

GLÖ MINERALS CREAM STAY SHADOW STICKS

CREAM STAY SHADOW STICK

“The glö minerals Cream Stay Shadow Sticks are pigmented eyeshadows that glide on effortlessly and provide a powerful impact of color. Once applied and blended, I’ve found that they dry down to more of a powder finish, which I love because the cream doesn’t leave the eyelids feeling tacky. I’ve been using the lightest shade on my brow bone, and a few of the darker shades on my lower lash line.”
