

My Daily Make-Up Routine

Moisturizing Tint SPF 30+

"I love this moisturizing tint because it is so light. It provides coverage and evens out your skin but it is not heavy at all. I also like that it has SPF in it."

Pressed Base

"This powder is the best. Provides great natural looking coverage."

Bronze - Sunkiss

"I wear bronzer year round because I like my skin to look slightly sun kissed. I have the shade sun kissed and like it because it is 2 colors. It gives a very natural looking bronze."
