

Director of Brand Development at Glo Skin Beauty
ANNA DE LA CRUZ, L.E.

"I am a skin therapist, educator, and product developer – but I am a client first. I completely understand the concept of wanting it all: healthy habits for age prevention while also balancing things like excess oil, breakouts, and sensitivity. Thankfully, I have our Daily Power C. Featuring three vitamin C ingredients, this lightweight, antioxidant serum provides the preventative, age-fighting benefits I am seeking, like strengthening, brightening, and protecting, while being suitable for my reactive, oily skin." gloskinbeauty.com

"I love the RapidEye™ Firming Wrinkle Smoother – I use it on my under-eye area in the mornings and before I go to bed. The formula contains peptides, sodium hyaluronate, and retinol to deliver long-term, firming, smoothing, and uplifting benefits. It also instantly hydrates and nourishes my skin, leaving it feeling refreshed and relaxed!" rapidlash.com

Visionary of ThermoClear USA
LORENZO KUNZE

"In my 45 years in the aesthetic medical profession, there has not been another piece of equipment that can be used every day, on so many different procedures, and with such a high percentage of client satisfaction. The ThermoCLEAR is safe, fast, and effective in treating epidermal skin imperfections. Most treatments take one time to complete, with minimal downtime and very little discomfort. With ThermoClear USA company adding a lifetime warranty and LMH-RF technology, it should make this unit No. 1 on every aestheticians list." thermoclearusa.com
