

GET BOLD BROWS WITH GLÖ MINERALS LINERS

PRECISE MICRO BROWLINER

"Precise Micro Browliners from glö minerals are ultra slim to help you create fine hair-like filling that results in more natural looking brows. The long-lasting, wax-based formula glides on easily and won't budge or smudge for up to 10 hours. The liner is retractable and self-sharpening. A spoolie brush on the other end of the liner pencil helps you blend the color and smooth brows. It comes in six shades, ranging from blonde to raven."
