

BEST MAKEUP PRODUCTS FOR A NIGHT ON THE TOWN

CONTOUR KIT

"This convenient contouring palette features four powder shades, which enhance features and create dimension. Your look can be soft and subtle or dramatic and chiseled. If you really want to go all out with your makeup for an event, you'll definitely want to utilize this kit."

CREAM STAY SHADOW STICK

"I am obsessed with these colors and the texture. The brand added four new shades this season, too. You can use them as liners, shadows, or as a base for powder products. Personally, I use them "as is" and blend into my lid with a synthetic brush or with clean fingers for a subtle wash of color."
