

GLŌ THERAPEUTICS SUPER SERUM REVIEW

Pros
Improves skin texture and tone

Cons
Contains some undesirable ingredients

Our Take
The professional-strength treatment kickstarts collagen production to restore more youthful-looking skin

SUPER SERUM

“glō therapeutics is sold through spas and estheticians. I mention this because I think it sets the context for how they are formulated. All of their products are made with reliable active ingredients that are not exactly ahead of the curve, but at least somewhere toward the top. The glō therapeutics buyer is a professional who wants products that will work for her clients, and Super Serum (\$120) fits the bill”
