## Back to Black

For 'real way' as opposed to runway, it's always best to pick one dominant feature to accent. For this look, it's all about the eyes! Black eyeshadow and eyeliner are making a bold comeback with dark smoky eyes and black rimmed eyeliner. Pair with a more neutral lip and cheek to get graphic!

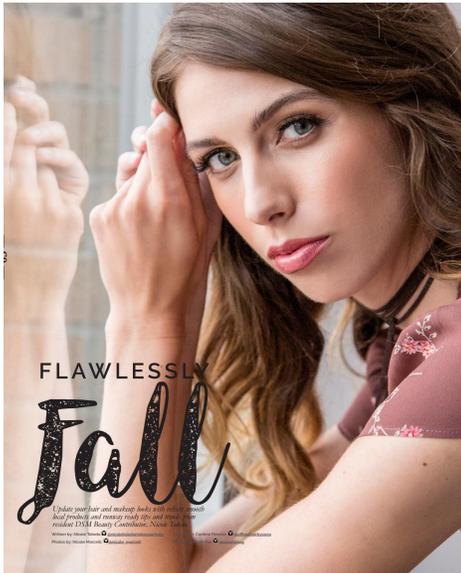

Precision Eye Pencil in "Black" \$16,

## Get Your Glow On

Radiate in creamy textured beauty products that highlight in perfectly peached opalescent hues. Enhance the look with balmy textured eye cream and lip balms that glisten and illuminate. Define features of your face with golden glitters gently applied above cheekbones and down the center of the face for a strobed effect.
