32 WAYS TO SHINE — IT'S SO EASY

## SUN SAVIORS

The number-one product to prevent aging keeps getting better with the latest intros of more invisible protection, upgraded ingredients and luxurious formulas.

Colorscience Sunforgettable Total Protection has a high amount of zinc, yet goes on clear; the unique gel formula of SkinCeuticals Sunscreen makes it hard to miss a spot; hydrating 100% Pure Tomato Lycopene merges mega benefits with an effective moisturizer; Jane Iredale now has an SPF 15 antioxidant-rich fragrance-free HandDrink; Revision Skincare Intellishade gets on all mineral makeover with TruPhysical; We Are Feel Good Inc. Sticky Zinc stays put even in water, as its name suggests; Peter Thomas Roth Max Mineral Naked feels like nothing; and Avène hits the mineral SPF mark with its Mineral Light Mattifying Lotion.

Non-clogging botanicals make VIVE SANA Daily Protezione perfect for sensitive skin; it's part of the men's line, but Marie Veronique Color-Free Sunscreen is so good, everyone will use it; it's worth the trip to Asia for argan-fueled AMIRA SPF 30; the blendable tint of Supergo! 100% Mineral Matte Screen takes the place of makeup; Glo Skin Beauty Daily Mineral Defense and Doc Block are both noncomedogenic, featherweight formulas; sheer Maslove The Sun Protector SPF 30 makes oily complexions matte; convenience rules with Beautycounter CounterSun stick; and Volition Prismatic Luminescing Shield delivers glow and SPF 50.

Bare Republic Mineral Whipped Mousse smells like vacation; super clear Alba Botanica Sensitive Sheer Shield soaks right in; ACT Elemental Sun Balm scores with a unique take on the tinted base-meets-SPF; face-and-body Coppertone Clear Zinc doesn't leave any residue; French-made Mimitika Face Sunscreen works amazingly well as a primer; natural Love Sun Body exceeds all SPF expectations; and La Roche-Posay Anthelios 60 Sport features photostable UVA/UVB filters.
