Glow Girl

5 PRODUCTS THAT WILL PROLONG YOUR SUMMER GLOW

BRONZE IN SUNLIGHT

"I love applying bronzing powder to lightly add color and contour my face every day! This one by glo minerals, a cruelty free company, gives you a hint of shimmer after applying, without overdoing it! The product is light reflecting and has two toned particles to help blend in with your face. Just throw this compact in your bag to reapply as necessary. I never leave home without it!"
