

GLÒ THERAPEUTICS RENEW SERUM REVIEW

Pros

Reduces the look of lines, controls breakouts and improves skin tone

Cons

Contains an unidentified fragrance

Our Take

A mild chemical exfoliator that stimulates cellular regeneration for smoother, clearer skin

RENEW SERUM

“Overall, this is a great exfoliating treatment that is nicely rounded out with anti-aging ingredients. Those like me with sensitive skin will want to approach it with a little care, but those who tolerate glycolic and retinol well will find Renew Serum a welcome warrior in the battle for even skin tone.”
