

## Keep Your Summer Glow with Nicole Townsend

### Hydra Repair Duo (Skin Protecting Power Duo)

“This is actually my favorite product, I started using this at the beginning of summer and I’m starting to see fabulous results. Both of these products work together to repair, hydrate and renew the skin. So, everybody who’s concerned about uneven skin tone, sun spots, hyperpigmentation, the Vitamin C and Hyaluronic Acid is going to help to lift those dark spots.”
