Oils, is a relaxing experience that helps rebalance and restore your client, body and mind. Recommended for all skin types, including sensitive and acne-prone skin.

For pressure point movements, each “press” should last approximately 3 seconds. To promote balance, movements should be performed in multiples of 3: 3, 6, 9, etc. With first press movement, check in with the client to gauge pressure level comfort.

INTRODUCE ESSENTIAL OIL BLEND WITH INHALATIONS AND PREPARE FOR MASSAGE

- 1** Place 1–2 drops of chosen Essential Oil Blend into palm of hand. Lightly press hands together, do not rub. Cup hands and slowly lower, hovering about 2–3 inches above the client’s nose and mouth. Ask client to take 3 deep breaths.
- 2** Distribute 4–6 drops of Essential Oil Blend into palm of hand. Lightly press hands together, do not rub. Press onto client’s skin, lightly spread.

FOREHEAD FOCUS

Forehead area movements help relieve stress and tension. Excellent for clients prone to headaches.

- 3** Using a cushioned finger, gently press into the temples. Repeat 3x.

- 4** With stacked thumbs (one on top of the other) press into the highest center point of the forehead (where it meets the hairline). When pressing down, angle is slightly toward client’s feet versus the floor. Repeat 3x.

- 5** Start moving out, pressing with thumbs every ½–¾ inch until you reach the temples. At the temples, perform a light sweep down to the ears and off of the face. Continue this movement (pressing line to temples and then sweep to ears), starting about 1 inch lower, in the center of the forehead. Repeat movement (pressing line to temples and then sweep to ears) about 1 inch lower, above brow. Repeat 3x. (Typically 3 “lines” but sometimes 4 depending on the size of hand and forehead area)

- 6** Follow pressing movements with a light sweep using the fleshy part of the hand at the base of the thumb from the middle of forehead to ears. Repeat 3x.

EYE AREA RELIEF

Help relieve strain and tension around the eyes. Ideal for clients that spend a lot of time in front of a computer or for eyeglass wearers.

- 7** Using the thumb and index (or middle) finger, “pinch” along the brows from start to end. Repeat 3x.

- 8** Press around eyes, start directly below brow, pressing every ½ inch, creating a circle around the entire eye. Repeat 3x.

- 9** Follow pressing movements with a light sweep. Use base of thumb to sweep (drain) from beginning of brow to end. Then use index and middle fingers to sweep from below the inner corner of the eye out to the temple. Repeat 3x.

SINUS PRESS

Help soothe sinus pressure and congestion. Great for clients that suffer from sinus allergies or are recently recovering from a head/sinus cold.

- 10** Start on either side of the center of the nose, press with cushioned fingers. Unstack fingers, slide to the temple and press. Then press with cushioned fingers on either side of the lower nostril. Unstack fingers, slide below the cheekbone to the ear and press. Repeat 3x.

LIP SERVICE

Pressing around the mouth area helps to relax these (often overworked) muscles.

- 11** With stacked fingers, press upper center point of the lip area (Cupid's bow). Unstack fingers, press on either side of the upper center point. Press on either side of the corners of the mouth. Press on either side of the lower center point (below lower lip). Stack fingers, press lower center point. Repeat 3x.

- 12** Perform a light sweeping movement, create a "V" with your index and middle fingers (peace sign). Place index fingers above upper lip. Place middle fingers below bottom lip. Sweep out from center to outer corner of mouth. Repeat 3x. Note on third sweep, continue all the way to the ears.

- 13** Massage ears from lobe, along spine to top of ear. At top of ear, place fingers behind ears and perform circular rotations from top to bottom, end behind ear lobe. Repeat 3x.

CLOSING MOVEMENTS

Start to say goodbye to the massage with closing movements along the occipital ridge (back of neck), back to face and end with covering eyes.

- 14** Slide hands behind client's neck, stack hands one on top of the other. Slide up into the occipital ridge, with stacked fingers massage the center point (into the hairline) on back of neck. Unstack fingers, slide out about 1½–2 inches and massage points. Slide out further (about 1 inch away from the ear) and massage points. Repeat 6x each point.

- 15** Slide hands out, press into the temples. Repeat 3x.

- 16** Press into third eye. Repeat 3x.

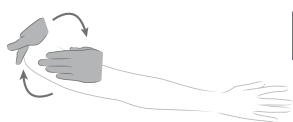

- 17** Position hands facing each other, palms facing down, stack hands one on top of the other. Slowly lower down and cover eyes, hold for at least 10 seconds. Slowly lift off and uncover eyes.

Hand and Arm Massage

Give hardworking hands and arms some much needed attention. Help relieve tension and promote total relaxation in your treatment room with this Glo Touch Technique designed to be incorporated into any skin treatment during the mask step.

OPENING MOVEMENTS

Warm Massage Cream in your hands. Apply in spreading (effleurage) motion to entire arm, make sure to cover both sides, as well as hand, including each finger.

1

Use both hands, one following the other, to round the shoulder with smooth, sweeping movements in a circular pattern. Repeat 6x.

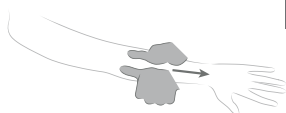

2

Move down to the upper arm area and using the entire hand, perform petrissage movements squeezing (or kneading) the bicep and tricep with the entire hand. Repeat 6x.

3

Giant Arches. Cradle client's right hand (palm facing up) with your left hand. Place your right hand thumb on client's wrist (above their thumb). Press and glide up to the elbow bend; turn their arm over, continue to press and glide from the elbow downward, stopping above client's pinky. Using your opposite hand, cradle client's hand with palm facing down. Place your left hand thumb on client's wrist (above their thumb), press and glide to the elbow bend, turn their arm over, continue to press and glide downward, stop above the client's pinky. Repeat 3x with both hands.

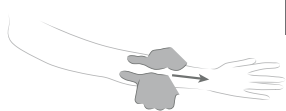

4

Thumb Trio Arm (palm up). Position client's arm with palm facing up. Using both hands, cradle the forearm with thumbs resting below the elbow.

- Thumb press: with both hands, press down and hold for a moment, release pressure and slightly slide down, continue to repeat movement down the arm to the wrist.
- Thumb fan: starting at the wrist, alternate thumbs to create a small fan pattern to the elbow bend. When you reach the elbow, slide down to the starting position.
- Thumb slide: with both thumbs, press and smoothly slide from the wrist up toward the elbow bend. When you reach the elbow, slide back to original position.

Repeat this trio of movements 3x.

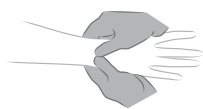

5

Thumb Trio Arm (palm down). Position client's arm with palm facing down. Using both hands, cradle the forearm with thumbs resting below the elbow.

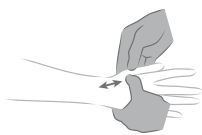

- Thumb press: with both hands, press down and hold for a moment, release pressure and slightly slide down, continue to repeat movement down the arm to the wrist.
- Thumb fan: starting at the wrist, alternate your thumbs with a smooth upward movement, creating a small fan pattern to the elbow bend. When you reach the elbow, slide down to the starting position.
- Thumb slide: with both thumbs, press and smoothly slide from the wrist up toward the elbow bend. When you reach the elbow, slide back to original position.

Repeat this trio of movements 3x.

6

Thumb Circles on Wrist (palm down). With both thumbs, create small circles from one side of the wrist to the other. Repeat 3x.

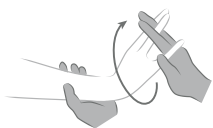

7

Thumb Trio Hand (palm down). Cradle the client's hand with your fingers and position your thumbs in between the client's thumb and index finger.

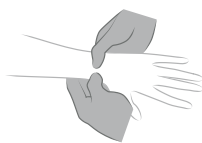

- Thumb walk: using alternate thumb presses, "walk" up to the wrist. When you reach the wrist, slide down to starting position. Perform movement in between each finger, ending between the ring finger and pinky.
- Thumb fan: with alternating thumbs, create a small fan pattern in between the thumb and index finger from knuckle to wrist. When you reach the wrist, slide down to the starting position; perform movement between each finger.
- Thumb slide: with one thumb, press and smoothly slide from in between thumb and index finger from knuckle to wrist. When you reach the wrist, slide back to original position and repeat with opposite thumb. Perform this sliding movement between each finger.

Repeat this trio of movements 3x.

8

Range of Motion and Pulse. With client's palm facing down, hold client's hand above wrist, rotate the wrist 3x clockwise. Repeat 3x counterclockwise. Pulse (stretch at wrist) 3x.

9

Thumb Circles on Wrist (palm up). With both thumbs, create small circles from one side of the wrist to the other. Repeat 3x.

10

Thumb Circles on Wrist (palm up). With both thumbs, create small circles from one side of the wrist to the other. Repeat 3x.

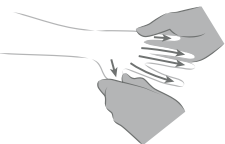

11

Cradle and Stretch Entire Hand. Using both hands, intertwine your fingers with your client's. Press your fingertips onto the back of the client's hand, creating a stretch to client's palm. Using both thumbs, create circles over the client's palm. Alternate between small and large circles.

12

Cradle and Stretch Thumb and Pinky. Using both hands, intertwine your fingers with the client's thumb and pinky. Using both thumbs, create small circles along the outer edge of the palm.

13

Finger Massage. Starting at the base of the thumb, massage down to the tip, lightly press with your thumb and index finger. Repeat the same movement on the pinky. Alternate movements and work toward the center: thumb, pinky, index finger, ring finger, last is middle finger.

CLOSING MOVEMENTS

Turn hand to palm facing down, sweep up from hand to shoulder with both hands then slide back down. Repeat 3x. End with both hands flat on either side of your client's hand, press and release.

THE CLIENT CONSULTATION

Prior to any professional treatment, your client should fill out the Client Information Form. If the treatment will include chemical exfoliation they should also fill out the Informed Consent Form. This information should be reviewed with the client prior to every treatment. Any updates or changes should be noted and the client should sign and date each time. For you, the Skincare Professional, forms should be kept for all clients as reference for future treatments and reviewed in the case of any reactions post treatment.

THE CLIENT INFORMATION FORM

In order to design a customized treatment, you will need to gather and review information included in the Client Information Form. This allows you to assess your client's skincare needs and goals, as well as take any precautions or make any adjustments to their treatment based on the information provided.

CONTACT INFORMATION

This area is intended to help you keep up-to-date information on your clients.

TELL US ABOUT YOUR SKIN

This section focuses on getting to know your client's skin type, concerns, sensitivity level, and current regimen, including homecare products and any active or skin-related prescription products. You will better understand if your client is a basic or sophisticated product user.

SUN PROTECTION AND EXPOSURE

As Professionals, we understand the damaging effects the sun has on the skin. The sun is the #1 cause of aging and plays a role in other conditions such as: hyperpigmentation, dehydration and sensitization. Wearing a sunscreen daily should be a recommendation for every client. This information is also helpful for you to gauge any potential limitations to treatment outcomes related to sun exposure.

EXFOLIATING, RESURFACING OR PRESCRIPTION PRODUCTS

If a client is using an active exfoliating or resurfacing agent, topical antibiotics or prescriptions, chemical exfoliation in the treatment room should be very superficial or avoided altogether. While you want to address all client concerns and help them meet their skincare goals, client safety is paramount. Overexfoliation can create additional dryness, irritation and hyperpigmentation.

CLIENT'S SKINCARE GOALS

One of the most important questions to ask; heavily influences the type of skin treatment you will perform.

TELL US ABOUT YOUR WELLNESS

The information requested is intended to help you gain a better understanding of your client's skin and concerns in order to create a customized, safe, and effective treatment. Factors relating to health, wellness, and lifestyle affect the skin and may alter your treatment plan

(for instance avoiding certain products, ingredients or steps).

If your client is uncomfortable answering any wellness-related questions, they can elect to omit the information. If your client has verbally relayed they do not want to provide this information, erring on the side of caution is recommended and chemical exfoliation beyond level 3 (refer to the Glo Peel Guide for level system) should be avoided. Your client should still fill out the Client Information Form as thoroughly as possible, sign and date.

LEVEL OF STRESS

Stress is a main contributor to a number of skin conditions. It raises the cortisol levels in the body, which can lead to breakouts. It can also create sensitization and more reactive skin.

INCLUDED IN THIS SECTION ARE A VARIETY OF CONDITIONS

Please note, unless you are a physician, a Skincare Professional is not diagnosing a skin disorder. This section is only intended to help you consider what may be affecting your client's skin and how you may need to alter the treatment plan. The items listed below are commonly experienced by clients. We've included a brief explanation of how each may affect the skin/treatment:

- **CONTACT LENSES:** Be mindful with pressure directly over the eyes (cleansing).
- **METAL IMPLANTS/PACEMAKER:** Contraindicated to electrical modalities.
- **STROKE:** May cause facial paralysis.
- **THYROID DISORDER:** May cause sensitivity, itchiness, dryness, puffiness, dehydration, acne.
- **DIABETES:** Thinner, delicate skin; client may bruise easily; be mindful of pressure/touch on skin.
- **CLAUSTROPHOBIA:** Avoid tightly wrapping the client.
- **HIGH/LOW BLOOD PRESSURE:** High can cause skin redness/flushing; low can lead to dehydration.
- **HEPATITIS:** May cause jaundice, lesions, rashes or skin discoloration.
- **BRACES/DENTAL FILLINGS:** Contraindicated for electrical modalities.
- **CANCER:** Can affect skin in a variety of ways; understand what type of cancer, date of diagnosis and if a physician has cleared client for facial services.
- **IRREGULAR HEARTBEAT:** Contraindicated for electrical modalities.
- **HIGH CHOLESTEROL:** May cause skin lesions (bumps) called xanthomas, may develop cholesterol deposits around the eyes.
- **VARICOSE VEINS:** Develop on legs; be mindful of pressure, manipulation and massage.
- **ALLERGIES:** Antihistamines are dehydrating, can lead to sensitization; sinus allergies may create sensitivity and/or puffiness around the nose area, be mindful of touch and chemical ingredients if the skin is chapped/dry.
- **COLD SORES/HERPES SIMPLEX:** If active, even in the beginning stage of under-the-surface tingling or itching, client is contraindicated for treatment (highly contagious, may spread to other areas of the face or to others) and you will need to rebook.
- **LUPUS:** Skin may be more reactive, photosensitive.
- **PIERCINGS:** If unable to be removed, client is contraindicated for electrical modalities.
- **HEART ATTACK:** Medications may cause sensitivity; often helpful to improve blood flow, be cautious of pressure and temperature; client may prefer feet positioned lower than head for comfort.
- **ANEMIA:** May affect tone/color of skin, easily bruise, redness or rashes.
- **EPILEPSY/SEIZURES:** Know type and number of seizures, be mindful of treatment room space, limit potential for possible injury.
- **TOBACCO USER/SMOKER:** Deprives skin of nutrients and oxygen; breaks down collagen and elastin, contributes to breakouts.
- **RECENT DENTAL X-RAYS:** May temporarily decrease sebaceous gland activity, skin may be more dry.

CLIENT ALLERGIES OR REACTIONS

If your client has previously had a reaction/allergy to any of the items listed, be sure to avoid using any products that contain them in the treatment room and in recommended homecare.

DOCTOR'S CARE AND SURGERY

If a client is currently or recently under a physician's care, depending on the extent and issue, they may be contraindicated for a skin treatment. When in doubt, request a doctor's waiver. If the client has had surgery in the last year, determine the location (face or body) and confirm they are not in need of additional healing time. Take special consideration for any area of past injury or surgery. Be mindful of any areas needing to be avoided or extra care taken when massaging.

MEDICATION, SUPPLEMENTS, ETC.

It is good to review any medications for a better understanding of how they may be contributing to any skin conditions the client is experiencing.

FEMALE CLIENTS ONLY

Hormones can create hyperpigmentation. Avoid use of strong chemical exfoliation and Glo Essential Oil Blends for pregnant clients.

PRE TREATMENT

BEST PRACTICES FOR CHEMICAL PEELS

GENERAL HEALTH

A chemical exfoliation or peel treatment causes a controlled wound to the skin. A healthy body will heal faster and with less chance for side effects. If the client has a compromised immune system from a cold, disease, medication, etc., it will take longer for the skin to heal. If the client has a weakened immune system, do not administer a chemical peel treatment. When in doubt, it is best to practice on the side of caution.

If your client is under the care of a Physician for anything medically related, including medication, illness, disease, etc., they should refer to the Physician to check if they are a candidate for a chemical peel treatment. Also find out if there is a history of any type of allergic reactions, irritants, etc. and if your client is taking any form of birth control.

LIFESTYLE

Will the client's schedule allow for "downtime"? The skin may slough, be red, sensitive to products, turn to a darker color for a period of time, experience accelerated breakouts, etc. While the skin is healing, sun exposure needs to be avoided.

Skin healing can take up to two weeks, depending on the peel administered.

CLIENT EXPECTATIONS

What are the results the client wants to achieve? Are they achievable/realistic? Preparing the clients for realistic results will avoid any potential dissatisfaction with the treatment outcome. Have a clear conversation with the client so that they have a true understanding of results. Often it is not one treatment, rather a series of chemical peels in addition to proper, recommended homecare that delivers transformative results. There may be some clients that are not suitable for a chemical peel.

CONTRAINDICATIONS

Additionally, there are contraindications that would prevent a client from receiving a chemical peel. Review the Common Contraindications list to determine potential contraindications that would prevent a candidate from receiving a chemical peel treatment.

- Do not perform levels 5-7 chemical peel treatment on the first appointment (refer to Glo Peel Guide for Level System).
- Do not use Salicylic Acid on a client who is allergic to aspirin (Enzyme, Beta-Clarity AHA Clarifying Peel, Beta Clarity Peel, Triple Transformation Peel, AB Clinical Renewal Peel).
- For pregnant or lactating clients, perform only level 3 chemical exfoliation (pending Physician approval). Additionally, avoid use of Essential Oils.

COMMON CONTRAINDICATIONS FOR CHEMICAL PEELS

- Ingredient allergies
- Active facial rashes
- Open or unidentified lesions (*Herpes Simplex/Cold Sores*)
- Any type of dermatitis, including eczema, psoriasis and seborrhea
- Sun Exposure (*2 weeks before and after*)
- Weakened immune system
- Serious illness
- Pregnancy or lactating
- Accutane usage (*1 year*)
- Any prescription Retinoic Acid (*Retin-A, Isotretinoin*) (*3 mos*)
- Diabetes
- High blood pressure (*check with Physician*)
- Heart disease (*check with Physician*)
- Waxing (*3-5 days*)
- Botox (*1 week before and after*)
- Injectables (*2 weeks*)
- Microblading (*2 weeks*)
- Permanent makeup (*3-4 weeks*)
- IPL (*2-4 weeks*)
- Laser Resurfacing (*3-6 mos*)
- Cosmetic Facial Surgery (*3-6 mos*)

PATCH TEST

Prior to a chemical exfoliation service, a Patch Test should be conducted behind the client's ear to see if there is reaction potential. Ideally, this is performed 24 hours prior to treatment.

PRE TREATMENT

LEVELS OF GLO CHEMICAL EXFOLIATION

SUPERFICIAL

- This type of exfoliation stays within the layers of the epidermis.
- Flaking and erythema may occur.
- Depending on the strength of the chosen exfoliant, skin is mildly exfoliated or it may frost in speckles or small patches.

DEPTH	PEEL	DOWNTIME
All of Glo Skin Beauty peels are considered superficial, but some can be made stronger (look for the *).	Flower Enzyme Enzyme Hydra-Bright AHA Glow Peel Beta-Clarity AHA Clarifying Peel Beta Clarity Peel GlyPro AHA Resurfacing Peel	GlyPro Power Peel+ Retinol + C Peel Boost Max Triple Transformation Peel* AB Clinical Renewal Peel* TCA Clinical Renewal Peel*
		0-3 days

MEDIUM

- This chemical peel will travel through the epidermis to the uppermost part of the dermis, the papillary dermis.
- Frosting is not unusual.
- Skin will darken and then peel.

DEPTH	PEEL	DOWNTIME
There are three Glo Skin Beauty peels that can be made into a medium depth peel with preparation and customization during the treatment.	Triple Transformation Peel* AB Clinical Renewal Peel* TCA Clinical Reveal Peel*	3-14 days

DEEP

- This true peel will wound the skin to the lower portion of the dermis, mid-reticular dermis.
- Only done on Fitzpatrick types I-III.
- Only performed by Physicians, usually under some type of anesthesia.

DEPTH	DOWNTIME
Glo Skin Beauty does not offer a peel that can penetrate to the mid-reticular dermis.	3-14 days

*PEELS CAN BE MADE STRONGER BY CUSTOMIZING TREATMENT

TREATMENT

INDICATORS TO END CHEMICAL EXFOLIATION

Observation and client feedback during the chemical exfoliation step are important factors in performing any treatment. There are typically two indicators to avoid or end the chemical exfoliation step:

- 1 The client's discomfort tolerance
- 2 The skin's response being:
 - a. Extremely red
 - b. Frosting

CLIENT COMFORT

During every step of a treatment, above all, a client's comfort is paramount. It is the job of a Skincare Professional to ensure their client never reaches a level outside of their tolerable comfort zone, especially during the exfoliation step. Therefore, check in with your client and have dialogue regarding the level of activity (sensation) or discomfort (pain) they feel on a scale of 1–5, with 5 being the highest. If your client responds with a 4 or 5, deactivate the chemical exfoliant immediately with Neutralizer.

Tip: Always have Neutralizer prepared before applying the chemical exfoliant.

EXTREME REDNESS

It is not uncommon for a client's skin to experience temporary flushing or redness during a treatment. Based on a client's sensitivity and skin reactivity levels, this can occur from even the lightest touch or mild stimulation and may be seen as early as the cleansing step. Pay special attention to a client's inflammatory response and level of redness at each step as you progress through your treatment.

EXTREME REDNESS PRIOR TO CHEMICAL EXFOLIATION

If redness continues to progress prior to exfoliation, erring on the side of caution is always recommended and this step should be skipped. Adjust the treatment focus to calming the skin:

- Reduce pressure and friction on skin: including application and removal of product.
- Avoid hot temperatures: steam, water and towels.
- Limit the amount of products on skin: the greater the variety of products and ingredients in contact with the skin, the greater the potential for reactivity—even with products designed for sensitive skin. Cold compresses are an ideal option.

EXTREME REDNESS DURING CHEMICAL EXFOLIATION

If the client's skin has shown no or minimal redness prior to the chemical exfoliation step, but starts to show progressive and extreme redness once the chemical exfoliant is applied, such as:

- Even/solid redness in large areas (or all over).
- Color intensifies, deepening from pink to red.

Deactivate the chemical exfoliant immediately with Neutralizer.

Note: Visible redness may not occur in all clients, for instance higher Fitzpatrick Skin Types. When visible redness is not apparent, monitor the skin's temperature by feeling for increased heat.

FROSTING AND THE SKIN'S RESPONSE

Frosting is the coagulation of protein in the skin, the result of the interaction between the skin and the chemical exfoliant. Depending on the depth and intensity of the treatment, frosting:

- Can vary in color from a light gray to an apparent white.
- Often appears in small areas or patches, usually starting in places of thinner skin.
- Typically occurs 1–2 minutes after application of the chemical exfoliant, but can occur even after neutralizing.
- Unlike crystallization, cannot be removed or wiped away (see below regarding crystallization).

Often with lighter or more superficial treatments, frosting will not occur. This is not an indication of the effectiveness of the treatment, meaning a client does not have to frost in order to see results or create change in the skin. In most cases, any sign of frosting is an indication that the exfoliant is “done working” and should be neutralized. But, frosting should never be the Skincare Professional’s goal. Especially when beginning a treatment series or working with a new client, be cautious and not overly aggressive with the treatment. Unless you are working in a medical facility and the client is prepared for significant downtime, the goal should never be a complete frost.

CRYSTALLIZATION

Though they may look similar, frosting and crystallization are not the same thing. Crystallization, also known as precipitate:

- Looks like chalk (slightly powdery and white in color).
- Will occur within 30 seconds of chemical exfoliant application.
- Unlike frosting, it can be removed from the skin by wiping away.

Crystallization occurs with chemical exfoliants that contain Salicylic Acid. It can happen on anything that comes into contact with the exfoliant, not just on the skin but also around the rim of the bottle, the dropper, etc. This is not a characteristic of frosting.

POST TREATMENT

HOW TO CARE FOR THE SKIN

After a chemical exfoliation treatment the client's skin will be in a more vulnerable, delicate state. During this time, proper care will both heal the skin and encourage optimal treatment results.

HOME CARE PRODUCTS

Most often, the focus will be to soothe the skin. The following recommendations will aid in the healing process:

- Introduce key solution serums for soothing and repair.
TOP RECOMMENDATIONS: Phyto-Calm Aloe Drops, Bio-Renew EGF Drops.
- Keep skin moisturized and occluded.

OPTIONAL

Based on the client's skin tolerance and goals, you may opt to make a treatment more aggressive and recommend:

- Use Beta-Clarity BHA Drops, GlyPro Retinol Drops or Retinol+ Resurfacing Serum nightly.
- Do not use a moisturizer.

PRECAUTIONS

What you do to the skin post treatment is as important as what you do not do. Make sure your clients are aware of the following:

AVOID

- Direct sun exposure and wear sunscreen daily for 2 weeks post peel.
- Exercise for 24–72 hours post peel, depending on the strength of treatment.
- Steam and hot water.
- Waxing and the use of depilatories for 3–5 days post peel.
- Laser treatments and microdermabrasion for 3 weeks post peel.
- Swimming and sauna use for at least 7 days post peel.

DO NOT

- Vigorously rub the skin.
- Use a mechanical scrub.
- Pick at any flaking or sloughing, as this may cause scarring.

Reach out to your client 24 hours post treatment in order to check in regarding how their skin is responding to the treatment and answer any questions they may have.

POST TREATMENT

WHAT TO EXPECT

While a number of factors influence what the client will experience after receiving a chemical exfoliation treatment, always review general guidelines so they have an idea of what to expect. For instance, often, 24–48 hours after a chemical exfoliation treatment the client's skin will feel tight and may be red. If skin sloughing is going to occur, it will typically happen between days 3–6 and can last up to 2 weeks. During this time it is important for you to equip the client with products that are needed during their skin transformation. More specific detail based on chemical peel levels includes:

SUPERFICIAL CHEMICAL EXFOLIATION

DAYS 1-2

Minor irritation, including redness, is normal. On day 2, the skin may look and feel dry and/or tight. Typically there will not be any visible sloughing with this level of exfoliation. Initially, the client may experience irritation, including redness, and the skin may deepen in color; this usually subsides within the first 24 hours post treatment. Swelling may occur as the skin's tissue has been disturbed. A cool compress may be helpful.

DAYS 3-7

The skin may continue to feel dry and tight. At this time, mild to moderate sloughing is normal with this level of exfoliation.

MEDIUM CHEMICAL EXFOLIATION

DAY 1

The skin may be a frosted white color for the first few hours. It will gradually become more pink, then eventually red. The skin will feel dry and tight. It may also feel hot and itchy. Swelling may occur as the skin's tissue has been disturbed. A cool compress may be helpful.

DAY 2

The skin will look and feel dry and tight, similar to day 1. The skin may deepen in color.

DAYS 3-7

During this time the skin will gradually begin to slough. The amount of sloughing varies depending on the chemical exfoliation performed, homecare products and client's skin type/conditions.

Digital Ingredient Glossary
