

## Tinted Primer SPF 30, Precise Micro Browliner

“Glo Skin Beauty is made specifically for your active lifestyle and won’t smudge even under constant contact. The **Tinted Primer SPF 30** really became an essential; keeping our skin healthy and glowing with minimal oil. It smoothed onto our skin so sheerly, but held our **Pressed Base** powder intact, hiding any dark spots and uneven skin tone. The [**Precise Micro**] **Browliner** was not too dark and matched our eyebrow color perfectly. What we liked so much about the Browliner was it didn’t show like it’s dark color, but was very natural appearing like our natural brows.”
